Господа!
Рад, что лёд тронулся! Желаю удачи и поддерживаю изменения!
А пока изменений нет предлагаю - применить все самые строгие санкции к нарушителям существующего Положения про СПС. А именно к Николаю UX0FF(он сам признал свои нарушения публично).... В результате дисквалификации у него будет больше времени и вдохновения изменить существующий Закон, который для всех одинаков. Пишу каждому индивидуально, ибо Рефлектор меня не пускает....

Если не заинтересованы - зачем их выбирали? Если у них подход ответственный - то они должны отреагировать.

>Я - согласен потрудиться над разработкой проекта новой инструкции
>(инструкций?).

Сергей Иванович, при всем уважении к Вам - все же хотелось бы услышать мнение выбранных нами на недавней конференции людей, в первую очередь, КВ комитет. У них УЖЕ есть ПОЛНОМОЧИЯ. Пусть пользуются в полной мере. Зачем они соглашались на эти должности, если сами не собираются ничего делать, а только передавать полномочия?

Нам могут нравиться или не нравиться отдельные законы или инструкции, но мы не сами начинаем писать новые Правила Дорожного Движения или Конституцию Украины. Для этого мы и избираем специальных людей - депутатов или членов Совета ЛРУ. В этом, однако, и суть демократии...

UX0FF>Так что - ждать-то ?! Работать надо !А как этот процесс назвать - абсолютно все-равно
.

UX0FF>готовить Документы , по которым предстоит потом жить всем нам ...
UX0FF>А не выжидать , что это сделает кто-то за нас ...

Коля, давай сбацаем собственную инструкцию и будем по ней работать? Чего ждать-то? Никто не признает? А плевать, нам-то абсолютно все-равно :-)

Долгие процедуры - трудно ждать... Но альтернатива - анархия. Сами себе напишем правила и будем по ним жить. А другие - напишут другие. Идей у всех, в том числе и у меня, много.

Все же - в рефлекторе присутствуют и Президент ЛРУ, и Председатель КВ комитета и другие члены Совета ЛРУ.

Могут ли они внятно сказать - есть ли в планах разработка коррекций к этой инструкции? Есть ли проблемы? Нужна ли и какая помощь - от инициативной группы или еще какая-то?

Вообще - какие планы работы комитетов, по каким направлениям? Ведь СПС/УПС - не единственная тема и проблема. По каждому случаю будем быстренько придумывать инициативную группу? Нам все равно, как это назвать?

Я все же предлагаю идти законным путем. А чтобы не застопорилось - подгонять их, в этом и есть наша функция, на то и щука в реке, чтоб карась не дремал :-) А дальше - выборы, через

2 года...

73! Vlad UT0FT

Ну вот и Вы, Александр, стали на одну доску с теми, кто
как бы "разрешил" Николаю использовать СПС EM15FF в соревнованиях. :-)
Нет ни у Вас, ни у нас всех вместе взятых права применять санкции к
радиолюбителю-нарушителю. И разрешать, и наказывать - прерогатива
только УГРЦ. Мы можем только ходатайствовать.
Да и выглядит это как-то весьма некрасиво в предверие Дня Святого Николая.
Может, ограничимся общественным обсуждением в рефлекторе, объявим
ему радиолюбительское порицание и... амнистию в связи с праздником? :-)))
Ну, а если и ходатайствовать, то вопрос к знатокам Регламента
и Положения о СПС. А какие санкции могут быть применены УГЦР в
данном конкретном случае (без учета личности)? ;-)

P.S. А рефлектор Вас пускает. Он временами "тормозит" у всех...

Николай UX0FF!
От всей души поздравляю Вас Днём Святого Николая! Желаю Вам поболее принципиальности и настойчивости во всём!
Ваши "УЦЦ друзья" сетуют пожурить Вас да и отпустить с миром ради такого праздника. Я вспоминаю, как некоторое время назад была сорвана прекрасная островная программа экспедиций EM11E.Были спонсоры, пресса и телевиденье (в общем сильная идея и классная команда). За такое-же самое нарушение была показана "красная карточка", которая перечеркнула сильную идею популиризации Радио. Далее перестала существовать и классная коллективка UR4EWZ (UR2E), которая тоже показала нормальный рейтинг.
- Предлагаю Вам, Николай, не кривить душой, а признать свою дисквалификацию и остатся ЧЕСТНЫМ ЧЕЛОВЕКОМ. Вы недосягаемы и с самым длинным и обыденным позывным! Далее уверен, что все Вас поддержат в переработке ОСНОВНОГО ЗАКОНА. На сегодня выглядит, что Вы нарушили Закон и дабы Вам не дали "ВЫШКУ" - разводите суету вокруг СПС. Будьте честны и убедительны прежде всего сами с собой! Я, чем дальше - понимаю Вас и уважаю Вас более и более Хотелось бы видить в Вас убеждённого и приципиального БОРЦА за идеи Радио и эталоном настоящего радиолюбителя! Таких, как Вы мало!

Я за это "отсидел". Лично я приципиально поддерживаю идею перемен, но и приципиально не могу мириться с нарушением Закона! Настало время перемен, но не Амнистий.

Здравствуйте, .

Hello Oleg - UU1DX,
Вот вечером заглянул на тот сайт с дипломом, что ты мне
переслал и хочу тебе сказать, что затеянная тобой
провокация почти у тебя получилась!
Всем видно, что диплом МНОЮ не подписан,
http://crimea-board.info/~misterdx/ukrchamp2006.jpg
добавлю и готовился (распечатывался) он НЕ МНОЮ.
Тем более, что исчерпывающие разъяснения на этот счет дал
UT2UB, цитирую -
Олег!
А что тебе не нравится, да старый бланк, но специально напечатанный для
чемпионатов Украины.
У меня оставалось некоторое количество и я их пустил в дело, за RTTY и FD
были другие бланки, согласен более красочные и разных видов. Извини если
обидел....

73! Андрей

А теперь цитирую новое поколение, т.е. тебя Олега Чернявского UU1DX -

OC> Вопрос ?2:
OC> КТО именно печатал этот диплом? Не контест-комитет, а именно фамилия или
OC> позывной человека?

OC> Допустили лажу - имейте мужество признать, а то сразу начинаете стрелки
OC> переводить, типа:

>> Сейчас еще не поздно учредить и спонсировать Кубки на ЧУ
>> 2007 для подгруппы МО.

OC> Для того, чтобы возникло желание вложить в этот тест хоть одну сраную
OC> гривню, 1) замените 2 диплома, 2) извинитесь публично. Ответственность за
OC> данные случаи 100% за теми, кто производил награждение.

>> Критика, если она констуктивная-проходит,
OC> предложения, если они по делу также.

OC> Предложения выше. По поводу критики, уж конструктивнее некуда. Позорище, да
OC> и только...

OC> Если этого не будет сделано - я расцениваю оба случая как провокацию со
OC> стороны UY5ZZ, ну и тогда уж не обессудьте, web-страничку нарисовать сумею
OC> :) Думаю, что после массовго анонса этой странички в контест-рефлекторах
OC> изменение кол-ва участников в UKR DX и ЧУ обеспечено...

OC> Вам на нас насрать, что ж, почему б и нам стулом не кинуть? На тропу войны?

OC> Без 73
OC> Oleg
OC> UU1DX

Сомневаюсь, что хватит мужества извиняться прилюдно, но хочется верить
в лучшее, ведь моложе ты меня почти на 20 лет...

Ок, спасибо, Андрей Викторович.
Хотел бы пригласить войти в рабочую группу по выработке дополнений и изменений к существующей Инструкции относительно СПС и УПС, кроме упомянутых Николаем Михайловичем, также Валерия Ивановича, Игоря и Владимира, при их желании, естественно. Приглашаю также принять участие в работе группы каждого желающего. Учитывая заочный характер обсуждения, надеюсь, количество участников не скажется на качестве работы. С этого момента и до выработки консенсусного варианта Проекта дополнений и изменений все предложения по указанной тематике, мне кажется, лучше будет направлять мне только в приват.
Спасибо,

Валерий!)))
К Вам вопрос по сути - сколько станций подлежит дисквалификации по поводу нарушения Положения про СПС? Кто и на каком основании Вам дал право разрешать подобное действие, как работу СПС в контестах, даже очень уважаемому человеку?
- Прошу Вас подготовить соответствующие документы на дисквалификацию всех, без исключения, нарушителей (это Ваша конкретная работа).
- Прошу Вас помочь инициативной группе в решении вопроса по внесению изменений в Положение.
- А люди сами взялись за решение подобной темы - за что им моё почтение!
p.s. Я и не тонул, хотя постоянно читаю данную тусовку и не пытаюсь участвовать, но тема оказалась серьёзной...Повеселю Вас...

Думаю, надеюсь, новую инструкцию будет легче исполнить. Она должна быть либеральнее. Мое убеждение, наше хобби больше нуждается в разрешениях, чем в запрещениях. Запрещений и без того много написано державними установами и их следует соблюдать (правила дорожного движения). А вот написанное нами самими должно больше способствовать получению удовольствия и созданию дружеских отношений - это хобби (суды и прокуратура из другой жизни). Если встретилась коллизия, к примеру, участие спецколлом в тесте не позволяет объективно подвести рейтинг (а это хочется сделать), можно исключить такое участие при подведении рейтинга. Других прблем я здесь пока не видел. Все остальное касалось только последовательности действий Лавреки и других лиц. Все они нарушили инструкцию.
Я говорю уже о следующем шаге, что делать дальше. Коллизию из-за несовпадения инструкций следует урегулировать путем их совершетствования. Как по мне, так путем либерализации. Можно ужесточить порядок выдачи спецколлов. Кстати, и для того, чтобы не обесценивать их. Наверняка, сейчас они выдаются иногда тем, кто не оправдал доверия (плохо отработал, карточки не разослал ...). А ограничивать их работу, если уже выдали, мне кажется, не стоит.

Народ,
уж если решились менять, то почему бы заодно не утрясти вопрос по
поводу работы чужими позывными или с коллективных станций?
Шоб не было потом криков в рефлекторе на тему а почему ето Вася UR5LL
работал с позиции Пети UR5MM используя позывной деда Ивана U5TT и
посмел занять первое место.
Такая ситуация вполне нормальна здесь, в штатах, если ето выгодно для
контеста, например WPX...

Поддерживаю.Давно пора узаконить понятие гостевой оператор или как там
еще это назвать.Еще есть вопрос о работе коллективом под
индивидуальным позывным.Мне кажется, что так будет честнее, когда
заявится подгруппа MO вместо SO и справедливей чем работать позывным
несуществующей коллективки.Реально, ведь знаем все, часто
заявленный CO совсем не CO.Разговаривал об этом с Латышенко.Дэиксмены
конечно против, как же! страны достанутся индивидуалу.А как же тогда
"паровозы" на дэхе?К примеру донецкий паровоз-все так дружненько собрались
на частоте и пикают подряд дэха, ну может для приличия пропустят
кого-нибудь, чтоб не создавалось впечатление супер локального прохода
на Ur5i.
Надеюсь вопрос интересен не только мне.Коллективщики всех стран
присоединяйтесь!К обсуждению конечно
73!

Именно так.
за нарушения - и штрафы платят многотысячедолларовые (K1MAN) и турма 7
лет ходят (ктото из 6 района) и категорию не повышают с угрозой
забрать лицензию вообще (KC2LLM aka UR5DEM), но по определению
свободной страны - всё что не запрещено - разрешено.

я тут недавно переводил для UR7QM "избранные" куски, вот один из них в
переводе средней корявости:

97.7 наличие "оператора".
Любая РЛ станция во время передачи должна иметь оператора. Оператором
может быть человек:
(a) Для которого есть запись о радиолюбительском разрешении в ULS -
базе данных по лицензиям, или
(b) Иностранный гражданин, которому разрешено управлять РЛ станцией
согласно пункту 97.107

97.103 Ответственность владельца станции.
(a) Владелец станции отвечает за работу станции в соотвествии с
правилами FCC (ГИЭ по нашему). Если оператор станции не является её
владельцем, то они оба, в равно степени, отвечают за работу станции.
(b) Владелец станции должен назначать оператора станции. FCC
подразумевает, что владелец станции и есть оператор станции, до тех
пор пока обратное не задокументировано в журнале станции.
(c) Владелец станции должен предоставить доступ к станции и журналу
станции по требованию представителя FCC.

И ето всё !!!
никого совершенно не волнует чей позывной звучит в ефире, зачем и почему.
Если чтото случилось - отвечать будут все, и хозяин станции и оператор
и владелец позывного.

14660. СПС в Контестах

Здравствуйте.

Чтобы свернуть тему по просьбе модератора и в связи с тем, что за
сутки, кроме Игоря UT7QF, никто больше не высказал своего мнения,
хочу высказать свое личное мнение на свой же заданный вопрос:

> Ну, а если и ходатайствовать, то вопрос к знатокам Регламента
> и Положения о СПС. А какие санкции могут быть применены УГЦР в
> данном конкретном случае (без учета личности)? ;-)

Надеюсь, Регламент есть у каждого читателя данного рефлектора.
Так вот. При очень внимательном рассмотрении данной ситуации, ни один
из 13 пунктов раздела 8.3 "Ограничения при проведении любительской
радиосвязи" Регламента не нарушен. Нет ничего по данному конкретному
случаю и в разделе 13 "Ответственность пользователей (операторов)
ЛРС за нарушения требований данного Регламента".
Отсюда напрашивается вывод - Регламент не нарушен. А что нарушено?
Нарушен один из пунктов Положения о СПС и УПС, которое является одним
из приложений к Регламенту, но за нарушение которого санкций к
радиолюбителю со стороны УГРЦ самим Регламентом не предусмотрено.
> 1.5. Дозвіл СПС для участі в міжнародних змаганнях із радіозв'язку
> на коротких хвилях надається АРС у відповідності з її рейтингом,
> визначеним на підставі Положення українського контест-клубу.

> за попередній рік 1-10 місця та колективні АРС, які зайняли 1-3 місця
> у вказаному рейтингу.

А именно нарушено:

> В поточному році однієї і тієї ж АРС для участі в міжнародних змаганнях
> може бути наданий тільки один Дозвіл СПС для роботи з постійного місця
> розташування АРС.

Ответственность за нарушение Положения о СПС и УПС заложена в его
же разделе 5."Контроль и ответственность за использование СПС и УПС"
в п.5.3 и 5.4 :
> 5.1. Контроль за використанням СПС та УПС покладається на УДЦР, філії
> УДЦР та обласні відділення ЛРУ.
> 5.2. Виконком ЛРУ веде облік призначених СПС та УПС. Обласні

> в 10-ти денний термін подати інформацію у Виконком ЛРУ про надані
> дозволи на експлуатацію РЕЗ з використанням УПС.
> 5.3. АРС може бути позбавлена Дозволу СПС/УПС, якщо станцією були

> 5.4. АРС позбавляється права на одержання СПС або УПС на термін від

> одного до п'яти років:
> - за подання у Виконком ЛРУ, обласне (АР Крим, м.м. Київ та
> Севастополь) відділення ЛРУ відомостей, що не відповідають
> дійсності;
> - за порушення вимог п.5.3 даного Положення;
> - за незабезпечення розсилання відповідних QSL- листівок за проведені
> зв'язки.
> Рішення з цього приводу приймається УДЦР (філією УДЦР) на підставі
> даних об'єктивного радіоконтролю за роботою мереж аматорського
> радіозв'язку або на підставі клопотання ЛРУ.

п.5.3 отпадает, т.к. ни Регламент, ни положения о соревнованиях
нарушены не были.
п.5.4 тоже отпадает, т.к. сведения, не отвечающие действительности, не
подавались, п.5.3 не нарушен, карточки рассылаются без претензий.

Отсюда вывод - нарушение Положения о СПС есть, но за такое нарушение
применение санкций не предусмотрено ни Регламентом, ни самим Положением.
Всего не предусмотришь. Частный случай...

Всем спасибо за дискуссию. Думаю, свои плоды она принесла. И, учитывая
настоятельную просьбу мной очень уважаемого модератора, тему для
себя закрываю. Тем более переписка (скорее, перепалка!) забирает много
времени, а диплом "UARL-15" еще не выполнен, ДХ-ы уже заждались! ;-)

С Днем Святого Николая! Аминь!

P.S. Специально для Александра UR5EAW. Пожалуйста, прочитайте
внимательно данное письмо и все мои предыдущие. И Вы там найдете
все ответы на вопросы ко мне.

Здравствуйте, UX0FF.

Вы писали 24 декабря 2006 г., 13:59:12:

NLU> Всем , GD !
NLU> Вопрос к знатокам и первостепенно к UR7QM :
NLU> Когда точно заканчивается Разрешение на работу СПС EO15 ?!
NLU> В моем Разрешении написано : Термин дii:з 15.12.06 по 25.12.06 р.
NLU> Если со временем еще более менее понятно - очевидно в 23:59 Укр.,
NLU> а не GMT ... То как понимать - "по" ?! В прошлый раз , напомню ,
NLU> в Укрчастотнагляду ответили что это " включительно". Прошу дать
NLU> точный ответ :
NLU> Сегодня - в воскресение 24 декабря - ФИНИТА ?! Или все таки "пикаем"
NLU> до конца понедельника ?!

Из общей заявки в УГЦР:

Поэтому конец работы СПС - понедельник 25 декабря 2006 года в 23.59 УКР.

NLU> И - заодно - может кто все-таки даст наконец Информацию по
NLU> Димплому к 15 летию ЛРУ ?! Мне по этой причине все больше приходилось
NLU> работать в CW - там меньше было вопросов , на которые я (по крайней
NLU> мере ...) ответа не мог дать ...

Здравствуйте, SERGE.

Вы писали 25 декабря 2006 г., 11:57:47:

SU> "Про впорядкування в?дзначення пам`ятних дат ? юв?ле?в". Первый

SU> Надеюсь, что лично Вас не обидел (не было такой цели).
SU> Best 73 & 77 !
SU> SERGE US3IZ

Сразу оговорюсь, нет, не обидел абсолютно никак. Отвечаю.
Последние два года СПС выдаются согласно Критериям. Они утверждены
Исполкомом и согласованы с УГЦР. Вот они:

КритерЁ©
призначення спецЁальних позивних сигналЁв АРС Укра©ни

ВказанЁ позивнЁ сигнали можуть бути призначенЁ у зв'язку Ёз:
1. Видатними мЁжнародними подЁями та ювЁлеями, державними святами та офЁцЁйно запланованими ювЁлеями Укра©ни, що визначаються згЁдно вЁдповЁдних УказЁв, Постанов, Розпоряджень (Президента Укра©ни, Верховно© ради Укра©ни, КабЁнету МЁнЁстрЁв Укра©ни).
2. РЁчницями заснування мЁст та населених пунктЁв, Ёсторичних пам'яток Укра©ни, наукових Ё навчальних закладЁв нацЁонального рЁвня, а також пЁдприЩмств та органЁзацЁй рЁзних форм власностЁ, коли рЁчниця кратна 50 рокам.
3. РЁчницями визволення мЁст та населених пунктЁв Укра©ни вЁд нЁмецько-фашистських загарбникЁв, коли рЁчниця кратна 5 рокам.
4. РЁчницями заснування радЁоаматорських суспЁльних органЁзацЁй, клубЁв та колективних АРС √ коли рЁчниця кратна 10 рокам.

5. ЕкспедицЁями на острова Укра©ни, що мають статус за програмою ╡ОТА.
РЁшення по заявам про призначення спецЁальних позивних сигналЁв для заходЁв, що не ввЁйшли до п.п. 1-5 приймаються виконкомом ЛЁги радЁоаматорЁв Укра©ни окремо.

Отсюда:
Львов - 80 лет ЛКК - п.4.
EM15 - 15 лет ЛРУ - не соответствует п.п.1-5, поэтому было специальное отдельное постановление Исполкома.
Префиксы UR, US, UT, UU, UV, UW, UX, UY, UZ согласно Положению о позывных сигналах ЛРС Украины отнесены к "повседневным". Для СПС выделены EM, EN и EO. Поэтому хотеть "типа URZ60 или URA75" - не вредно. Вредно хотеть, но не иметь! :-)))
Пока так...
В остальном - ждите!

3. Categories: Single operator or multi-operator. Remote or Cluster spotting shall not be used. All transmitting and receiving antennas used must be within 100 km of each other.

4. Exchange: Four character grid square (i.e. CN85).

5. QSO Points: The number of QSO points for each contact depends on the distance between the two stations. This is computed by taking the distance between the centers of the two grid squares. Count a minimum of one point per QSO and an additional point for every 500 kilometers distance. For example, a QSO with a station 1750 kilometers away will count for 4 QSO points. No additional distance for long path is allowed.

QSO Points are multiplied by 2X if you work a low power station and 4X for working a QRP station. This is done based upon received logs and is computed automatically during the log checking process.

Do not worry if your logging software does not compute the QSO points. Our automated log checking software does this.

6. Score: Final score equals the total number of QSO points. There is no multiplier for different grids worked. Stations running 5 to 100 watts output multiply their score by 2. Stations running less than 5 watts multiply their score by 4. Scores will be grouped by category.

7. Reporting: Your log can be sent via the internet to TBDC@... using the Cabrillo format before January 31st, 2007. Paper entries can be mailed to BARC 15125 SE Bartell Rd; Boring, OR 97009. If possible, please provide an electronic copy of your log. You can use the tool INSTEW.EXE to generate a Cabrillo log from your paper log. It can be found at http://web.jzap.com/k7rat/stew.html.

8. Plaques will be awarded for categories we have sponsors for. To volunteer to sponsor a plaque, contact Lew Sayre, W7EW at Lew@dsl-only.net. A list of the plaques sponsored can be found on the web at http://jzap.com/k7rat/stew.html. Certificates will also

be sent to the high scores in each grid field (first two letters of the grid). This service is provided by Jim, K1PX.

9. Results are published on the web in September or October. Look for an announcement on the topband and contest reflectors.

Дорогие Коллеги!

Примите мои искренние поздравления с окончанием такого непростого
для нас года Собаки и с наступлением года Свиньи. ;-)

Собака гавкав цілий рік,
Але не зміг нас покусати,
Нехай звучить веселий сміх -
Пора Свиню нам привічати.

Ось мирно хрокає вона,
Щодня нарощуючи сало,
Зроста нехай до розмірів слона,
Щоб ковбаси всім вистачало.

Удачі всім в наступнім році:
В DX, контест та іншому зв'язку,
І сподіваюся, що нам у хоббі
Ніхто не підкладе свиню!

С Новым годом, друзья! Здоровья Вам и Вашим близким, удачи, терпения
и благополучия во всех делах, в том числе и в нашем, безнадежном... :-))

Ну почему же?!
В двух последних подгруппах будут работать только те,
кто не оформил себе в УГЦР согласно регламенту 1 КВт
для участия в международных соревнованиях.
Но таких будет, видимо, совсем мало!
Мы, аматоры Украины, - народ законопослушный! ;-)))

The EU Sprint Gang is proud to announce the Winners of the
2006 Eu Sprint Plaques.

This is the sixth year that this award is issued and it goes
to the three operators with the highest combined scores, having
entered at least three of the four European Sprint contests in 2006.

2006 Winners are:
#1 - Filipe Lopes, CT1ILT - 782 Points
#2 - Bernhard Buettner, DL6RAI - 723 Points
#3 - Igor Korolkov, UA4FER - 518 Points

Congratulations!

There are also certificates for the winners of each Sprint and the
leading score from each country. Prizes will be sent out by the
end of March 2006.

This year the first place goes to Filipe, CT1ILT, who won 2 of
the 4 Sprint of the year, ending 3rd and 4th in other two events.
The only serious competitor for Filipe was Ben, DL6RAI, who
did, in the four contests, only 59 QSOs less than CT1ILT.
For the winner, the key-event was the Fall SSB Sprint where
CT1ILT did his masterpiece beating everyone else by over 50 Qs.
Third place goes to Igor, UA4FER, who ended very far from the
best two scores just because in the Spring SSB event he did only
a marginal participation with just 30 QSOs.

The fourth place goes to Dave, G4BUO, that could have easily got
a much better score but, unfortunately, he was only able to operate
in 3 of the 4 Sprints. Everyone else is quite far from the top scores.

The top Low Power score belongs to Franta, DJ0ZY, who operated
as DD5M, ending #8. Other stations achieved a best score but they
did not operated LP in all 4 events.

Rules, full results, past scores and all time records can be seen
at: <http://www.eusprint.com>. Please tell all your friends to
get ready for the European Sprint contests in 2007!

Happy New Year from the Eu Sprint Gang!

Леня, с Новым Годом,

Обращаться ко всем можно, чтобы выяснить мнение (тех, кто захочет его сообщить).
Чтобы ожидать решения, нужно обращаться к конкретным людям. Председателю КВ комитета ЛРУ, Президенту УКК, Председателю Судейской коллегии, да и к самому Президенту ЛРУ...

Пока они не захотят, ничего не случится. Хотя идея, как видно, витает в воздухе и ее поддерживают большинство casual contesters. И даже чемпионов. Авторитетный голос UU7J уже звучал, они поддержат.

Помоему как раз когда все будут работать LP вычислить нарушителя
будет очень сложно.Очень сильно будет сказываться эффективность
передающих антенн при 100 ваттах.Ну и естественно у кого нормальные
антенны тот окажется "кАзлом".А кто ими никогда не занимался тот
будет "честным".

Че то я не одного вопящего еще не слышал и не видел.Может я что
пропустил или вам просто так хочется :-))

Это еще Николаевская область,а что говорить про связи западной
Украины с восточной.Чемпионат превратится в мазохизм для западной и
восточной Украины.А лучше всего будут чувствовать себя
центральные области.

Когда-то в конце 80-х мне приходилось неоднократно возить QSL-почту из
Киева в Донецк. Мое впечатление от структуры входящей почты в то время:
30% - Донецк, 30% - Луганск и 30% - остальная Украина.

Владимир Федорович! Читайте Положение!
В этом году борьба RK3AWL-UU7J была нешуточная и еще не известно куда
поедет Кубок: в Керчь или Зеленоград.

Здравствуйте, rv3ba,us2iz...
Виноват, зашел на сайт и прочитал .
Действительно теперь есть общий зачет .
Но 13 категорий все же присутствуют.
3-4 года назад , когда еще участвовал , то соревновался среди 12
или 13 станций "иностранцев" в HP
Не соглашусь только в главном - кубки и чемпионаты СССР были
настоящими КОНТЕСТАМИ!

Смею Вас заверить, что в SOAB HP надо сильно постараться, чтоб войти в 10-ку. Поучаствуйте, не пожалеете. В прошлом году 62 участника. В этом, надеюсь, будет больше. Результаты первой 20-ки довольно плотные. Разве это не КОНТЕСТ?

Здравствуйте, rv3ba.
Max! Может в категории MO это и так, но SO
более 10 категорий участников :верхние
бэнды,нижние бэнды, ветераны,инвалиды,
LP,HP.....
Все это, по моему для таких контестов лишнее-
убавляет к-во участников, уменьшает
соревновательный эффект даже если потом всех
объеденить в ОБЩУЮ категорию SO

Хотелось бы как начинающему кантестмену узнать,в чем заключается
крутость теста?Чем тогдашние тесты круче нынешних?Больше участников
было?Или как?Вопрос не с "подь...кой"-просто интересно.

Здравствуйте, Roman.
Рома! По мне все заключается в возрасте, н1
В те годы я был такой же молодой и одержимый,
как ты сейчас. Чувство контеста было ОБОСТРЕНО!
Но возвращаясь к предыдущим мсг однозначно
говорю и сейчас -
я бы сделал только две категории SO, MO

ATTN:

Dear YL, XYL or OM.

Thank you very much for participating in the DARC WAEDC CW Contest 2006
and congratulations for your score.

The WAEDC CW results are online as usual at: www.waedc.de

The biggest change this year is that we have an online certificate available for every participant for self printing in high quality. No more waiting for a nice piece of achievement on your shack wall.

We had a great team working very hard to get the scores out in time. Without these people this task would not have been possible at all!

WAE-DX-Contest Team:
DK1BC DK9TN DJ1YFK DL1MGB DL2LAR DL2YOU DL6MHW DL6OCK DL8MBS DL8WPX DL8WX

I would like to see your call again in WAEDC CW 2007 on the participants.

If you have any questions or discovered any errors feel free to email me
via df7zs@...

With best regards and good DX

Здравствуйте, .

Прохождение на 20м так толком на ближнюю зону, т.е. на UA3 и не
открылось. А ведь там основное количество корреспондентов !
Да 15-ка подвела, испытываемый PA заупрямился...
Украинцев насчитал более 30, только из запоржской области работали
5-6 станций.
Вот что получилось -

Soapbox Comments
9M6XRO: Rig - Yaesu FT-1000MP & Quadra Linear, 400 watts output. Ants up 27m
(1) 2el Quad (2) Butternut HF2V Vertical. Bands very flat. Openings to
Europe were poor and much shorter duration than usual. I was not able to
copy the weaker sigs to get a good run going. Sunday was slightly better
than Saturday but that is not saying much! Fingers crossed for an upturn
next year... CN8YR: First time I use N1MM for WAE contest. I had problems to
log some UU, RW, RK, stations because they are not considered as european
stations. A serial number was given to these stations but they were not
loged by N1MM. Sorry for following stations: UU9CI, UU7??, RN6HZ, RK2FWA,
UA4LU, RW4PL, UA6LU, UA3QDX. CU2JT: Social engagement prevented me from
fully participate in this year's WAE contest. I worked most of my old
contest friends to give them the CU multiplier as I believe no other CU
station was on the contest. I was glad to notice that 15 and 10 meters were
open to the USA and South America but I was surprised that the activity was
not more intense on 40m first night. This is one of my favourite contests

and it was a pity that other activities kept me away for a good deal of the time. I will be back next year and I will tell my wife to make a better planning on the cocktail parties and other activities during the WAE weekend. E-MAIL: garwik@... DD1IM: Normally I love the qtc traffic, but my 3rd wae was a disaster: worst performance ever, big time wasting with calling s9-stns, who did not hear my weak sigs, begging 4 qtcs while being overridden by qros. To enter with low power, poor ant condx & limited op time is pure masochism. Really a pity... but tnx 2 all ops, who did hear me. And also tnx 4 the often friendly way of qsoing. Vy 73, gl es cwfe de Sascha DD1IM (member of DARC, DOK K27) DEOMBS: As there was no chance this weekend to operate under my call DL8MBS I gave the new K2 a try with a SWL-participation. Pure and simple setup: Only rx, wires, pencil and paper - no cluster, packet and no tape, too. But big fun. DF9LJ: CLUB BCC DJ1OJ: band condx and op not in good shape.... All in all it was great fun to participate again in the best Contest after 16 years!! DLOAD: - DLOBO_P: This time a lot of problems with the equipment. Many new things wor ked not as they should work. Lost 6 hours. But all time a good feeling and next time the equipment will run 100% DLOLA: Low sunspots kept high bands closed. Low bands weren't too good either, lots of static crashes on 80! Highlights were being called by VK6HD on 80 Satur day night and a surprising 10 m opening to the US on Sunday afternoon. Congrats t o the competitors at DM1A! DL1SBF: Hat Spass gemacht, auch wenn es gerne etwas mehr h?tte sein d?rfen...., der olympische Gedanke z?hlt > dabei sein ist alles. Владимир прав на 100%! И чтобы не вступать в полемику насчет автобана,
приведу выдержки из правил пользования рефлекторами. Которые регулярно
публикуются модераторами и которые некоторые просто не читают.

ПРАВИЛА

1. Модерируемые рефлекторы являются местом цивилизованного
обсуждения любых вопросов и обменом информации связанных с
их тематикой.

3. !!! Технические требования.
При написании писем в данные рефлекторы следует использовать
кодировку KOI-8R, UUEncode. Использование в теле письма тэгов
HTML - запрещается.

6. Не допускается использование цитат сверх необходимого для
понимания темы. Не допускается цитировать полностью письма лишь
для того чтобы сообщить "...и я также думаю" и т.д. При цитировании
писем рекомендуется использовать символ ">" первым в строке
оригинального письма. Старайтесь не цитировать рекламные строки, внедряемые в
письма сервером . При цитировании рекомендуется оставлять подпись автора
оригинального письма.

Эти пункты нарушаются сплошь и рядом!

Игорь, а почему ты написал, что в соревнованиях победила РАДИОСТАНЦИЯ UT1IA? Если так рассуждать, то и на радиостанции UT7QF оператор значения не имеет. Только сетап?

На мой взгляд, очевидно, что в соревнованиях победил ОПЕРАТОР РАДИОСТАНЦИИ UT1IA. Возможно, сам Владимир Гордиенко UT1IA. Возможно, коллектив, если заявлена работа MS (M2, MM). Возможно, UX0II. В последнем случае в итогах скорее всего уже будет указано - UT1IA (op.UX0II).
Какие тут проблемы? Тем более моральные. Если бы проводились соревнования по оценке средств (личных усилий, времени...), вложенных оператором в setup станции, тогда, конечно, UX0II не мог бы быть победителем и был бы уличен в обмане.

В дискуссии об индивидуалах и коллективах не замечают один ключевой аргумент, хотя он высказывается время от времени. Индивидуал (SO) и коллектив (MO) - это суть подгруппы в положениях о соревнованиях. Но не сетапы, не позывные...

А вот сетапы и позывные - это лишь организация нашего дела (кстати незабудем, досуга). Кому-то нравится быть единоличником, а кому-то нравится все делать только вместе с единомышленниками. Именно поэтому существуют варианты как выступления индивидуала с "коллективной" радиостанции, так и выступления коллективов с "индивидуальной" радиостанции. В частности, и в зависимости от того, кому какой сетап удалось сделать. Если Украина в своем регламенте будет оба вида радиостанций трактовать именно просто как радиостанция, россиянам останется лишь в очередной раз позавидовать нам :-)

Hello, УВАЖАЕМЫЕ!.

Не пойму, почему все "прикинулись" непонимающими сути!
Какой то DX инг начали вспоминать и всячески уйти от СУТИ!
А суть в следующем!!!!
Какая разница откуда работать?? Главное соблюдать "Регламент
...",хотя на сегодняшний день он и устарел! Но другого пока нет и
мы ОБЯЗАНЫ его соблюдать!
А самое главное - РАБОТАТЬ ЧЕСТНО!
Так что Игорёк, как не уходи от темы, а всё равно .....!!!!

На Главпочтамте в Киеве я заплатил меньше 30 гривен (платить нужно
строго до окончания года, иначе заберут ящик, и я уже забыл точную
сумму). Зато еще немного помню, что купон IRC я купил за 10 грв 34 коп
(последние 2 цифры не уверен). Так что, ящик стоил 3 купона.

Здравствуйте, .
Пересылаю письмо Евгения RW3QC -

Принимаются заказы на русскоязычную версию книги ON4UN "Low Band DX-ing".
Материал книги исправлен и переведен на русский язык

Первый тираж книги (100 экз) разошелся быстро и, учитывая неоднократные запросы, а также тот факт, что Джон ON4UN любезно разрешил напечатать дополнительный тираж (tks RA3AUU), принято решение о выпуске 200 экз. книг.

До выхода книги из печати (середина февраля) стоимость одного экземпляра
составляет 2000 рублей (около 80$).
RW3QC also UW3QC

Заказы по Украине принимаю я - UY5ZZ . Стоимость в Украине та же -80
у.е.
Предварительные заказы на мой E-мэйл.

Еще - шахматы могут потягаться,
остальные - таки да, отдыхают ~;)

Только в этих видах "спорта" можно,
не отрывая жопы от стула 48 часов,
выпить пару-тройку пляшек водки,
банку кофе, выпалить блок сигарет,
- и стать чемпионом мира!

Молодые!, равнение на нас! - мы до сих пор живы!

Здравствуйте, Владимир.

Вы писали 24 января 2007 г., 6:44:30:

ВШ> ЗДРАВСТВЙЦ, ВАЛЕРА!
ВШ> НА ЯХО Я ПОДПИСАН УЖЕ ЛЕТ 15.
ВШ> ВЫШЛИ ФАЙЛ ДЛФ ПЕРЕПОДПИСКИ НА УР КОНТЕСТ.
ВШ> МНОГИЕ НАШИ РЕБЯТА НЕ ПОЛУЧАЮТ УЖЕ 2-3
ВШ> МЕСЯЦА НИКИКОЙ ИНФОРМАЦИИ.
ВШ> С УВАЖЕНИЕМ ВЛАДИМИР us9qa@...

Публикую по просьбе Владимира и не только его. Сразу приношу извинения тем, кто посчитает данное письмо длинным и бесполезным. Надеюсь, место для него (письма) в корзине найдется... ;-)

В любом случае на Yahoo.com необходимо подписаться.

I. Вы были подписаны ранее, то для разблокировки нужно (постранично):

1. Заходим на www.yahoo.com
2. Слева вверху жмем "My Yahoo"
3. Слева вверху жмем "Sign In"
4. При наличии логина и пароля заполняем строки "Yahoo Id", "Password" и жмем "Sign In"
5. Вверху жмем на надпись "My Account"
6. Заполняем снова пароль и жмем "Sign In"
7. Справа в колонке "Options" ищем жмем на "Groups"
8. Справа посередине жмем на надпись "My Email Preferences"
9. В колонке "Bounse History" находим "Unbounse" и жмем на эту надпись. При нормальной подписке там должно быть написано "Show History".
10. После этого нужно здесь же подтвердить намерение ЯХИ послать на ваш адрес запрос. Подтверждаете и можно выходить из интернета. Через некоторое время получите письмо, в котором будет указан длинный линк. По нему снова заходите на Yahoo, которая с большой радостью сообщает о разблокировке. Или сдалать этому письму Replay и отослать назад без каких либо изменений. Теперь можно проверить состояние "Show History" в п.9.

Если пароль будет неправильный (или забыли), то Yahoo спросит "ЗАБЫЛИ ПАРОЛЬ?" и после подтверждения состояния склероза, пришлет письмо на адрес, с которого была произведена подписка, и которое нужно просто переслать назад (Replay). После этого пришлют пароль.

II. Если Вы никогда не были подписаны:

1. Заходите на сайт www.yahoo.com и справа вверху кликните кнопку ⌈MY (My Yahoo!)■. Загрузка страницы, на которой кликните ⌈Sign In■.
2. Новая страница. Здесь заполните ╚имя╝ ID и пароль Password (последний -

6 и более знаков). ЗАПИШИТЕ ТОЧНО и в дальнейшем ими пользуйтесь, соблюдая ВЕЗДЕ регистры. ╚Имя╝ и пароль могут использовать буквы и цифры. Совсем не обязательно, которыми Вы пользуетесь в своем Интернете. Кликните ⌠Sign UP Now■. Загрузка┘
3. Новая страница. Здесь заполняете все предложенные графы. Очень точно заполните свое ⌠имя■, пароль и в графе ⌠Alternate Email■ свой email, на который Вы получаете информацию из рефлекторов. Остальные графы заполняйте, как хотите, но соблюдайте предложенные параметры.
Например, выбрать месяц рождения и проставить две цифры (день) и четыре (год) рождения. Иначе в следующем шаге вас вернут назад для исправления и коррекции.
В строке ⌠Enter the code shown┘■ напишите слово, предложенное ниже (искривленно-размазанное). Кликнуть ⌠Submit This Form■. Загрузка┘
4. Новая страница. Кликнуть внизу ⌠Continue to YAHOO!■. Загрузка┘
5. Новая страница. Кликнуть вверху [Account Info]. Загрузка┘
6. Новая страница. Снова ввести пароль и кликнуть ⌠Continue■. Загрузка┘
7. Новая страница. Вы увидите все ранее записанные Ваши данные.
В колонке ⌠Options■ кликните ⌠Groups■. Загрузка┘
8. Справа посередине жмем на надпись "My Email Preferences"
9. В колонке "Bounse History" находим "Unbounse" и жмем на эту надпись.
При нормальной подписке там должно быть написано "Show History".
10. После этого подтвердить намерение YAHOO послать на ваш адрес запрос. Подтверждаете и можно выходить из интернета. Через некоторое время получите письмо, в котором будет указан длинный линк. По нему снова заходите на Yahoo, которая с большой радостью сообщает тебе о разблокировке. Или сдалать этому письму Replay.
Теперь можно проверить состояние "Show History" в п.9.

При условии наличия логина и пароля можно разблокироваться и другим способом. Опишу после проверки с ╚чужого╝ компьютера. Мои компьютеры Yahoo уже знает, приветствует и сразу допускает меня через несколько страниц. А нужно ╚прошагать╝ по каждой. ;-)

Следует заметить, что даже после разблокировки, Yahoo имеет моду выдержать хорошую мину и пропускает иногда письма после нескольких (даже!) часов.
Это по моим наблюдениям. Хотя и не обязательно.
Ну вот где-то так. В случаях длительного отсутствия лучше либо отписаться, либо дать команду на отписку на определенное время. Я об этом где-то читал. Попытаюсь найти, включить в данный ╚труд╝ и разместить его на каком-либо сайте для всеобщего пользования.
При повторных и следующих отключениях регистрироваться уже не нужно.
Используйте имя и пароль предыдущей регистрации.

P.S. Имидж страниц сайта Yahoo! может изменяться и поэтому возможны некоторые изменения по сравнению с указанным выше. На моей памяти уже трижды. Но принципы восстановления подписки, а именно - добраться до "My Email Preferences" и "Bounse History", остаются практически неизменными.

Все замечания прошу в приват. Приму с благодарностью. Один ум хорошо, а кум лучше! :)

Удачи!

Добрый день,

Провел 690 QSO, multiplier 70 C + 9 US/VE. Total score: 289140.
DX mult: 3W 4J 4L 4X 5B 7X 9H 9N BY CN CT CT3 CU EA6 EA8 EI EY GD GJ GM GW HZ JA K KP2 LX OH0 PJ2 ST TA UN VE YU6 Z3 ZA ZC4

US/VE: CT GA MA MD NJ NY PA NF PEI

Американцев было 10 и канадцев - 4 (кроме одного, позвали сами, но только NF и PEI). Позвали сами 4K9W, 9N7JO и 3 японца. С субботы на воскресенье прохождение было хорошее. Антенны требуют совершенствования, особенно на прием, поэтому сильно не старался - все ночи частично отдыхал. Хотя operating time вышло не мало - 21 час. По утрам слушал на беверидж (единственный, но западный), поэтому зевал слабых UA9-0. Отвечаю 9A7JO (А не слышал, а додумал на всякий случай) и когда переключаюсь на дельту обнаруживаю зовущего меня 9N7JO с сигналом в 8-9 баллов. Помнится, он и в телеграфном WW сам на 160-ти позвал. Так что, слушать на беверидж опасно, хотя очень комфортно - лучше всех фильтров и аттеньюаторов все дергания и дыхание диапазона снимает. Как атмосферное, так и рукотворное - щелчки и хрюкания. Слушая на дельту, ловлю себя на том, что устал и хочется бросить все и пойти отдохнуть. Включая беверидж, забываю про усталость, дискомфорта как не бывало - можно работать дальше.

Дима UR4LRG работал в категории малти-сингл(UR4LRG + claster) и
должен кинуть свой резалт,а я скажу по памяти что
японцев он взял около полусотни и китайца одного схавал.Мог бы и
больше японцев намесить но не мог в первый вечер найти частоту в
японском участке.Японцев приходилось слушать на 90 градусный
бевер из-за того что на 60 градусный радар
китайский резал по ушам.

Я понимаю это иначе! Очень хорошее объяснение мне дала судейская
коллегия RusDXC, когда Вы, Владимир Федорович, "спалили" Диму
UT5UGR. Они ответилили на мой запрос очень корректно, а именно, что
они не обязаны знать регламенты других стран! И это правильно и
справедливо! Но наша коллегия судей и URDXC contest committee не то
что не знают регламентов других стран, а и своего тоже! И дело
совсем не в UT5UGR! Просто если мы хотим поменять регламент, так
давайте его менять, только зачем "бежать впереди паровоза"?
А законность уже давно определена:"Работа не присвоенным
позывным сигналом", и реагировать должны не "ТРУДЯЩИЕСЯ, типа
тебя", а в первую очередь membeты URDXC contest committee....

Костя!
Можно было бы обвинить остальных членов данной команды UT5UGR
в нарушении Регламента, если бы в судейской коллегии или у кого-то
из участников были бы неопровержимые доказательства, что все данные
операторы РАБОТАЛИ В ЭФИРЕ под чужим позывным. В этом случае хозяин
позывного был бы закрыт на срок до 3-х месяцев, остальные - до года.
Но таких доказательств нет ни у кого. Есть только предположения.
Вступает в силу презумпция невиновности.
Ну захотелось ребятам адреналина, а заодно и позлить нашу радиолюбительскую
братию! Видимо, пионерский горн у них в одном месте до сих пор играет. :-)))
А в Полевых днях разве не так? Регламент-то один и для КВ, и для УКВ.
В УГЦР сообщать не нужно. В середине января у меня был разговор с УГЦР
по поводу некоторых вопросов использования СПС, и тогда же мне
вскользь сообщили о претензиях со стороны УГЦР к UT5UGR, и не только
по данному факту. Подробностей не знаю. Забот по СПС хватает!

Валерий Иванович!
Давайте быть объективним ко всем!
Какие еще нужны доказательства, если в отчете есть список
операторов, работавших не присвоенным позывным сигналом?????
Что надо доказывать??????

Опять же повторяюсь!
НЕ В ДИМЕ UT5UGR ДЕЛО!
А дело в том, что бы эти горны не заиграли у других!
Ну, а Полевой день это вообще отдельный разговор!
Честно говоря, я бы ВООБЩЕ упразднил бы в Полевом дне

Я действительно не прикидываюсь, а понимаю, что такое МО и SO и
SO2R! Впрочем, как и все здесь присутствующие прекрасно
понимают, что зазницы НЕТ! Как и нет разницы между HP и LP! Правильно! В
рефлекторах СТО раз обсуждалось! НО! Обсуждалось в свете
ПРЕДСТОЯЩИХ изменений в Регламент!!!! Но сегодня мы "маемо що
маемо" и никто существующий регламент не отменял! А согласно
существующего регламента, это нарушение квалифицируется как
работа не присвоенным позывным сигналом, что так же уже СТО раз
обсуждалось!
> p.s. Встречный вопрос: Костя, а ты 100% соблюдаешь Регламент,
> на 160м например, или РА 200Вт и т.д. ... ? :)
Володя!
Только не надо это переводить в русло - "сам дурак"!
Тема очень актуальная!

Саша! Если ты зайдешь на страницу с Положением

http://www.ucc.zp.ua/urdxc2006rules_rus.htm

и прочитаешь вот эту часть -

Судейство URDXC осуществляется программными методами.
Все связи проходят UBN (unique, bad, not in log) проверку.
Связи с уникальными позывными к зачету не принимаются, но штрафные очки за них
не начисляются. Связи с неправильно принятыми позывным или номером (bad), а
также отсутствующие в другом отчете (not in log) к зачету не принимаются, за них

начисляются штрафные очки в размере утроенной суммы очков за равноценную связь.

Связь не засчитывается, но штрафные очки не начисляются если:
позывной участника неверно принят корреспондентом;
контрольный номер участника неверно принят корреспондентом;
при расхождении времени (кроме систематических) более 3 минут;
при несовпадении диапазонов и видов работ (кроме систематических);
связь не подтверждена в отчете корреспондента, но фактически является повторной.
Решение контест-комитета является окончательным и обжалованию не подлежит.
Участник соревнований может быть дисквалифицирован за нарушение данного
Положения или неспортивное поведение.

После всего этого ты, надеюсь , себя "дураком "называть не будешь, а
извинишся за такую БЛАГОДАРНОСТЬ в адрес URDXC committee и останется
только " не разобрался "

Кстати, на первое место в QRP подгруппе притендовал UZ7M с 870 ЩСО,
но после определенной работы URDXC committee он по собственному
заявлению перешел в другую подгруппу , а тебе досталась победа
с твоими 540 ЩСО. Это так из будней нашей работы...
Кстати , под номером 2. Я работал часов 12-14 в большой мощности
(ГУ43Б) с 4 , 5, 6 квадратами и осилил только 700 ЩСО.

Меня на "петнашке" позвал 3W9JR. Не успел толком обрадоваться, следом

подначивает. И тут зовет какой-то хилый Y... Душа опустилась,
переспрашиваю кто-такой. С трудом разбираю... YR9P! :-)
И еще о пользе кластера. На 80-ке сам позвал W4UEF, через пару минут -

Теперь понятно, почему янки друг друга бесконечно спотят.

Здравствуйте, .

---------- Пересылаемое письмо ----------
От: RW3QC <RW3QC@...>

Дженпльмены!

Перед началом антенно-фидерного сезона "весна-лето 2007" продолжается прием заказов на русскоязычную версию книги ON4UN "Low Band DX-ing".
Материал книги исправлен и переведен на русский язык (tks UA0ANW за организацию процесса)

Первый тираж книги (100 экз) разошелся быстро и, учитывая неоднократные запросы, а также тот факт, что Джон ON4UN любезно разрешил напечатать дополнительный тираж (tks RA3AUU), принято решение о выпуске 200 экз. книг.

До выхода книги из печати (конец февраля) стоимость одного экземпляра
составляет 2000 рублей (около 80$).

Предоплата до выхода книги из печати не требуется. Необходимо лишь
заявить о намерении приобрести книгу по E-mail: RW3QC(et)mail.ru

Книгу можно получить:
в г.Москве - в офисе фирмы "Юником" или заказать доставку курьером (150 р)
в г. Санкт-Петербург
в г. Воронеж
в г. Красноярск
в г. Краснодар

в другие города - обычной или экспресс-почтной, транспортными компаниями.

по Украине - через UY5ZZ
UY5ZZ(et)mail.ru

Вся инфо в привате.

Евгений, RW3QC

GACW WWSA CW DX Contest
World Wide South America

I - DATE:

SECOND WEEK END OF JUNE EACH YEAR
9th/10th JUNE 2007 - 15.00 UTC saturday till 15.00 UTC sunday - 24 hours
period.

II - Objective:

For amateurs around the world to contact other amateurs in as many CQ zones
and radio countries as possible in A1A mode (CW). (WORLD WIDE CONTEST -
everybody-works-everybody) - A station can be contacted once per band only.

III - Bands

All bands, 3,5 through 28, no WARC/160m bands.

IV - Categories:

Single Operator Categories
Single band or all band; only one signal allowed at any time; the operator
can change bands at any time.

Single Operator High
Those stations at which one person performs all of the operating, logging,
and spotting functions. The use of DX alerting assistance of any kind places
the station Multi Operator category.

Single Operator Low
The output power shall not exceed 100 watts.

Single Operator QRP
The power output must not exceed 5 watts.

Multi-Operator Categories
All band operation only.

Single Transmitter
Only one transmitter and one band permitted during any 10 minute

period
defined as starting with the first logged QSO on a band. Exception:
One-and
only one-other band may be used during any 10 minute period if-and
only if
the station worked is a new multiplier. Logs found in violation of the
ten-minute rule will be automatically reclassified as multi-multi.

Multi-Transmitter
No limit to transmitters but only one signal and running station
allowed per
band.

V - Number exchange:

RST report plus CQ zone.

VI - Multiplier:

Two types of multiplier will be used.
1. A multiplier of one (1) for each different zone contacted on each
band.
2. A multipier of one (1) for each different country contacted on each
band.
Stations are permitted to contact their own country and zone for
multiplier
credit. The CQ WAZ definitions, DXCC and the GACW country list, WAE
country
list, and WAC boundaries are standards. Maritime mobile stations will
count
only for a zone multiplier.

VII - Points:

1. Contacts between stations on different continents are worth three
(3)
points.
2. Contacts between stations on the same continent but different
countries,
one (1) point.
3. Contacts between stations in the same country are permitted for
zone or
country multiplier credit but have zero (0) point value.
4. Contacts with South American stations = 5 pts. (Only for non SA)

VIII - Scoring:

All stations: The final score is the result of the total QSO points
multiplied by the sum of your zone and country multiplier. Example:
100 QSO
points x 100 multiplier (20 Zones + 80 Countries) = 10,000 (final
score).

IX- Awards:

Diploma Urano D. Silva, LU1DAY to the first one on each category.
Diploma Proyecto TITAN, to the first one in the multi-single and
multi-multi
categories

The awards and plaques will be send inmediatly after the contest
results

sen> Ed N1UR

Hi Ed and everyone!

My appologies for the delays but it takes time to come up with
selection criteria we are planning to have.

Anyway, I'd like to give you some ideas what it can possibly be.

The contest list.
The contest list will definitely include CQWWSSB, CQWWCW, CQWPSSSB,
CQWPXCW, WAEDCSSB, WAEDCCW, ARRLSSB, ARRLCW, IARU and RDXC. We may
also add NA contests for NA and EU contests for EU and some others,
but this is under discussions yet.

Contest ranking.
Contest ranking will depend on number of participants in the contest,
total QSOs made and time format.

Contest scores weight.
The formula for contest scores weight will strongly support Maximum
(All band and All mode) entries. We also plan bigger support for
MS/M2/MM entries.

Team alocations.
There will be team alocatons by Continents and Areas. All continents
will have number of seats. Both US and Europe will be splitted by 3
ares as it was previously done with some changes in splitting Europe.

There are number of other ideas and they all are in process of
discussions. I believe it will take us 3-4 months until we can post
more detailed information.

Now I can just advise you guys to participate in RDXC 2007. You'll
enjoy it very much.

Да не, он пошутил! !))) - это у него смайлики такие.
Диплом за третье место, видит Бог, я заработал ПОЧТИ сам.
Каюсь! Помогал шестилетний внук в контесте по моей команде нажимать

14989. Ukr RTTY rules question

Yahoo group: URcontest (2006 — 2007)
Date: 2007-02-26 11:20:58 UTC
From: Makis UY7C
Topic: 14989 Message: 14989

Здравствуйте.

Такой возник вопрос .

Из правил Ukr RTTY на сайте UCC :

> Участникам из СНГ, где приняты сокращенные названия областей,
>совпадающие с вышеупомянутыми, рекомендуется использовать следующие,
>отличаемые от украинских сокращения: Краснодарский край - KD;
>Воронежская обл. - VV; Республика Коми - KM; участникам из Молдовы -
>ER; Латвии - YL; Литвы - LY; Эстонии - ES.

Собственно вопрос:
если 10 станций из Латвии к примеру будут давать YL, а одиннадцатая какой - нибудь
регион или другое территориальное образование, "RG" допустим, будет ли это считаться

> за новое административное образование (область) -
>10 очков на каждом диапазоне.

??

ЗЫ Если уйдет в XTMл-е, звиняйте, везде где можно поставил
plain text но Яха штука непредсказуема :(.

Хоть ты и не хотел, а написал все правильно, Георгий!
А написанное ранее твоим критиком, можно объяснить
его же любимым словом - "менталитет"...

Я думаю, избавленные от всяких "менталитетов",
с таким положением о Чемпионате согласны.

Удачи!

Да, мне тоже вспомнились теннис и хоккей. Но дело даже не в прецедентах. Если есть Чемпионат, то его выигрывает сильнейший. Кто сказал, что сильнейшим имеет право быть только Гражданин Украины?
Вот это уж воистину абсурд. Сильнейшим будет тот, кто по правилам этого Чемпионата займет первое место, обыграет всех остальных. Если подключены сильные иностранцы, борьба будет еще тяжелее и интереснее, чем без них. В этом, как я понимаю, пафос этого концепта. А разряды (звания), которые трудно получить заполняя бумаги даже на украинском языке, в это пусть играют украинцы, пока не надоело. Думаю, латыш, румын или алжирец даже не поймут, чего их лишили.

Hello, URcontest.

Выдержка из положения:

Низкочастотная часть чемпионата проводится на диапазонах 1,8 и 3,5
MHz в два тура (первый - 22:00 - 23:59 UTC 3 марта, второй - 00:00 -
01:59 UTC 4 марта).
Высокочастотная часть - один тур на диапазонах 7,14,21 и 28 MHz 4
марта с 08:00 до 11:59 UTC.
Нумерация связей отдельная для НЧ и ВЧ части чемпионата.
Повторные радиосвязи с одним и тем же корреспондентом разрешено
проводить на разных диапазонах и в каждом туре на НЧ диапазонах.

Имеется вопрос, в первую очередь к авторам программы MiW:

Существует ли макрос или какой другой способ сбросить
счетчик связей после НЧ тура, дабы ВЧ тур начать с 001?
Понятно что можно вести два лога!
Может есть какая альтернатива Миксу, другая программа,
которая полностью поддерживает это "положение"?
Почему в кавычках? Потому, что БРЕД это такой же, как и
Кубок Днепра! Ничего личного, а просто МОЁ мнение!

Вносить изменения можно, но только в виде предложений,
поскольку реально менять положение смогут только
организаторы данного теста, а именно КРС и ЛРУ.

Изначально вопросы надо решать с Георгием Игнатовым!
Потому, что главный (и единственный на деле) организатор
он! Если же не будет найдено понимание , то тогда можно напомнить, что
и ЛРУ (по его же настоятельной просьбе) теперь соучредитель теста и
дает по смете ЛРУ на этот чемпионат небольшие деньги.
UCC только осуществляет информационную поддержку последние годы, а
президент UCC способствовал (опять же по настоятельной просьбе
Георгия) придаче этому тесту статуса чемпионата Украины...
Если инициативная группа вместе с Георгием подготовит вопрос, то мы
можем включить его в повестку дня майской Конференции клуба
73!

Пересылаю мсг с российского рефлектора. но он...
по данной тематике!
Здравствуйте, russiandx.

Опять вынужден поднять эту тему.
Ребят, давайте все же поздравлять в личку, а не в релектор! Ну вы
представьте, сколько пользователей рефлектора и если каждый начнет
поздравлять друг друга в рефлектор, то что будет! На мой взгляд
поздравление лично по емайлу и более приятное, особенно учитывая тот
факт что иногда те, кого поздравляют, и на рефлектор то не
подписаны! Или если уж так хочется напомнить про чей-то ДР - то
достаточно одного сообщения, а все остальные pse только в личку!
Давайте уважать друг друга! Не у всех инет бесплатный!

Следующее -Сергей Георгиевич НЕ подписан и не читает наш рефлектор.
Следующее- я в 8 утра позвонил ему и от ВСЕХ UCC-сишников поздравил
его с юбилеем.
Он передал привет всем одноклубникам, сообщил, что жив -здоров и
в хорошем настроении . В эфире бы также появился, но ...нет антенны,

hi, Жорж, раз пошли такие оперативные вмешательства

Украины НЕ будут присваиваться за SOSB ???
А то посмотрев Итоги прошлого года, так там за 22 ЩСО
на одном бэнде и при 7 р.ст. участник получает МС
Украины ! (ничего личного к этим участникам!)

Здравствуйте, Игорь.

Вы писали 3 марта 2007 г., 14:55:53:

IU> Первый раз слышу о таких "списках"!
IU> По крайней мере за последние 5 лет никто не подавал в Укрчастотнагляд
IU> от КВ комитета таковые!

П. Максименко требовал. Ю. Сорокопудов, а сейчас И. Магрело, - пока не требуют.

IU> Может бывший Контест комитет подавал?
IU> Есть у нас правило использовать УПС и СПС только в МЕЖДУНАРОДНЫХ
IU> соревнованиях.
IU> Чемпионаты Украины к таковым не относятся!
IU> В том числе и RTTY!

А где и кто определил термин международные соревнования? "Кубок Днепра", например,
- международные соревнования? Вот для этих целей и требовался список.

IU> Насчёт СПС Валерий Иванович уже дал разъяснение, что не один из них
IU> не может быть использован по причине истечения срока действия!

Положение о СПС требует представления любой заявки на СПС за два месяца
до начала их работы. Хотим с 1 января по 31 декабря? Рейтинг должен быть
готов в октябре! А когда он появился? Ко мне заявки поступили в начале января
и 10 января они были отосланы в УГЦР. И начало работы этих СПС испрашивалось
с 1 марта. Лично по моей инициативе и при поддержке Исполкома, договорились
о работе СПС предыдущего года и получившим право на СПС в 2007 году
до 28 февраля без ДОПОЛНИТЕЛЬНОЙ ОПЛАТЫ. Уточню, я имел в виду дать
возможность нашим спортсменам отработать в феврале с СПС в CQ WW WPX RTTY.
2 марта в телефонном разговоре с И. Магрело выяснилось, что
УГЦР направил счета на оплату за СПС всем заявителям по указанным ими
адресам. Отказов никому не было. УГЦР в свой отведенный срок два
месяца вложился. Но деньги пока не поступили.
Кого искать виноватым?
"Деньги вечером, утром стулья." ;-)

IU> До встречи в тесте!
IU> 73! Игорь UT7QF

Лично мое мнение таково. В даже в открытых Чемпионатах Украины применение
СПС и УПС не рекомендовать.

Всем удачи!

С Миксом в этот раз ни одного вопроса не возникло (квалификация оператора выросла :-). И номера в третьем туре поменял и повторы в во втором туре отменил, и грабил все автоматом - и позывные и домены. Иногда не хватало опыта и зевал (не успевая во время сохранить), когда Микс в последнюю минуту менял правильно заграбленный домен на нечто, на его взгляд, похожее типа TU, DE, CQ, NR. А так, одно удовольствие. Хотя пределу совершенству, естественно, нет. С кабрилло пришлось повозиться руками - досадно. Пока не понял, кто виноват - оператор или программа.

Результат: 322 связи, 226 доменов, 2892 очка.

Уже года четыре как пересел с WriteLog на Микс, в котором работаю всеми модами, включая CW и SSB. Могу попытаться ответить на конкретные вопросы, если будут.

Друзья!
Хочу по возможности помочь.
Валерий UR7QM - люди дельные вопросы задают, со знанием матчасти!? У Вас, небось весь комп работает под DOS? Весь "сыр-бор" не из-за "прибомбахов", а от ОС WinXP, которую уж мнго лет используют обычные пользыватели.
N6TR с XP не дружит из-за проблем с COM портами (они нужны для подключения CW)!? - Верное замечание, если XP стоит под NTFS, вот когда XP поставить под FAT, то можно избавиться от данной проблемы. Тогда и загружаться можно в DOS'е, добавив строку указания загрузки в autoexec.bat ... Есть одна проблема - ядро XP очень неустойчиво работает в среде FAT (прийдётся 1 раз в полгода переустанавливать операционнку), хотя все прекрасно помнят проблемы устойчивости Win98. Есть ещё один простой выход из ситуации - поставить Win98 и XP на разные жёсткие диски и иметь две операционки на все случаи жизни. Под Win98 нужно максимум 1Гб дискового пространства (это не так и много). Из альтернативы - записать на СД образ операционки Win98 или DOS и стартовать с СД, а логи писать на дискету, указав это в конфиге N6TR. Есть ещё одна полезная вещь - интерфейс MixW RigExpert, который не использует COM порт и работает с многими радиолюбителькими прогами... - Теперь определитесь, какой вариант вам более приемлем и работайте в савоё удовольствие.
Вот и вся "попова дочка"....

Здравствуйте, Александр.

AS> Друзья!
AS> Хочу по возможности помочь.
AS> Валерий UR7QM - люди дельные вопросы задают, со знанием
AS> матчасти!? У Вас, небось весь комп работает под DOS?

И как мои интернетовская и почтовая программы работали бы из-под
DOS'а? Или можно? Поделитесь, пожалуйста, опытом. ;-)
У меня , для Вашего, Александр, сведения, весьма скромный PC:
AMD Sempron 2800+, HDD 80 Gb, RAM 512 Mb, WINDOWS XP PRO.

AS> Весь "сыр-бор" не из-за "прибомбахов", а от ОС WinXP, которую уж мнго

Вот так у меня и сделано. При загрузке компа предлагается меню: XP или
DOS. По умолчанию через 30 секунд загружается XP. COM порты используются
для модема и CAT, USB - для принтера. Применение интерфейса для PTT и CW
с использованием свободного порта LPT удовлетворяет как N6TR в DOS'е,
так и MixW в XP.

AS> Из альтернативы - записать на СД образ операционки Win98 или DOS и стартовать с СД,
AS> а логи писать на дискету, указав это в конфиге N6TR.

...если работать на поиск и проводить где-то 1 связь в минуту. Больше
скорость записи на дискету не позволяет.

AS> Вот и вся "попова дочка"....

Однако, спасибо за детальный анализ проблемы.

Здравствуйте!
После прошедшего Чемпионата RTTY
прошу высказать свои мысли в рефлекторе
для обобщения и систематизации.

Я работал только на диапазоне 160м.
Было скучновато- мало станций.
Те редкие иностранцы, которые позвали -
большинство давали только номер QSO.
О турах они и не подозревают.
Украинцев на диапазоне было 50-70 чел.
(предположительно)
На других диапазонах было явно больше.

Мое предложение-убрать слово "открытый" чемпионат.
Провести соревнование среди украинских станций!
При этом всем активно проводить разъяснительную
работу по работе RTTY.
Ведь есть же у нас прекрасная программа MIX W
с которой еще далеко не все совладали.
Да и Николаю UT2UZ может быть подумать,
чтобы написать "памятку" для работы
в Чемпионате Украины RTTY.
А повторы можно сделать и через час.
При увеличении количества участников-
можно туры и по 2 часа.
Но не надо разбавлять наш Чемпионат
иностранными участниками!
Для этих целей есть прекрасный UKR DIGI !

Сделать его чемпионатом именно УКРАИНЫ с таким же положением,

Здравствуйте, UT8IO.
Уважаемый Николай Михайлович -UT8IO!
Раз уж ты и ко мне лично обращаешься,то
скажу следующее, точнее процитирую еще раз
Володю UT1IA -
Как я понимаю, пророднтель теста и главный его спонсор
Георгий UT1HT задумывал Open UR RTTY как международный
тест, поскольку было мало станций из UR. Тест имел
определенные трансформации и несколько лет назад из 2-х
диапазонного стал многодиапазонным. Последнее, что с ним произошло -
это он приобрел еще и статус официального
Чемпионата Украины.
Стало быть можно оставить этот тест таковым, как он есть ,
т.е. международным и пусть живет своей жизнью -UT1IA

Добавлю из собственного опыта- ЛОМАТЬ- НЕ СТРОИТЬ, значительно легче.
Здесь же , в рефлекторе прозвучала еще одна трезвая мысль-

Я полагаю, что у всех нас (кроме Учредителя) право совещательного
голоса. Так что принимай - не принимай, голосуй - не голосуй...
Поэтому единственным эффективным методом является поиск реальных
аргументов, способных убедить Учредителя. - UT2UZ

Есть желание, силы, то именно этим надо тогда заниматься.

И , последнее, на БАЗАРЕ такие вопросы не решаются.
Рефлектор по своему рангу (увы) тот же базар.

Я использовал право члена клуба включить
интересуемый вопрос в повестку дня конференции.
Без обсуждения и выработки общей идеи не получится
вопрос решить и вне "базара".
А Учредитель, я думаю,с удовольствием примет участие
в совершенствовании его детища.Чем обретет
еще большее к нему уважение.

Николай!
Никто не даёт Вам права лезть со своими советами и докладами в не Ваш контест. Ваше право участвовать в нём или нет! У КРСа есть свои лидеры! Только им и решать! Вы-же только решайте свои вопросы в УКК - Украина останется общей для всех.- Оставьте совковые принципы навязывания своего мнения, скрываясь да ничтожную должность! Добивайтесь своих прав в УКК! Тоже Вам сказал Президент Вашего кружка. Может Вы ещё захотите изменить положение IARU contest? - Тоже имеете право!

Коля!
Правильно! Надо бороться с этим негативным явлением!
Но не АНАРХИЧЕСКИМИ методами!
Демократия - это не анархия!
Поэтому перезвони Лякину и скажи ему, что ты погорячился и
внеси предложение рассмотреть этот вопрос в будущем!
Ну, а так НЕЛЬЗЯ! Не правильно это!
ПОЭТОМУ, как и обещал тебе по телефону ЗАЯВЛЯЮ:

Предложение дельное. Есть смысл в будущем рассмотреть его и

Коля -UX0FF ! Твоя идея вполне нормальная , но Костя ПРАВ. Есть
Положение о ЧУ, его корректировали , согласовывали и утверждали в этом
году ЦСТРК ОСО и UCC. Все!
Другое дело судьи могут проявить такую инициативу и послать
предварительный запрос всем предполагаемым чемпионам и химикам
сделать то, что ты предлагаешь . Это подпадает под их полномочия
и функции...В Положении правда написано -
Судейская коллегия обязана проводить мониторинг чемпионатов с записью на магнитофон.
Зафиксированные нарушения являются основанием для снятия радиостанции с зачета.

Так что продолжай работать с А.Лякиным. Инициативы могут исходить
только от него.

А почему я зависим в Керчи?))) - Только в Запорожье не зовут, даже "зависимых комиссаров"!? - Там эталонные радиолюбители!!!))) Работают в ЧУ только разрешёнными 78-ми лампами (не вижу принципиальной разницы с Пламенем!).... Теперь точно Володя (модератор) закроет! Всем спасибо! Всем пока! Здравствуйте, .

«УТВЕРДЖДАЮ»
Начальник ЦСТРК ОСО Украины

А.В.Лякин
17.01.2007

«СОГЛАСОВАНО»
Президент UCC

В.Ф.Латышенко
17.01.2007

ПОЛОЖЕНИЕ О ЧЕМПИОНАТАХ УКРАИНЫ ПО РАДИОСВЯЗИ НА КВ 2007 г.

Телеграфный Чемпионат Украины будет проводиться с 20.00 по 23.59 UTC
10 марта (телефонный Чемпионат - с 20-00 по 23-59 UTC XX апреля) 2007 г. на диапазонах 160 и 80 метров в два тура по два часа. Первый тур: с 20-00 по 21-59 UTC, второй тур: с 22.00 по 23.59 UTC. Нумерация связей в обоих турах сквозная.

Категории участников - SO MB, SO SB, MO MB (1 TX). Категория MO MB (1TX) предусматривает команду из 2-3 операторов. В телефонном Чемпионате проводится отдельный зачет среди операторов-женщин при условии наличия в группе не менее четырех ЛРС среди коллективных и четырех среди индивидуальных ЛРС.

Контрольные номера состоят из условного обозначения области и порядкового номера связи, начиная с 001. Например, ZP001, KV034 .

За каждую связь начисляется 2 очка, за новую область - 10 очков. Очки за область начисляются на каждом диапазоне, в каждом туре по-новому.

Повторные связи разрешено проводить на разных диапазонах и в каждом туре, независимо от времени проведения предыдущей. Переход с диапазона на диапазон может быть осуществлен не раньше, чем через 10 минут после предыдущего.

Спортсмены, занявшие 1-3 места в своих подгруппах, награждаются дипломами и медалями. Абсолютным победителям в категориях SO MB и MO MB (1TX) присваивается звание “Чемпион Украины 2007 года”.

Зачет среди областей производится по наилучшим результатам 2-х коллективных и 8-ми индивидуальных ЛРС. Зачет по клубам будет проводиться при наличии заявки от клуба с указанием позывных сигналов членов клуба. Заявка предоставляется в судейскую коллегию не позднее 15-ти дневного срока после окончания соревнований.

Например, заявка от клуба “Глобус” в электронном виде - Globus.txt. Принимаются и бумажные заявки.

Команды коллективных радиостанций могут указывать в отчете техника команды и главного спонсора. При занятии коллективной радиостанцией призового места последние также награждаются дипломами и медалями и в любом случае отображаются в протоколе соревнований (при этом спортивные звания или разряды им не присваиваются).

Судейство проводится на основании полученных от участников отчетов методом сплошной компьютерной проверки. ВЫСЫЛКА ОТЧЕТОВ ОБЯЗАТЕЛЬНА.

К зачету принимаются отчеты участников соревнований, которые провели не менее 30 подтвержденных радиосвязей. Отправка отчета "для контроля" приветствуется судейской коллегией.

Отчеты направлять в судейскую коллегию в электронном виде в формате Cabrillo (подсчет очков не обязателен, время указывается в UTC).

Если число связей превышает 100, то отчет в электронном виде обязателен.

Электронные отчеты должны быть оформлены по одному стандарту:

В теме письма необходимо указать позывной и зачетную категорию (SO MB,

SO 80, SO 160, MO). Например, UR4WWW MO, UT1FA SO 160, UT5UGR SO MB.

Имя вложенного файла - позывной.cbr, например, UR5EAW.cbr

В заголовке отчета в формате Cabrillo необходимо указать зачетную категорию:

CATEGORY: MULTI-OP ALL (SINGLE-OP ALL, SINGLE-OP 160M, SINGLE-OP 80M)

В отчете обязательно указывается Ф.И.О. и личный позывной каждого участника, а также его спортивное звание или разряд.

В случае невозможности выслать электронный отчет, судейская коллегия, в виде исключения, будет принимать и бумажные отчеты.

Радиосвязи не засчитываются и исключаются из отчета в следующих случаях:

- если Судейской коллегией не получен отчет корреспондента (NO LOG);

- если связь не подтверждена отчетом корреспондента (NIL);

- связь снимается у обоих корреспондентов, если имеются искажения в контрольных номерах или в позывных (NR, CL);

- если время связи расходится более чем на 2 минуты (T2)..

Крайний срок подачи отчета - 15 дней после окончания соревнований.

Судейская коллегия обязана проводить мониторинг чемпионатов с записью на магнитофон. Зафиксированные нарушения являются основанием для снятия радиостанции с зачета.

Судейство телеграфного чемпионата будет осуществлять Киевская коллегия судей.

Адрес: 01010, г. Киев-10, А.Я. 99, Лякину А.В. В электронном виде отчеты направлять по адресу: ut2ub@...

Судейство телефонного чемпионата будет осуществлять Запорожская судейская коллегия судей.
Адрес: А.Я. 4850, г. Запорожье, 69118, Голикову Н.А.

Подвигом было бы если бы ВСЕ работали на 100 ватт!
Смотришь и народу бы подтянулось!
Кубок LP доказал, что это возможно!

Никакого подвига, потому как это ВПОЛНЕ ВОЗМОЖНО в телеграфе и
RTTY. В этом у уже убедился. Буду пробовать такую же
конфигурацию в телефонном Чемпионате.
Как и предполагал, у меня на днях отрезали метра 3 моего полотна
Inv. Vee на 80. Поэтому и не смог поучаствовать на этом
диапазоне. Плюс забыл заземлить компьютер на котором стоял DOS с
N6TR. В начале тэста часто вис компьютер и приходилось
перегружаться. В итоге связей десять "улетели" в никуда! Sorry!
В итоге на 10 ватт получилось 128 QSO и 43 области! Второй тур
ПОЛНОСТЬЮ работал на CQ! 100 ватт добавлял только тогда, когда на
голову садились UR0MC, UW5SM, UT8IO, UT1KWA и другие. А так
спасал фильтр на 250 гц.

Коля!
Прекращай мутить народ и сражаться с ведьмами и мельницами!
На этот год есть утвержденное положение (не зря Латышенко
его напомнил перед тэстом), давайте им и пользоваться!
Зачем эта анархия???!!!!
Базара нет - твое предложение дельное! Но давйте его
обсудим и на следующий год внесем поправки. Я за твои
предложения, но по закону!

(почти как из классики)

p.s. Когда не гонишся за результатом и есть время покрутить
ручку ОЙ, КАК ЭТУ ВСЮ "ХИМИЮ" СЛЫШНО!!!!!
Из положения:

Судейская коллегия обязана проводить мониторинг чемпионатов с
записью на магнитофон. Зафиксированные нарушения являются основанием
для снятия радиостанции с зачета.

Здравствуйте, .

Принято совместное решение организаторов ЧУ телефоном о переносе
сроков его проведения на неделю позже .
Причина - предварительная дата совпадала с празднованием пасхи.
Инициатива переноса исходила от нач. ЦСТРК ОСО - А.Лякина.
Со стороны UCC перенос поддержали -UT1IA,UR0MC,UT7QF,UR7QM,
UY5QQ,UX0FF,UX7IA,UY5ZZ
Т.о. Чемпионат Украины по радиосвязи на КВ телефоном состоится 14

Hello, URcontest.

Из положения:

Прелагаю небольшое изменение этого абзаца, а именно:

Команды коллективных и ИНДИВИДУАЛЬНЫХ радиостанций могут указывать в отчете техника
и главного спонсора.

Я думаю, что не секрет, что сегодня на некоторых индивидуалов
работает техник и у некоторых не один!

Ну это понятно, геморой!
Как впрочем и с кабрилой!

А может стоит все таки все нам дружно попросить Александра
(RZ4AG) написать поддержку для нашего Чемпионата без геморроя и
с нормальной кабрилой? Уже это обсуждалось, но воз и ныне там!
Я думаю он не откажет.
Ну а от нашего, отечественного производителя, для
отечественного пользователя, подвижки не большие! И
это
понятно - проект комерческий, т.е. мы (отечественные
пользователи) за это деньги не платим, за что большое спасибо
Николаю Петровичу!
Или второй вариант.
Дружно попросить Николая Петровича повернуться к
отечественному пользователю, что он часто и густо делает в
плане судейства, рейтинга и т.д.
Или третий!
Дружно попросить Бориса UA1AAF!
Четвертый не предлагаю, т.к. уже надоел авторам N1MM!

Здравствуйте.

U>

U>

U> 73! de Kosta/UR5FFC

Это правильно. Техника в руках дикаря - груда металла! :-)

Лет 10 использую широко расространенную программу N6TR,
адаптированную для чемпионатов Украины CW и SSB на основе версии 5.50.
Эпизодические попытки приспособить более поздние версии успеха не имели.
И, насколько я знаю, не только у меня. Программа "брыкалась" и писала,
что не хватает памяти для записи префиксов.
После "фокусов" версии 5.50 у меня в последнем ЧУ, решил снова взяться за
адаптацию более новой версии. У меня это 6.76. На этот раз секрет был
разгадан и все получилось. Как и ранее, в новой версии при вводе
любого украинского позывного в окошке страны определяется название области
и ее идентификатор, например, UR5WD [Львов LV]. При наличии позывного
в файле initial.ex идентификатор области автоматически появляется в окне
принимаемого номера. Он запоминается в любом случае и появляется в
окне при наборе позывного во втором туре. Сработанные области и
повторы - все как и было раньше. Появилась возможность сразу формировать
отчет в формате КАБРИЛЛО. Правда требуется небольшая доработка. В
текстовом редакторе, позволяющем работать с выделенными блоками, при
определенном навыке это занимает 10-20 минут.
Ясно, что реализуются все возможности данной версии и, наверное, более
поздних.
Полный объем данной программы (только для ЧУ!) - около 1.2 Mb (в *.rar - 400Kb).
Хотя для адаптации уже имеющейся у вас версии для участия в ЧУ достаточно заменить
на новые следующие файлы:
cty.dat, cfg.dat (на logcfg.dat) и initial.ex (все - около 30Kb).

Программам в заархивированном виде для скачивания будет размещена на сайте UCC.
Прямая ссылка будет указана в рефлекторе дополнительно.

Заинтересованные лица могут обратиться в приват по адресу:
ur73qm@...

P.S. Возможно, кто-то уже это и сделал, но, увы, информации у меня не было...

P.S.S. Это не реклама. Всем и все - бесплатно. По заветам и Иисуса
Христа, и В.И. Ленина - надо делиться! :-)

А то нет разве? Раньше было начало с 00.00 по киевскому времени, а
теперь телеграфный ЧУ с 22.00, а телефонный, с учетом перехода на
летнее время, с 23.00 по Киеву. Кстати, судя по контрольным номерам
чувствовалось, что таких опоздавших было несколько.
Так мне никто и не смог объяснить, зачем указывать время в UTC,
если чемпионат закрытый и вся Украина помещается в одном часовом
поясе? Дань моде или своеобразное движение в Европу? ;-)

Я бы мог согласиться, но... Но, во-первых, далеко не все HAM-ы имеют
компьютеры и далеко не все читают сообщения в рефлекторах.
Во-вторых, большинство радиолюбительских программ при их включении
имеют возможность автоматически переводить компьютерное время на UTC
(или какое зададим в предустановке) и даже с учетом сезонного перехода.
В N6TR это команда в конфигурационном файле HOUR OFFSET= -2 (-3 летом).

Программа MixW близка к совершенству. Осталось добавить Run - метр.
Хотя макросы я использовал неправильно, не в моем стиле. Обнаружил, как всегда, по ходу теста и поленился исправить по ходу же. Прыжки курсора в противофазе моим ожиданиям немного раздражали. Но... сам виноват, не настроил как надо.

Упоминавшийся неоднократно UY5HF, мне показалось, работал разными стилями. Иногда довольно коряво, переспрашивая в замедленном темпе (когда первый раз услышал, не мог поверить большому номеру с таким качеством исполнения), но иногда весмьа четко - на ране.

Положение о СПС и УПС в глаза не видели!

1.6. Немного с опозданием, но "лучше позже...
Если пересчитать очки вручную, а не доверять MixW,
то получается совсем другой результат по множителям.
Немного, но некоторые станции из разных стран, давали одинаковые

Да на детишек никто и не серчает. Сам начинал на школьной коллективке
ровно 50 лет назад в марте 1957 года. А вот начальник коллективки

должен знать.

Здравствуйте, URcontest.

На сайте UCC в рубрике INFO можно скачать программу для ЧУ на основе
версии 6.76 N6TR (392 Kb в архивированном виде). http://www.ucc.zp.ua
В конфигурационном файле в любом текстовом редакторе заменить позывной
UR7QM на свой, а также установить порты и записать макросы в функциональные
клавиши F1-F10 на свой вкус.
Файл initial.ex для предстоящего ЧУ SSB будет дополнен с учетом
прошедшего CW и разослан тем, кто ко мне обращался.
Вопросы и замечания, пожалуйста, в приват: ur73qm@...

никакого...

Шумновато тут было.Я несколько раз пытался стать в тлф участке
на 80-ке.Толпа такая тусовалась,что хоть приемные,хоть
передающие антенны включай на прием-безтолку.Кучность станций
была такая как в CQWWDX SSB на семерке.
Так что Юрий,не мешало бы Вам мощи добавить:-))

О каких изменениях даты проведения соревнований может быть речь? Это чтобы угробить чемпионат?
В 2008 году можно назначить и любую дату, но коней на переправе не меняют.

Разве что-то изменилось, кроме пожеланий, прозвучавших в рефлекторе?
Я думал, что утвержденное положение о соревнованиях - это закон.
Давайте внесем еще несколько изменений, но не позже чем за 2 минуты до начала соревнований.
Например, рабочие диапазоны :-)

Работать в тесте не собирался,решил уже в последний момент.
Ну а незваный гость хуже...
Занеладилось почти с самого начала.
Ураганом оборвало одну из антенн на 160 метров.
Потом залипло реле в коммутаторе RQ-84."Вылечил" это реле UT3MD
ударом кулака по коммутатору,правда пришлось для этого ему лезть на
мачту.
Потом вбило клин в реле на бевере(270/90 град) -и бевер замер в
восточном направлении.
Потом начали лететь усилители мощности-один за одним.Отец еле
поспевал их ремонтировать.
На десерт в воскресение,когда открылись штаты на 20-ке,отключили
свет на один час.Чуток потерял американосов.
Ну и последнее-почти охрип :-))

Насколько я знаю, количество пробелов между колонками в кабрилло роли
не играют. Главное, их (пробелов) должно быть не менее одного и
начинаться колонки должны одинаково с одного и того же знакоместа в каждой
строке. По крайней мере так в программе, разработанной UT2UZ для ЧУ.
Если я неправ, то Николай UT2UZ присутствует в рефлекторе и меня поправит.

Привязка начала каждой колонки к определенному знакоместу раньше была в
"Кубке Днепра". Сейчас - не знаю.

Друзья!
Вот такое сообщение от владельца сервера, где размещён Online Log: N8S , что говорит о большом перерасходе трафика из-за повышенного внимания к этой экспедиции...Уверен, что проблема решится скоро (когда найдутся спонсоры)! Просьба владельца - проверив свой лог, закрывать страницу, дабы небыло перерасхода трафика...Проблема с лимитом на бесплатном сервисе...

Sorry for the problems with actual server access !
I move from a European provider (he has to low traffic limit) to an US provider with a higher traffic limit.
Till today, only logsearch for N8S use over 60 GB traffic. 18.500 logsearches in last 24 hours! But this US provider reduce me, as penalty, now the memory - result is the message: Service Temporarily Unavailable
Provider called him self: best provider of the world !
For a own server - i dont have the money. Monthly costs: 120 - 180.- US$
There are only 2 solutions: to liv with with this problem or to finish this logsearch service.
Please, after you checked your call - quit logsearch and don't check in moment all calls of your friends too.
Give it free - the sources are limited in moment.
I have switched off the logsearch at N8S web for test purpose.

A sponsor for a own logsearch server will be not on horizon.

Hello!

This e-mail is to invite all contesters to have a go in the European
Sprint contests 2007.

Please remember that, starting last year, the time has been moved
1 (one) hour ahead. The four Sprints will begin at 16:00 UTC and
will end at 19:59 UTC.

If you're wondering which software to use, DL2NBU's program has
been written specially for this contest. It is very much like K1EA's
CT,
and it is FREE for download from the new Eu Sprint web
site <http://www.eusprint.com/>.

can
work everybody; stations outside of Europe can work only European
stations.

the listing.

DATES:
EU SPRINT Spring:
* CW: second Saturday in April - 14 April 2007 - managed by G4BUO
* SSB: third Saturday in April - 21 April - managed by 9A6XX
EU SPRINT Autumn:
* SSB: first Saturday in October - 6 October 2007 - managed by I2UIY
* CW: second Saturday in October - 13 October 2007 - managed by OK2FD

TIME: from 16:00 UTC until 19:59 UTC.

BANDS: 20, 40 and 80 metres only.
Pilot frequencies are: SSB: 14.250, 7.050, 3.730. CW: 14.040, 7.025, 3.550

a) your callsign,
b) the other station's callsign,
c) your serial number starting from 001 (RST not required),
d) your name or nickname.
Please note that BOTH stations MUST repeat BOTH callsigns DURING the exchange.
A valid exchange is: "OK2FD de I2UIY 118 Paolo" while "OK2FD 118 Paolo" is
NOT a valid exchange.

SPECIAL QSY RULE: if any station initiates a call (by sending CQ, QRZ?,
etc.), he is permitted to work ONLY one station on the same frequency. He
must thereafter move AT LEAST 2 (two) kHz before he may call another station or before he may solicit again (CQ, QRZ?, etc.) other calls.

VALID CONTACTS: valid contacts are QSOs correctly logged and confirmed.
Each operator may use ONE and ONLY one name during the Sprint. If the exchange is copied incorrectly, that operator will receive zero (0) points.
In case of miscopied callsigns, both stations will receive zero (0) points
for that QSO.

SCORING: each valid QSO counts one 1 (one) point. The final score is the
total number of QSOs.

AWARDS: Colorful certificates will be issued to the winners of each Sprint
and to the leaders in each country.

EU SPRINT PLAQUE: A special plaque will also be awarded for the top three scores from all four contests combined. To be eligible for this award an operator must enter at least three of the Sprints in the year. Results will be forwarded as soon as possible to Leagues, magazines and bulletins.

Здравствуйте, .

ПОЛОЖЕНИЕ О ЧЕМПИОНАТАХ УКРАИНЫ ПО РАДИОСВЯЗИ НА КВ 2007 г.

Телефонный Чемпионат Украины состоится с 20-00 по 23-59 UTC 14 апреля 2007 г. на диапазонах 160 и 80 метров в два тура по два часа. Первый тур: с 20-00 по 21-59 UTC, второй тур: с 22.00 по 23.59 UTC. Нумерация связей в обоих турах сквозная.

Категории участников - SO MB, SO SB, MO MB (1 TX). Категория MO MB (1TX) предусматривает команду из 2-3 операторов. В телефонном Чемпионате проводится отдельный зачет среди операторов-женщин при условии наличия в группе не менее четырех ЛРС среди коллективных и четырех среди индивидуальных ЛРС.

Контрольные номера состоят из условного обозначения области и порядкового номера связи, начиная с 001. Например, ZP001, KV034 .

За каждую связь начисляется 2 очка, за новую область - 10 очков. Очки за область начисляются на каждом диапазоне, в каждом туре по-новому.

Повторные связи разрешено проводить на разных диапазонах и в каждом туре, независимо от времени проведения предыдущей. Переход с диапазона на диапазон может быть осуществлен не раньше, чем через 10 минут после предыдущего.

Спортсмены, занявшие 1-3 места в своих подгруппах, награждаются дипломами и медалями. Абсолютным победителям в категориях SO MB и MO MB (1TX) присваивается звание “Чемпион Украины 2007 года”.

Зачет среди областей производится по наилучшим результатам 2-х коллективных и 8-ми индивидуальных ЛРС. Зачет по клубам будет проводиться при наличии заявки от клуба с указанием позывных сигналов членов клуба. Заявка предоставляется в судейскую коллегию не позднее 15-ти дневного срока после окончания соревнований.

Например, заявка от клуба “Глобус” в электронном виде - Globus.txt. Принимаются и бумажные заявки.

Команды коллективных радиостанций могут указывать в отчете техника команды и главного спонсора. При занятии коллективной радиостанцией призового места последние также награждаются дипломами и медалями и в любом случае отображаются в протоколе соревнований (при этом спортивные звания или разряды им не присваиваются).

Судейство проводится на основании полученных от участников отчетов методом сплошной компьютерной проверки. ВЫСЫЛКА ОТЧЕТОВ ОБЯЗАТЕЛЬНА.

К зачету принимаются отчеты участников соревнований, которые провели не менее 30 подтвержденных радиосвязей. Отправка отчета "для контроля" приветствуется судейской коллегией.

Отчеты направлять в судейскую коллегию в электронном виде в формате Cabrillo (подсчет очков не обязателен, время указывается в UTC).

Если число связей превышает 100, то отчет в электронном виде обязателен.

Электронные отчеты должны быть оформлены по одному стандарту:

В теме письма необходимо указать позывной и зачетную категорию (SO MB,

SO 80, SO 160, MO). Например, UR4WWW MO, UT1AA SO 160, UT5URG SO MB.

Имя вложенного файла - позывной.cbr, например, UR5EAW.cbr

В заголовке отчета в формате Cabrillo необходимо указать зачетную категорию:

CATEGORY: MULTI-OP ALL (SINGLE-OP ALL, SINGLE-OP 160M, SINGLE-OP 80M)

В отчете обязательно указывается Ф.И.О. и личный позывной каждого участника, а также его спортивное звание или разряд.

В случае невозможности выслать электронный отчет, судейская коллегия, в виде исключения, будет принимать и бумажные отчеты.

Радиосвязи не засчитываются и исключаются из отчета в следующих случаях:

- если Судейской коллегией не получен отчет корреспондента (NO LOG);

- если связь не подтверждена отчетом корреспондента (NIL);

- связь снимается у обоих корреспондентов, если имеются искажения в контрольных номерах или в позывных (NR, CL);

- если время связи расходится более чем на 2 минуты (T2)..

Крайний срок подачи отчета - 15 дней после окончания соревнований.

Судейская коллегия обязана проводить мониторинг чемпионатов с записью на магнитофон. Зафиксированные нарушения являются основанием для снятия радиостанции с зачета.

Судейство телефонного чемпионата будет осуществлять Запорожская судейская коллегия судей. Адрес: А.Я. 4850, г. Запорожье, 69118, Голикову Н.А.

В электронном виде: urssb@...

p.s. Сейчас разница между UTC и UKR составляет 3 (три) часа. Т.е. ЧУ
начинается в 23.00 укр

Из положения, утвержденного Лякиным А.В. и согласованным с Латышенко
В.Ф.:

Команды коллективных радиостанций могут указывать в отчете техника команды
и главного спонсора. При занятии коллективной радиостанцией призового
места последние также награждаются дипломами и медалями и в любом случае
отображаются в протоколе соревнований (при этом спортивные звания или
разряды им не присваиваются).

Только не пойму почему ТОЛЬКО коллективные станции это могут
делать? Не секрет, что и индивидуалы имеют техников и часто не
ОДНОГО! Почему такая дискриминация в положении?
Уважаемые учредители и организаторы может проясните ситуёвину?

Еще хочется узнать у Михаила Ивановича-председателя ком.СРР по р/связи на КВ и
других активных контесменов России является ли нарушение
частотного плана в чемпионатах России основанием для
дисквалификации?

Так было для CW чемпионата.
Письмо Николая UT2UZ здесь в рефлекторе от 27 марта:

Если все выполнить правильно и обновить в версии 2.18 файл
MixW2.exe от 27.03.2007, то программа прекрасно работает, "видит" повторы,
учитывает все снова во втором туре, статистика подсчитывает и делает отчет
в формате CABRILLO, который не требует никакой доработки.
Условно выставив время начала и окончания ЧУ, можно тестировать в любое
время, не привязываясь к реальному. Программа знает многие несистемные
позывные и их областную привязку. Кроме того, программа позволяет
записать полностью все четыре часа теста без перерыва на цифровой
магнитофон, что поможет проверить и подкорректировать свой отчет.
Есть возможность работать в стиле ENTER, как в N6TR.
Есть некоторые шероховатости. Но, как я убедился сам, виновата не
программа, а железо и разные версии Windows. Жаль, что уже не было
времени протестировать этот момент на разных машинах.

Вполне естественная реакция на "стряпанье" положения!

Ну, если пошла такая "пьнка":

Совету клуба BSCC
(UU0JM, UU1AZ, UU1DX, UU2JQ, UU5WW, UR0MC, UT9FJ)

радиолюбителя Морозова К.Н. (UX1IL)
клубный номер BSCC: 26

ЗАЯВЛЕНИЕ

Прошу исключить меня из ряда членов клуба, по собственному желанию. Я не вижу смысла более принимать участие в деятельности клуба BSCC.

Мое решение есть окончательным и обсуждению не подлежит.

Настоятельно прошу в ближайшее время с сайта клуба www.bscc.in удалить ВСЮ информацию, которая имеет ко мне отношение, а именно: мою персональную информацию www.bscc.in/about_club.html и мои фотографии www.bscc.in/photo_4.html .

Hello, Urcontest.

Таки не ту страну Гондурасом назвали....

Ситуация патовая, как и в нашей политике, так и в радио, так и во всем остальном...
Часто видно фразы типа "где молодежь", "за нами никого нет", и.т.п...

А вот посмотрите:
Куда реально податься молодому простому ни на что особо не предендующему Р/Л вроде меня ?

UCC - мне похоже там нечего делать, разве что статистом быть , все таки это не наше поколение...
UYC - детский сад, ничего серьезного из себя не представляет...
Вроде бы было логично избрать BSCC, но похоже и там не все в порядке в консерватории....

Вот и приходится с жалостью смотреть на пустую строку CLUB в своих кабрилло перед отправкой...

ЗЫ. Все вышесказанное мое глубокое ИМХО, никого/ничего конкретно в виду не имелось.

Всем привет!
Категории участников - MO MB (1 TX - один передатчик подразумевает только один сигнал в эфире), а колличество приёмников не играет роль.Что должны делать остальные члены команды? Пить кофе или участвовать в соревновании? В итоге - только один сигнал, одна антена, один передатчик. Где нарушения - в блокировках или в сетке между компами? Или неумением мыслить технически и грамотно решать технические задачи? - Внимательно читайте положение, что не даст кривотолков сеткам и приёмникам....Или вообще устранить такую категорию, как MO MB (1 TX) и дать возможность детям не пересаживаться с места на место каждые 5-ть минут!? - И так уже коллективок стало совсем мало! Или надо ЧУ устраивать по пересаживанию со стула на стул за единицу времени?
Считаю реплику по приём и сетку неграмотно-смешной!

Здравствуйте, .

hi, умная мысль прозвучала в российском контест рефлекторе!
Надеюсь автор не обидится, что без его ведома форвардирую...
Ну прям как у нас!

А может ну их к черту эти кубки-чемпионаты?! 21 год как я в них
работаю, а все одно и тоже... по весне начинаем думать о том как чего
в них улучшить для всех, а в результате получается для 3 и 6 района
всегда :)Побеждают все равно по большому счету одни и теже станции,
как говорится ну всем понятно, что сильнее их нет :)
Предлагаю вообще их не проводить. Станциям, выигравшим эти тесты,
присвоить звание "Пожизненного чемпиона!", закрепить за ними места в
"Пожизненных рейтингах СРР", которые тоже отменить.
Есть много других тестов, где все довольны положением,
никто ни на кого не в обиде как говорится. Вот в них и будем
работать.

Шутка конечно это... грустная она правда получилась.

To DZ!
Юрий!
А кто говорил про нарушение Положения ЧУ? Обязаны все его соблюдать. Максимально технически грамотно подойти к решению задач и достижения целей - вопрос для всех участников.
Шёл разговор о одном передатчике и команде....Я там был и всё видел...Все "буквы Закона" выдержаны, но меня не утверждали комисаром. Вот Запорожье бы посетил с почетной миссией... Есть и другие интересные и честные места...Вопрос снят и движение масс понятно. А решать о пересаживании с кресла в кресло операторов всего за интервал четыре часа?))) - Более, чем наивно.
P.S. Вот решать вопрос о совмешении ЧУ и Очного ЧУ под прообраз WRTC было бы красивее (оставив на Очные только УКВ туры). Здесь и монстры КВ могли бы быть в равных, контролируемых условиях, а молодым и многим дорога бы открылась в Чемпионы! Место для подобного очного ЧУ найдётся.
P.S.S. Выступит ли дружественная Канада спонсором онного начинания (хотя бы 5-тью вертикалами)? - Это была бы существенная помощь Запада, а не только поучениями в Наших рефлекторах Нам.....

Уже народ до нас придумал кучу интерсных тестов.
Только почему-то мало кто из наших чемпионов в них
работает.Может потому что судят не в Запорожье?
И зачем эти сопли двухчасовые?
Вот WPX CW скоро,давайте посоревнуемся в SOAB HP.

Юра!
Достойный ответ мужчины и спортсмена!
Предлагаю всем - объединить Очный ЧУ на КВ с заочным ЧУ по командному принципу WRTC! Сразу всё станет на свои места, как и для грандов, так и всем остальным участникам. Заодно и решится вопрос формировани Национальной Команды. Готов аккумулировать и объединить все предложения и участвовать финансово и всеми возможностями в подготовке данного действия. Предлагаю всем дружно выработать Положение и принять посильное участие в данном начинании .Это будет настоящий праздник для спортсменов. Кто с нами? Лично мне не нужны "чужие 10-ть коппеек" общие средства (если помимо нас найдутся и другие) передавать Лиге с целевым назначением "ЧУ+ WRTC".

резалты соревнований-все как всегда разбредутся по разным
категориям и соревнуются сами с собой.

В его лице, как активного энтузиаста УКВ, мы много потеряли. Слов нет, глаза слезятся.

Здравствуйте.

С 5 по 13 мая в радиомарафоне "Победа-62"
от Украины примут участие следующие СПС:

1.EN62EN - UR4EYN
2.EN62NW - UT4NW
3.EO62C - UT7CWW
4.EO62G - UR3GM
5.EO62L - UR4LXB
6.EO62MF - UR4MWU
7.EO62NT - UT8NT
8.EO62R - UR4RZZ
9.EO62X - UT3XX

По сообщению из УГЦР оплата получена и разрешения на СПС высланы ВСЕМ
вышеперечисленным ЛРС.
По некоторым причинам возможно, что разрешения поступят на адреса
по месту регистрации станции, а не на адрес, представленный для
переписки. Просьба проверить.
В случае, если разрешение по каким-то причинам не будет получено
до 5 мая, по имеющейся договоренности с УГЦР работать разрешается.

P.S. СРР объявил о работе в радиомарафоне "Победа-62" 111 станций
с префиксом RP62. Велика Россия!

Now available at http://www.radio-sport.net - a new internet site devoted to news about ham radio contesting.

Featuring interviews with contesters, the goal of radio-sport.net is to tell the story lines of our contests, with coverage modeled on what you might read in your newspaper sports section.

The main focus as we go on-line today is the CQ WPX CW at the end of May. You will see that the top three world single-op finishers from last year are out, making WPX 2007 a wide open shootout.

Radio-sport.net is also unveiling rankings of the top contesters in the world, based on contest results over the past year. Our first #1 ranking goes to John Crovelli, W2GD.

Please stop by to take a look...and don't be surprised if you get an email from me with questions about what you're doing in an upcoming contest or how your last contest effort went.

Без права голоса на ТОП-БЭНД форуме означает без шашлыка и 50 грамм
:-)) Т.е. только жаренные помидоры :-)

Эта новость работает уже много лет. Еще вчера все было нормально, а сегодня, после прочтения сообщения Николая вместо карт - надпись "Entire Grid Undefined" . Возможно это связано с тем, что в его регионе ожидается тропо :-).
Это периодически бывает.

Большинством голосов (42-3А) президентом UCC на очередные два года избран
UY5ZZ. По его предложению конференция проголосовала за новый Совет
клуба в составе: UY5ZZ, UT1IA(вице-президент),UR0MC,UX0FF,UT7QF,UT7UJ,UT4EK

Конференция поблагодарила за спонсорскую помощь в организации
UKRAINIAN DX contest и других мероприятий клуба:
UR0MC,UT7UJ,DF4ZL,SP5XVY,UR5FAV,UT2II,UR3QCW,UR5MID,UR3EO,UT7UV,US0YW,UT1IA,
UT7QF,UT5UDX,UT2IZ,UR7QM и др.

Были вручены плакетки призерам URDXC 2006 :UT7QF,UR4EWT(забрал UR5EDX),RT9W (забрал RA4LW), UX0FF. Остальные плакетки для UP0L,UA3QDX,7X0RY,R7C,UU7J будут разосланы в рабочем порядке. Объявлены призы от UR5MID для US0KW и US2IZ по 200грн уже на счету UX5UO для печатания QSL. Обращайтесь к Геннадию!

Футболки от UR3QCW для UW8M,UT7I,UT0U,UU0A,UV2L,UT7UJ,UR6QS находятся в HQ UCC.
Часы (призы от UT7QF)были вручены: EO1I,UT2FA,UT5IZ,UX3IO, оставшиеся для UX1UX,US2YW находятся у Игоря - UT7QF
По URDXC:
Конференция утвердила основные изменения в Положение URDXC 2007
Основные изменения: в соответствии с прошлогодним решением конференции UCC и в связи с созданием и раскруткой отдельного контеста - URDX-DIGI-C ликвидирована подгруппа RTTY; в виду малого количества участников убрана погруппа SWL; подгруппы A и B для UR-станций будут делиться еще на 3 подгруппы (только CW, только SSB и MIXed). Уточнены условия награждения. Абсолютные победители в своих погруппах награждаются памятными плакетками или призами спонсоров согласно перечня, приведенного ниже. Дипломами награждаются первые 10 мест в каждой подгруппе участников. Для украинских станций: если в подгруппе 11 участников, то дипломами награждается и участник, занявший 2-е место, 21 участник - 3 место и т.д.

Участники конференции внесли для обсуждения и проработки контест-комитетом URDXC ряд предложений на будущее, а именно: сделать для подгрупп SO зачетное время 18 часов; ввести подгруппу 3 диапазона; добавить дополнительные награды и призы для молодых участников и др.

По Рейтингу радиоспортсменов Украины, проводимому UCC:
Отмечено, что рейтинговая комиссия вовремя и с минимальными недочетами подвела рейтинг в 2006 году, большая заслуга в этом члена комиссии Сергея UT2IO. На конференции также было отмечено, что положение о подведении рейтинга уже достаточно отработано за прошедшие годы. Но периодически необходимо делать корректировку статуса тех или иных контестов в подгруппах соревнований, звязанную с повышением или снижением активности
и популярности тестов. В частности было предложено повысить статус таких контестов как: EUHFC, Open Ukraine RTTY Championship, URDX-DIGI-Contest.

Результаты ЧУ телефоном огласил Виктор UR5QU, было решено обработать ВСЕ предложения по Положению ЧУ и правилам судейства (здесь выступили UT1HT,UT7QF,UX0FF,UX1IL,UY5QQ...) и Николай -UY5QQ проинформирует всех в течении ближайших пару месяцев.
Георгий UT1HT провел награждение дипломами и плакетками за OPEN UKRAINIAN RTTY 2006, 2007.
Леонид UT2II пригласил всех к участию в IARU Region 1 HF Field Day(02 июня 2007 г. с 15:00 UTC - 03 июня 2007 г. до 14:59 UTC) с базы

отдыха на берегу Азовского моря с. Юрьевка. Необходимые минимальные условия для приема гостей имеются. Связь по этому вопросу с UT2II-80509777777 и US4IGA Владимиром Никифоровым -директором базы отдыха "ЗЕЛЕНЫЙ МЫС" 80676270677

6 вопрос в этом году решали в ресторане Запор1зька С1ч в количественном составе немногим более 40 человек. Впечатления разные...как восторженно положительные, так и...отрицательные (кое кому подали шашлык, как выразился DF4ZL, из кабана - участника великой октябрьской социалистической революции). Тем не менее на банкете ВПЕРВЫЕ RU3DX и UA6LV обнародовали идею создания международного частного фонда поддержки DX-экспедиций. Идея получила 100% одобрение!

Леонид UT2II провел лоторею среди участников URDXC 2006 (RTTY категория)им учрежденного приза.Разыгрывался USB интерфейс для трансивера RIG EXPERT. Выиграшный билет поручили тянуть президенту и он вытянул билет с позывным -UT5EPP. Криворожские радиолюбители UT4EK, UT5EO увезли дорогой приз счастливому обладателю в свой город.

По инициативе UCC были собраны 330 у.е. и отправлены Владимиру Быкову (UA4WHX) в поддержку его африканских экспедиций .
Члены клуба активно включились в акцию помощи экспедиции N8S, из 2500 у.е. собранных украинскими аматорами 1300 у.е. это вклад членов клуба!

Вручены доски по програме UDXA:(UT2IZ-5BUDXA RTTY,UT7EC-UDXA HR,UT4MF-5BUDXA, UA6LDD-5BUDXA,UT4UZ-5BUDXA,HR,VE3DZ-5BUDXA,US3QQ-6BUDXA,UY5YY 5BUDXA,UT7IY UDXA160m

По предложению Совета клуба комиссия в составе
UT8IO UX0FF UT1HT обобщила все вопросы по полемике
вокруг Чемпионата RTTY.С этим вопросом выступил
организатор этого контеста UT1HT.
1.Решено ввести категорию SOMB.
2.Просить UY5YB (web-мастер сайта UCC) разместить
на сайте UCC информацию об собенностях работы
в чемпионате программой UT2UZ MixW
Насчет главного вопроса-может ли иностранный участник
стать Чемпионом Украины - принято решение,что может.

На конференции был поднят вопрос о тренировочных тестах.
Судейство брался обеспечить UY5QQ.Поддержки предложение
не получило.

- неплохо поместить и информацию "для чайников"
для работы в CW и SSB турах.
- особенно важны рекомендации наших чемпионов.

Hello, участникам и читателям итогов конференции!
Приношу свои извинения орг. комитету, что не смог официально зарегистрироваться! Но не моя в этом вина. Дело в том, что по причине того, что была перекрыта дорога к месту проведения конференции сотрудниками ГАИ, мне еще повезло! Я успел попасть к 11:00, т.е к началу конференции. Некоторым пришлось ждать на солнцепеке до 13:00 пока открыли движение. Прокол ли это орг. комитета обсуждать не хочу.
Но я о другом!
Послушал ЛЕПЕТ (иначе это назвать язык не поворачивается) нашего "уважаемого чемпиона", что якобы кто то работал его позывным, что "запала" кнопка ALT на его чемпионском ноутбуке, что не мог он в N6TR переключить диапазон, а по сему и "спалил" шпиона!
ИгорЬ!
Ты не мог более правдоподобного чего нибудь придумать?
Кто то записал что то на магнитофон, кто то фабрикует записи - БРЕД! В приватной беседе, судья телефонного чемпионата правильно сказал - это компетенция судейской коллегии!!! Потому что в положении четко написано: "Судейская коллегия обязана проводить мониторинг чемпионатов с записью на магнитофон."
По моему только когда Грачев Серега судил, это соблюдалось!

По URDXC:
Конференция утвердила основные изменения в Положение URDXC 2007
Основные изменения: в соответствии с прошлогодним решением конференции UCC и в связи с созданием и раскруткой отдельного контеста - URDX-DIGI-C ликвидирована подгруппа RTTY; в виду малого количества участников убрана погруппа SWL; подгруппы A и B для UR-станций будут делиться еще на 3 подгруппы (только CW, только SSB и MIXed). Уточнены условия награждения. Абсолютные победители в своих погруппах награждаются памятными плакетками или призами спонсоров согласно перечня, приведенного ниже. Дипломами награждаются первые 10 мест в каждой подгруппе участников. Для украинских станций: если в подгруппе 11 участников, то дипломами награждается и участник, занявший 2-е место, 21 участник - 3 место и т.д.

Участники конференции внесли для обсуждения и проработки контест-комитетом URDXC ряд предложений на будущее, а именно: сделать для подгрупп SO зачетное время 18 часов; ввести подгруппу 3 диапазона; добавить дополнительные награды и призы для молодых участников и др.

По Рейтингу радиоспортсменов Украины, проводимому UCC:
Отмечено, что рейтинговая комиссия вовремя и с минимальными недочетами подвела рейтинг в 2006 году, большая заслуга в этом члена комиссии Сергея UT2IO. На конференции также было отмечено, что положение о подведении рейтинга уже достаточно отработано за прошедшие годы. Но периодически необходимо делать корректировку статуса тех или иных контестов в подгруппах соревнований, звязанную с повышением или снижением активности
и популярности тестов. В частности было предложено повысить статус таких контестов как: EUHFC, Open Ukraine RTTY Championship,

URDX-DIGI-Contest.

Результаты ЧУ телефоном огласил Виктор UR5QU, было решено обработать
ВСЕ предложения по Положению ЧУ и правилам судейства (здесь выступили
UT1HT,UT7QF,UX0FF,UX1IL,UY5QQ...) и Николай -UY5QQ проинформирует всех в
течении ближайших пару месяцев.
Георгий UT1HT провел награждение дипломами и плакетками за OPEN
UKRAINIAN RTTY 2006, 2007.
По предложению Совета клуба комиссия в составе
UT8IO UX0FF UT1HT обобщила все вопросы по полемике
вокруг Чемпионата RTTY.С этим вопросом выступил
организатор этого контеста UT1HT.
Решено ввести категорию SOMB.
На сайте UCC) будет размещена
информация об собенностях работы
в OPEN UKRAINIAN CH RTTY программой UT2UZ MixW

Леонид UT2II пригласил всех к участию в IARU Region 1 HF Field Day(02

ВПЕРВЫЕ RU3DX и UA6LV обнародовали идею создания международного частного

увезли дорогой приз счастливому обладателю в свой город.

По инициативе UCC были собраны 330 у.е. и отправлены Владимиру Быкову

способствовать повышению уровня и качества сайта клуба. Пауль также
согласовал с нами информацию и фото с конференции для размещения в CQ-DL

Александр RX3AEX передал в подарок для клуба два диска, один об
радиолюбительской аварийной службе России RE0RAS и второй-
ретро, это об экспедиции РА-2 с Ю.Сенкевичем. Ряд ребят успели
посмотреть, диски находятся в HQ UCC
Виктор UA4RC привез распечатанные QSL R1FJT для всех украинских
станций. Представители областей большую половину забрали, еще 50-60
QSL будут переданы в киевское QSL -бюро.

В воскресенье ряд гостей посетили шэки UT7QF и UY5ZZ.

Здравствуйте, .

Уважаемые господа контестмены!

Это нормальное состояние рефлектора, когда он после очередного
чемпионата "бурлит" страстями - кто-то пишет о своих наблюдениях,
кто-то рубит "с плеча" положение, кто-то "режет" тупым скальпелем
судей, а определенная часть с изобилием предлагает свои услуги для
осуществления "кардинальной" революции "...разрушим, а потом..."!
Даже предлагаются финансовые средства, правда, потом их не сыскать!

Но "нормальность" этого "феномена" также говорит и о том, что наверное
эти соревнования не безразличны многим, это ЧЕМПИОНАТЫ и их особое
положение на Украине всегда было высоко! Рейтинг.

Думаю, выскажу мысли многих, потому, что рефлектор далеко не все
участники читают, и ни в коем случае нельзя допустить "больших
реформаторов" к "кормушке"! Это главное.

Второе. Мир, окружающий нас, в том числе наука, техника, технология
и человек совершенствуются и эти вопросы не могут оставаться "вдали"
от ЧЕМПИОНАТА (это ведь технический спорт!), наоборот, необходимо
четко это видеть и регулировать положение, именно регулировать!

Для всех заочных соревнований присущ недостаток - каждый участник
может в силу определенных суждений считать действия коллег
"незаконными, противоречащими правилам, обманом, нарушением
регламента" и т.п.

В реальности имеют место подобные действия.

Но эти моменты присущи и очным соревнованиям, в том числе
олимпийским играм, где, казалось бы, поставлены большие барьеры
шарлатанству, но их формы совершенствуются всегда немного быстрее,
чем их разоблачают! Это человеческий фактор!

За много лет участия, а потом подготовок команд к участию в
чемпионатах всегда понимал, что главным нарушением, вопиющим обманом
в этих соревнованиях, является использование личного позывного
(личный зачет) при работе коллектива "товарищей". Этот феномен
должен обязательно контролироваться любым способом и сурово
наказываться сообществом "аматоров". Этим подрывается абсолютно
все в личном зачете!

А вот для коллективных станций давно пора разрешить ВСЕ!!!
Прошу не восклицать - ограничения естественно будут и они должны
быть направлены на некоторое упорядочение понятия "ВСЕ".

В это понятие должно входить:
- работа нескольких мест в компьютерной сети. Сколько мест - выбирает команда. Не секрет, что управлять двумя местами это не управлять десятью - их надо создать, обучить людей и т.д. и т.п. Это тоже технический прогресс, а это понятие как раз и закладывается в принципы состязания в техническом спорте. Это "подхлыстнет" многих, заставит "ходить по лезвию прогресса", создавать сложные компьютерные системы. При этом должна победить та команда, которая всем этим будет владеть в совершенстве, на высоком уровне квалификации персонала коллективной станции;
- работа несколькими передатчиками одновременно. Это тоже большая техническая проблема, но при определенных ограничениях это можно допускать только для клубных станций. Если это противоречит возможностям нашей "лицензии", необходимо работать в этом направлении, хотя бы для начала - для соревнований типа чемпионатов;
- работа на другом диапазоне для получения множителя, в нашем случае для новой области (это включено в положение "OPEN UKRAINE RTTTY CHAMPIONSHIP" уже два года!);
- наличие приемных мест, связанных сетью, в том числе дистанционную установку частоты трансивера, обеспечивающих "наводку" оператора на нового корреспондента или новую область в определенной местности (определенный радиус действия, например, в пределах области).

Игнорировать все это и появляющееся все новое, все, что связано с прогрессом техники - это, примерно, как борьба с ветряными мельницами в средневековье!

Ведь, что главное мы преследуем - не способность индивидуума принимать или передавать информацию, это проверяется и фиксируется, даже как рекорды, в других видах соревнований, а способность пользоваться всем набором техники и свойств эфира, а также собственной тренированности и тренированности команды для успешной передачи и приема той самой информации!

Остановка в техническом прогрессе - путь на кладбище!

Здесь можно еще добавлять некоторые ньюансы, но в том то и философский принцип "ВСЕ" - раз и навсегда, а при техническом прогрессе всегда все будет совершенствоваться!

Можно апеллировать, а как быть школьникам на детских станциях, у кого один UW3DI и антенна диполь? Вот здесь и должны быть ограничения в положении, например, школьные станции идут в отдельном зачете. Но остальные должны быть в основном зачете.

Реальность создаст определенную конкуренцию среди пяти-десяти коллективов, которые смогут бороться между собой. Сопоставив реальность создания таких клубов, можно думать так, что им не с кем будет "тягаться". Но прогресс не остановить - всегда "подрастут" новые энтузиасты, которые будут работать в этом деле, а "старые" клубы бывают и "стареют" и "умирают"! Это реальность! География чемпионов

всегда будет большой! Нужно дать этому новый стимул! А это техника, программирование - совершенствование человека, группы людей.

Может оказаться, что появится понятие "лимита" участников, т.к. обладая такими возможностями можно быстро отработать со всеми и будет скучно! Во-первых, со всеми не сработать даже по теории вероятности, а во-вторых при такой ситуации есть разумный шаг - ОТКРЫТЫЙ ЧЕМПИОНАТ УКРАИНЫ! Плюсов при этом гораздо больше чем минусов - неиссякаемое количество участников и отсутствие, во всяком случае, лимита, и второе - "супер-клубы" будут состязаться с "супер-клубами" других стран, это только повысит спортивную состязательность и опять престижность рейтинга на новом уровне! Здесь можно, видимо, подумать о включение в розыгрыш престижного звания МСМК, а почему бы и нет?

Об ограничениях.
Первое. Площадь расположения передатчиков и антенн, т.е. размеры площади из которой происходит излучение. Это необходимо оговорить в положении и контроль за этим осуществить очень просто - запись работы на широкополосный приемник и контроль силы сигнала В БЛИЖНЕЙ ЗОНЕ собственных передатчиков по калибратору.
Изготовить сегодня такой "жучок" для клуба, который будет использовать вышеописанные системы, будет под силу! Вот здесь нужны будут финансовые средства, сегодня есть кому заказать 10 - 15 комплектов, а компьютеры есть у всех.
Я не говорю, кто будет это осуществлять - может сами участники, а им это наконец станет выгодно!!! А может поручать инспекции или независимым комиссарам?!
А может выполнять запись потребляемой мощности от сети - тоже способ, где будет видна работа передатчика (передатчиков)и заодно окончатся разговоры о QRO! Вместо пробки вставляется датчик и все записывается на компьютер.

Вот об этом надо подумать всем. Это не сложно по отношению к философскому разрешению "ВСЕ"!

Индивидуальные станции должны быть ограничены от многих "философских ВСЕ"! Должна быть обеспечена фиксация работы одного оператора, но на радиостанции может быть не обязательно один передатчик! Это главное.
Второе - наличие одного сигнала в каждый момент времени.
Третье - может быть разрешено проводить "быстрый переход" на другой диапазон за новой областью, хотя, если только один оператор - это проблематично! Скорее всего это будет помощь второго лица, пусть даже и по сети.
Четвертое - наверное необходима или предварительная заявка о серьезной подготовке спортсмена, или контроль его работы комиссаром, т.е. необходимо исключать "случайности" появления чемпиона. Заявок будет не так много и их можно проконтролировать. Здесь могут быть полезными и мониторинг и запись работы с места и контроль - один работающий передатчик с одного места.

А вот использования кластера, даже подсказок со стороны - если будет оператором один человек - не даст особых преимуществ, может только отобрать время при серьезном темпе.

Проблема сегодняшнего дня требует серьезного рассмотрения этого вопроса. Прошу отнестись к этому серьезно, от этого решения во многом зависит реальность наших чемпионатов.

Последний вопрос, который тоже вызвал "волны" разного направления. Все должны знать и это должно быть незыблемо - окончился чемпионат и о нем должна быть тишина в эфире, по телефону и в рефлекторе. Ровно столько, сколько предписано положением до последнего дня приемки отчетов. Далее все можно. Надеюсь, понятно и здесь нечего судачить.

Это правило просто необходимо соблюдать всем, и судьям и спортсменам, а также сочувствующим, пока на нелегальном положении! Это этика всего процесса!

Успехов!

Не знаю как пятью ваттами на 80 м, а вот десятью на 160 вполне
реально. В CW были проблемы с электропитанием поэтому потерял
порядка часа, отсюда и результат.

Так я и не пойму-стоваттники стонут,а пятиваттники по одному ЩСО в
минуту лопатят и на одном бенде.Стоваттники должны по крайней мере
по полтара ЩСО на одном бенде делать со свистом,то есть столько же
ЩСО за тест,сколько и мощегоны на двух бендах.
Отсюда вывод:мощегоны вообще никудышние операторы.
Спасибо за внимание :-)

Hi contesters.

On June 9/10Th the GACW WWSA CW Contest will be held again this year. We from SA hope many of our friend from all over the world join the fun.

As many of you may know the GACW took over the organization of this contest a couple of years ago. The GACW has a long tradition organizing Ham Radio Contest, publishing results and sending trophies and certificates ON TIME year after year.

The plaque program has grown up from just a few to 20 plaques as of today.

We count on your participation, no matter how many Qs you plan to make, it will be really great hearing you fire your CQs in this contest!!!!!

Здравствуйте, .

Сообщаем о смерти члена нашего клуба - Владимира Стрелкова UA6LAM
UCC#76. Выражаем соболезнование родным и близким.
Вот такая информация пришла -

...Супруга сообщила ,что Володя UA6LAM
скоропостижно скончался ночью 31 мая
инфаркт... ,были проблеммы с сердцем и давлением
и еще эта жара ...
А он почти все время проводил за радивом
Жаль , фанатично увлеченный радио был человек...
Теперь осталась квартира заваленная радиожелезом
и убитая горем супруга в ней....
Берегите себя

Интересно и удивительно то, что если бы подобные ОШИБКИ были сделаны в URDXC or RUSDXC , то публика заклеймила и разорвала на части организаторов :))
А здесь прганизаторы теста ARRL !!! и такие непростительные ЛЯПЫ...и все молчат или мягко удивляются.
Где вы наши крутые англичане, кто в конце своих мсг приводит цитаты английской классики ?
Напишите им, что делать такие непростительные ошибки НЕПРОСТИТЕЛЬНО!
А мы подпишемся .

Hi,

we are happy to announce that the results of ES OPEN HF CHAMPIONSHIP 2007
are ready and you can find the results and also detailed UBN files and Soapbox file with all comments on ERAU web page www.erau.ee in ES Open Contests > ES OPEN HF Championship section. Direct link to results and detailed scores is:

cle&artid=201> &name=Info&file=index&req=viewarticle&artid=201

Direct link to PDF file containing all the stations' logs with all errors
and explanations (check it out!!) is:

Direct link to PDF file with all Soapbox comments from participants is:

http://www.erau.ee/docs/ES_Open_2007_Soapbox.pdf

We are very happy that foreign participation was biggest ever this year (83
logs received from non-ES stations). Foreign winners were:

A-MIXED: YL7A was the champion with historical achievement breaking 200 QSO
barrier for the first time by non-ES station. Juris made 217 QSOs and he was
followed by Arvis, YL7X and Gunars, YL2GD who both also broke LY9A's previos
QSO record.

B-SSB: Jan, 5P1D (previously OZ1ADL) did it again! He won SSB category third
year in a row! 2nd place went to Sergei, UA3LHL who operated LP! And 3rd was
Karlis, YL2CI.

C-CW: Algirdas, LY7M is the king here. He dominated the CW category for also
the 3rd year in a row. Competition for 2nd place was quite tough and
Romualdas, LY2CQ finished less than 100 points ahead of Normunds,

YL3DQ.

Zigurd, YL2PJ was the best LP station and he recieves the special
trophy
from LRSF.

D-Multi Op: We congratulate Vitebsk school club station EW6WA for
taking the
first place in this category! They left RK3XWO on the second place.

15773. Fw: [CQ-Contest] IARU HF Championship - A Travesty

Yahoo group: URcontest (2006 — 2007)
Date: 2007-06-13 19:08:02 UTC
From: UT1IA
Topic: 15773 Message: 15773

It's good to see some others speaking out about cheating in the IARU HF Championship. Let me see if I can use history to help others understand how we got to this sorry state of affairs....

First of all, notice that this is, theoretically, NOT an ARRL-sponsored contest. It is sponsored by the IARU. (However, all management is done by the ARRL - more on that later). This gives the ARRL a convenient excuse when its members demand rule changes ("We can't change the rules, only the IARU can do that").

Long ago, back in the late 70's, there were no HQ multipliers. Only the ITU zones counted as multipliers. It was a great contest, except for one thing - the international winners were typically from South America - and we're not talking about PJ2 and P4, but deep South Americans, like LU's. This upset the gawd-given order of the world ! Since Europe only had 4 multipliers, Europeans couldn't rack up huge scores by working 40 European countries on each of 5 or 6 bands ! So, with the consent of the IARU, the HQ multipliers were added. In the first few years, the HQ stations were slow to catch on. However, just the presence of 10 EU HQ stations was enough to take away the "unfair advantage" that South American stations enjoyed. As the years passed, more-and-more HQ stations jumped in, and soon the HQ stations were just another country multiplier, to be worked on every possible band. In recent years, the winning scores have had more HQ station multipliers than ITU zone multipliers.

Now the HQ stations have taken on a life of their own, with fierce and unethical competition between countries for bragging rights. This has led to rampant cheating. For example, does anyone really believe that in 2005, DA0HQ worked 2390 unique stations (or, at least unique operators) on 160 meters ? I have heard a recording of the DA0HQ 160 meter operation - a classic case of reading calls from a pre-arranged list of DL callsigns. In the same contest, next-door neighbor TM0HQ only worked 705 stations on 160 meters.

And here's another consequence of this being an IARU contest --- Some IARU member societies have convinced their national, government funded, sporting organizations that this is an international event worthy of financial awards to their countrymen, should their countrymen be the world "gold medal" winner. Might this help some of you understand the impressive (and unbelievable) QRP and low power scores ?

So....What can we do about this ?

Some suggestions:

1) If you are an ARRL member, contact your ARRL Director and demand an understanding of the financial arrangements that support the IARU HF Championship. All management of the IARU contest is done by the ARRL - administration, log checking, contest writeup, certificate printing and mailing, QST publication, web administration... Since the IARU seems to have closed

financial books (www.iaru.org), it is impossible to determine how the IARU contest is being financed, and the ARRL contribution to its financing. If, as I suspect, the lion's share of the IARU contest is being funded by the ARRL, demand that such funding be cut-off until changes are made to the contest rules and contest adjudication (or eliminate the IARU contest entirely).

2) Enjoy a beautiful July weekend with your spouse, kids or signficant other, rather than operating the radio.

3) Discourage the WRTC-2010 committee (SRR, RZ3AA, RA3AUU) from using the IARU HF Contest for the selection of WRTC-2010 competitors.

4) Your suggestions here ...

Steve, N2IC

Функции КВ комитета-до 30 мгц.

Hello UT1IA,

Все началось с того,что за все отвечает КВ комитет.

Вообще это все ПРЯМАЯ ФУНКЦИЯ (РАБОТА)
КВ комитета (UT7QF) и его членов (UT8IO...)
И если раньше был Миро, который наезжал (читай
подгонял), то сейчас его нет...

Интересно, а кто давал информацию о маяках, которая
размещена на нашем официальном сайте ЛРУ:

http://www.uarl.org.ua/operation_activites/beacon/vhf_beacon.html

Там очень наглядно видно, кто читал нормативные документы перед
включением маяка, а кто нет.
Споты данного УПС UT5G/B и UU5SIX/B я действительно обнаружил в кластере
еще в 2001 году. Прав Игорь UT7QF, дела давно минувших дней...
Осталось выяснить еще один маленький нюанс, исповоль подсказанный Игорем
UT7QF - наличие этих позывных в базе данных УГРЦ и тогда посыпать голову пеплом.
Но это уже в понедельник. ;-)))

Поговорили "правильные пацаны" про мощность и про 50 мгц
Правда один из них на 50 мгц не то, что не работал, спроси его он и
участки диапазона по модам не расставит:))
Второй приобрел почти три года назад у нас УСИЛИТЕЛЬ на базе Р-140
на лампе ГУ-78Б (выходная мощность 2,4-3,0 KWT)с питанием от трех фаз
и потихоньку жарит на нем то в HP то в LP :))

Но ZZ лекцию почитать, что бальзам на душу!

Здравствуйте, Nick.
Дорогой ВЫ наш "оппонент" !
Я заркся с вами вступать в полемику еше
полтора года назад , чего и вам желал.
Вы пересрали отношения со всеми и вся !
С президентом лиги бывшим и настояшим, с
председателями большинства комитетов, с МСМК и МС
всей Украины ...И все из-за своего
"оппонентского" характера, над этим надо
задумываться прежде чем кого то подначивать,
поучать.
У вас была возможность пару лет, когда вы
возглавляли соответствующий комитет ЛРУ,
навести порядок в радиоспорте или хотя
бы показать направление как это делать.
Вы и здесь все с треском провалили и вас
отправили на дембель. На дембель вас отправила и
киевская радиолюбительская организация...
и другие ...
Умеете вы делать программы, спасибо! Сделайте
свой МИХ, что бы в российском рейтинге он не 4-6
строку занимал, а выше. Кстати, у меня он хорошо только
ЩСЛ распечатывает и BPSK работает, :))

Так что привет и не трогайте меня я вас лично
просил, теперь через рефлектор.

Вот это видно, что хлопцы с запада в Европу рвутся!
"Не словом, а делом" (В. Ющенко, цитата)!
Пишут в кодировке ISO и еще в перемешку с аглицким!
Зачем это только надо? Не пойму!
Ясно на РУССКОМ языке написано в правилах:

Здравствуйте, Николай.

Аналогичный вопрос я, как главный секретарь ЧУ ССБ, уже задал учредителям
- Исполкому ЛРУ и UCC. Я считаю, что в клубном зачете должны учитываться
только те клубы, которые официально являются структурными подразделениями
ЛРУ, ОСОУ или существующие вне этих организаций, но официально оформленных
согласно Закону об общественных организациях.

> В нашем случае дело пошло к превращению клубного зачета в шуточный
> вариант (для чего только такой в официальных результатах?) .

А для того, чтобы посмешить Госкомспорт и его областные комитеты
при присвоении званий и разрядов. Там тоже протокол читать будут.

> У судей два варианта - пусть шутники забавляются дальше либо потребовать
> от них представить в судейскую коллегию все соответствующие документы,
> подтверждающие существование клуба или организации.

К сожалению, для этого нужно официальное решение учредителей.
Положение о ЧУ и Правила этот вопрос пока не регулируют.
Я надеюсь, что пока протоколы не утверждены, Исполком ЛРУ и Совет UCC
оперативно примут совместное однозначное решение по данному вопросу.

P.S. Абсолютно ничего личного. С уважением отношусь КО ВСЕМ
участникам ЧУ и их праву выбирать себе клубный зачет. Но должны
же быть какие-то правила и рамки игры! Иначе доходит до абсурда.

P.S.S. Если ничего не изменится, то клубу "Старые Васюки" будет
противостоять "Клуб любителей женщин". Думаю, мало кто откажется
записать свой результат за него! По ряду причин... :-)))

Соревнования закончены и прошли согласно утвержденного положения. Что-либо менять задним числом нельзя, если нет желания угробить идею.

Всё вроде правильно сказано, но менять ситуацию нужно до ЧУ, а не после!)))) Никто из "клубников" не будет и работать в ЧУ, коли не станет такого зачёта. А на сегодня ОБЯЗАНЫ провести КЛУБНЫЙ ЗАЧЁТ! Даже если это клуб " Старые Васюки".

Не примем ни в коем случае! Мы судим ЧУ SSB. За ЧУ CW - это в Киев, к
Вите Боброву. Может примет... ;-)))

Конечно, изменять Положение задним числом нельзя. Но судьи могут и не
знать клубы, за которые участники заявляются. Поэтому имеют полное право
запросить у подателя клубной заявки документального подтверждение
существования данного клуба. Требуют же судьи полностью указывать ФИО,
спортивный разряд и т.д. Правила это разрешают.

Из Правил:

4.4. ГСК имеет право запросить от участников дополнительные сведения
об участии в соревнованиях, которые могут буть необходимы для
судейства.

Но на этом предлагаю полемику по вопросу клубного зачета закончить.
Однозначно, клубный зачет будет согласно Положению.

Здравствуйте, Валерий UR7QM.
Хороший ответ! Спасибо!
Отвечая про "Клуб" - "добровольное объединение граждан по интересам" (в нашем понимании - Радио, а у кого может быть другое и он имеет на это право). Участникам подобных объединений всегда интересно видеть свои результаты... Может не всем, но тоже их право....Мне непонятно только отчего пошла подобная полемика вместо опубликования результата? Возможно кому-то не нравится результат? То-то Игорь стал таким раздражительным.... -Ничего личного! А клубная заявка не играет роль! - Главное, что в отчётах в нужной графе указан клуб участника ЧУ. Дело судей посчитать статистику и довести народным массам. Может и клуб " Старые Васюки" с одним участником хорош? Зачем-то этот один заявился за него.

Спасибо за ответ, КОЛЛЕГА! - 50 гривен были тебе давно переданы...
Я помню город Фридрихсхафен, где мне активно предлагали членство в вашем клубе... Тогда отказался. Вот когда выполнил условия стал недостоин. Про BSCC - уговаривать я никого не уговаривал. Виктор, UT7EC, самостоятельно сделал свой выбор. На странице http://www.bscc.in/about_club.html вполне достойный список мемберсов из многих стран и быть в этих списках вполне престижно. Вступают так, как считают удобным для себя. Тут-же получают членский Сертификат (очень таки симпатичный). Клуб - добровольное объединение граждан по интересам. BSCC уже стал интересен многим и двери в него всем открыты! В любых соревнованих каждый заявляется как сам считает нужным. Вот вкраце и всё. Да и тему про BSCC ты сам поднял...Чем тебе это слово не нравится?...Тебе бы только вылить ушат на кого!? Или тебя интересует "МИР и ДРУЖБА посредством РАДИО?" А делить никто и ничего не собирается - только интересуюсь клубным РЕЗУЛЬТАТОМ!

Здравствуйте, .

Ukrainian DX DIGI Contest
Соревнования проводятся организацией
UARL, UCC, KCG, IRC
Украина
Начало: 23 июня 2007 г. в 12:00 UTC
Завершение: 24 июня 2007 г. в 12:00 UTC
Соревнования проводятся ежегодно в последние выходные июня.
Одновременно два видами работы, один из которых - RTTY. Другой - наиболее популярный и актуальный, на данном этапе, вид. В 2007 г - это PSK31. При изменених - новый вид будет отображаться и в названии.
Общие правила.
Для всех зачетных категорий разрешено использование систем оповещения (DX - кластеров). Использование режима self-spotting (информирование о самом себе) запрещено. К self-spotting, кроме первостепенного значения, относится также споты от друзей, проживающих в пределах одного QTH.
Для всех зачетных категорий переход на другой диапазон или вид работы разрешены не ранее, чем через 10 минут от предыдущего перехода. Количество переходов - не ограничено. Связи, проведеные не в соответствии с "правилом 10 минут", к зачету не принимаются и будут исключаться в хронологическом порядке - т.е. в конце времени, недостающего к 10 минутам перехода.
В любой момент времени станция может излучать только один сигнал.
Для всех зачетных категорий разрешается проводить связи с одной и той же станцией как RTTY, так и PSK31 на каждом диапазоне. Запрещено проводить связи RTTY в участках PSK31 и наоборот, в диапазонах 20 - 15 - 10м. Расхождение времени радиосвязи допускается не более 3 х минут.
Виды модуляции: PSK, RTTY
Диапазоны: 80 м, 40 м, 20 м, 15 м, 10 м
.:: КЛАССЫ ::.
MOMB HP
SOAB - HP + SOAB - LP
SO80 - HP + SO80 - LP
SO40 - HP + SO40 - LP
SO20 - HP + SO20 - LP
SO15 - HP + SO15 - LP
SO10 - HP + SO10 - LP
Для украинских участников проводится отдельный зачет по тем же категориям. Всего 26 зачетных категорий.
При работе в однодиапазонных зачетах разрешается проводить связи на других диапазонах, такие связи следует указать в отчете, они не оцениваются, но будут засчитаны корреспондентам.
.:: КОНТРОЛЬНЫЕ НОМЕРА ::.
Зарубежные радиолюбители передают RST + порядковый номер связи, начиная с 001. Нумерация связей сквозная по всем диапазонам и видам излучения. Радиолюбители Украины передают RST +

идентификатор области - двухбуквенное сочетание, обозначающее область, в которой находится радиостанция, в соответствии с прилагаемой таблицей. Общий вызов: "CQ URDX TEST".
.:: ОЧКИ ::.
Для радиолюбителей Украины: - за связь с UR - 1 очко на всех диапазонах. Для всех участников: - за связь со своим континентом - 1 очко - за связь с другими континентами - 3 очка - за связь с Украиной - 5 очков для радиолюбителей Европы, и 10 очков - радиолюбителям с других континентов - за связи на диапазоне 80м всем участникам - очки удваиваются. Связи с любой "/MM" станцией для всех участников оцениваются в 5 очков и не являются множителем. Операторы всех категорий могут провести с одной и той же станцией на одном диапазоне только два QSO - одно RTTY и одно PSK31. Повторными считаются радиосвязи, проведенные на одном и том же диапазоне одним и тем же видом работы. Такие связи оцениваются в 0 очков.
.:: МНОЖИТЕЛЬ ::.
МНОЖИТЕЛЕМ являются территории по списку DXCC + области Украины. Отдельно по диапазонам и отдельно в RTTY и в PSK31.
.:: ПОДСЧЕТ РЕЗУЛЬТАТА ::.
ОКОНЧАТЕЛЬНЫЙ РЕЗУЛЬТАТ получается как произведение суммы очков на всех диапазонах на суммарный множитель.

.:: НАГРАДЫ ::.
- Первые места во всех категориях MOMB и SOAB - Призы - Медали
- Первые места во всех однодиапазоных зачетах - Медали - Дипломы
- Вторые и Третьи места во всех зачетных категориях - Дипломы, награды .
.:: ОТЧЕТЫ ::.
Отчеты принимаются только в формате «CABRILLO», который формируется всеми известными программами для соревнований. Время проведения связей в отчете следует указывать в GMT. Подсчет очков и указание суммарного результата делать не обязательно, поскольку заявленный результат определяется программно по предоставленому отчету. Для зачета будут учитываться и связи (при отсутствии отчета участника) при условии косвенного подтверждения данного позывного не менее в 3-х отчетах.
По окончанию судейства по запросу участника может быть выслан UBN-файл. Желательно приложить и Титульный лист с указанием основных сведений об участнике, полный почтовый адрес для высылки участнику призов, медалей и дипломов.
Отчеты об участии в соревнованиях высылаются не позднее, чем через 30 дней после окончания соревнований только по E-майл. Поддерживающие программы - MixW и RCKRTTY, в случае использования другой программы PSK QSO обозначается в Cabrillo логе как PK, RTTY QSO как RY, либо высылается как Cabrillo log так и ADIF.
.:: АДРЕС ДЛЯ ОТПРАВКИ ОТЧЕТА ::.

Здравствуйте.

Собрался поучаствовать в Ukrainian DX DIGI Contest и возникли вопросы
у дилетанта DIGI mode:

1. Уточнить границы участков:

> Запрещено проводить связи RTTY в участках PSK31 и
> наоборот, в диапазонах 20 - 15 - 10м.

В нашем Регламенте участков отдельно для этих мод нет.
Тогда может, вместо ЗАПРЕЩЕНО следовало бы написать НЕ РЕКОМЕНДУЕТСЯ
и обозначить участки?

2. Мощность LP для PSK31 и RTTY?

С HP вопросов нет. Тут все понятно. ;-)

Буду работать сколько позволит время в категории SO20 - LP и вне
зачета на других диапазонах.

Что делать с отчетом за IARU 1Reg 50 Mhz June Contest?
Поляки требуют переделать из Кабрилло в REG1TEST (EDI). Я непротив, если кто-нибудь подскажет как это сделать. Надеюсь, существует соответствующий конвертер.
UT5DL молчит, или я пропустил информацию? Ему я тоже послал свой UV5U.cbr. Предполагается централизованная отправка всех отчетов полякам или лучше озаботиться все-таки этим самому?
Спасибо за ответ,

Ностальгия по Радянському Союзу - главный клуб страны? А я вот люблю
перед тестом и после него пива попить с корешами из Kyiv Contest Group.
По моему это и есть клуб - когда можно регулярно общаться. Кстати, наша
"Васюки" пару раз в CQ WW занимала в клубном зачете намного более
высокое место, чем главный клуб страны. И мы это помним, потому что
спортивная конкуренция здоровое явление, както взбадривает. Вот вернется
Юрий, мы вам покажем :-)))

Виктор ! Да можете Вы работать где Вам захочеться и когда захочеться ,
только надо всех было предупредить, чтобы на время Вашей работы
прекратили работу контесте и Вам не мешали. Причем это нужно было
сделать всем участникам,на всякий случай:)))
Я не знаю как Вы определяете уровень пользователя в интернете ??! НО
тональный сигнал ,свист и прочее проявление "интелекта" и есть
показатель культуры "пользователя " эфира и это и есть настоящее
хамство.

А чё, вроде и неплохо звучит - ZCG "Славутич"!
И взять Запорожский пивзавод ±2 в спонсоры... ;-)

Николай Михайлович, в наименовании "Васюки" звучит снисходительная нотка. Мне кажется, чем больше "Васюков", "73", Измаил Контест Клуб и т.п. не_главных_клубов_страны, тем более они отвечают истинному понятию "клуб". Ведь UCC, по большому счету, не клуб, а организация национального масштаба - своего рода комитет ЛРУ. Какое-то время назад в Лиге даже Контест комитет ликвидировали. Вполне сознательно, за ненадобностью, так как руководство UCC вполне справлялось с его функциями. Вели UKR DX CONTEST, издавали бюллетень, проводили конференцию и многое другое. Я сам состою членом UCC, иногда по мере сил поддерживаю его мероприятия и ценю проводимую руководством работу. Но своим клубом я считаю и всегда заявляюсь за KCG. Занимали места и неплохие, не обязательно 79-е. Зато своими руками и есть что пообсуждать в приятной компании. К слову сказать, я, как возможно и Вы, являюсь членом ARRL, но за нее не заявляюсь :-) Поймите правильно, я совсем не против, чтобы все радовались первому месту. Я Вас даже поздравил с этим событием. Главное, чтобы Вам это нравилось, воодушевляло Вас на новые выступления и все в порядке. Немного грустно только от того, что при этом унижаются "Васюки". Вот это мне представляется наследием советской ментальности. Ну, и конечно, гигантомания советская. Главная Елка Страны!!! Чем она главная. Может, просто самая высокая? Или дороже, чем на других, на ней гирлянды? Пожалуй, так оно и было раньше, что можно в Москве нельзя было в Киеве (вспомним историю дворца Украина). Но теперь-то иначе. Теперь фейерверки на днях рождения "простых смертных" запускают. Человек перестает быть винтиком в каком-либо главном (или наоборот во второстепенном) механизме. Человек хочет, чтобы его уважали в том числе и за то, что он выбрал членство в маленьком клубе. А ему поясняют - гнилуха ты васюковская :-)

Да, а патриотизм? У меня дома уже три флажка жовто-блакитних скопилось. А у Вас? :-)
Ладно, это больше шутка, чем серьезно. Не берите в голову,

Да... Пожалуй, надо признать, что сблизить наши подходы врядли удастся. То, что для Вас №1 - утереть нос всем за границей, для меня не является приоритетом. Очки важны и интересны, но не как самоцель. Не самозабвенным сплочением воедино во имя великой цели к чему многие из вас призывают не останавливаясь перед сомнительными заявлениями, граничащими с оскорблениями. Мне это интересно только после того, как я честно отразил реальное положение дел - членство в клубе в данном случае. Все эти "слабые" отставшие заграничные клубы слабы в очках, но на порядок сильнее в своей главной функциональности - дать своим членам дополнительные возможности заниматься любимым делом, при этом не посягая на их суверенитет. И при чем здесь раздробление на удельные княжества? Какие амбиции? Какие обиды? Как по мне, так все поставлено с ног на голову. Я и близко не думаю о чем-то, в чем меня можно утешать. Просто пытаюсь объяснить (в появившееся свободное время), что взгляды на одни и те же вещи бывают разные и это нормально. Заметьте, я совсем не отрицаю, что люди с подобными моим (либеральным) взглядам являются фанатами UCC. На здоровье, лишь бы им это нравилось. Зато Ваши сторонники уже навешали мне ярлыков - и сепаратизм, и отсутствие патриотизма...
Кстати, патриотизм. Я не выступаю за EM5HQ по личным обстоятельствам, о которых сообщил Владимиру. И это не связано с патриотизмом или его отсутствием. Но чем больше я думаю об этом явлении - всей страной работать одним позывным, тем больше вижу его фальш. К сожалению, часто случается так что то, что было прогрессивным вначале, с течением времени способно перерождаться в нечто негативное. Наверняка Вы читали заметки какого-то янка (N1ND ?) с контест рефлектора. Если немцы за счет немецких позывных способны провести в 3 раза больше связей на 160 м, чем любые их соседи и выиграть главный приз, то возникает мысль - не конец ли этой затеи подкрался под видом так называемого патриотизма? Ничего страшного, конечно, все рождается, развивается и... Умирает. Найдется новая идея, как сделать контестинг еще более интересным. Хотя он и без новых идей is fun,

Subject: [URcontest] Fw: [CQ-Contest] IARU HF Championship - A Travesty

It's good to see some others speaking out about cheating in the IARU HF Championship. Let me see if I can use history to help others understand how we got to this sorry state of affairs....

First of all, notice that this is, theoretically, NOT an ARRL-sponsored contest. It is sponsored by the IARU. (However, all management is done by the ARRL - more on that later). This gives the ARRL a convenient excuse when its members demand rule changes ("We can't change the rules, only the IARU can do that").

Long ago, back in the late 70's, there were no HQ multipliers. Only the ITU zones counted as multipliers. It was a great contest, except for one thing - the international winners were typically from South America - and we're not talking about PJ2 and P4, but deep South Americans, like LU's. This upset the gawd-given order of the world ! Since Europe only had 4 multipliers, Europeans couldn't rack up huge scores by working 40 European countries on each of 5 or 6 bands ! So, with the consent of the IARU, the HQ multipliers were added. In the first few years, the HQ stations were slow to catch on. However, just the presence of 10 EU HQ stations was enough to take away the "unfair advantage" that South American stations enjoyed. As the years passed, more-and-more HQ stations jumped in, and soon the HQ stations were just another country multiplier, to be worked on every possible band. In recent years, the winning scores have had more HQ station multipliers than ITU zone multipliers.

Now the HQ stations have taken on a life of their own, with fierce and unethical competition between countries for bragging rights. This has led to rampant cheating. For example, does anyone really believe that in 2005, DA0HQ worked 2390 unique stations (or, at least unique operators) on 160 meters ? I have heard a recording of the DA0HQ 160 meter operation - a classic case of reading calls from a pre-arranged list of DL callsigns. In the same contest, next-door neighbor TM0HQ only worked 705 stations on 160 meters.

And here's another consequence of this being an IARU contest --- Some IARU member societies have convinced their national, government funded, sporting

organizations that this is an international event worthy of financial awards to their countrymen, should their countrymen be the world "gold medal" winner. Might this help some of you understand the impressive (and unbelievable) QRP and low power scores ?

So....What can we do about this ?

Some suggestions:

1) If you are an ARRL member, contact your ARRL Director and demand an understanding of the financial arrangements that support the IARU HF Championship. All management of the IARU contest is done by the ARRL - administration, log checking, contest writeup, certificate printing and mailing, QST publication, web administration... Since the IARU seems to have closed financial books (www.iaru.org), it is impossible to determine how the IARU contest is being financed, and the ARRL contribution to its financing. If, as I suspect, the lion's share of the IARU contest is being funded by the ARRL, demand that such funding be cut-off until changes are made to the contest rules and contest adjudication (or eliminate the IARU contest entirely).

2) Enjoy a beautiful July weekend with your spouse, kids or signficant other, rather than operating the radio.

3) Discourage the WRTC-2010 committee (SRR, RZ3AA, RA3AUU) from using the IARU HF Contest for the selection of WRTC-2010 competitors.

4) Your suggestions here ...

Steve, N2IC

А действительно, где ты, Валера, видел результаты ЧУ ТЛФ? ;-)
Может ты имеешь ввиду ЧУ CW? Там действительно, на первом месте
BSCC - 13448 очков, с чем мы его и поздравляем. Однако, при внимательном
рассмотрении клубного зачета видно, что UCC набрал 8242 очка.
За него заявились те, кто не знал или забыл о рекомендации конференции
заявляться за свои "домашние" клубы. И если к их результату прибавить
хотя бы только очки ЗОО ЛРУ 9354 (а там среди заявленных практически все
члены UCC), то уже получается 17596. А сколько еще членов UCC среди
других клубов?! Но такой амбициозной цели у UCC не было и нет.

На 14033.4 работает UT2FA/P IOTA EU-182.
Зовущих много, но молодец! Отлично разгребает pile up!

Ваша правда, Роман. В подтверждение, например, UR0MC заявился за
клуб "Глобус", хотя член и UCC, и BSCC. Или UR7QM, член UCC, заявился
за клуб "73!" И.т.д.

> У BSCC тоже не было никаких целей.

Возможно и так.

Но! Но в предварительном протоколе ЧУ CW значится:

1.BSCC - 13448
UR4CYT,UR4EYN,UR5FEL,UT7DK,UT8NT,UT9FJ,UU1CW,UU2JG,UU4JXM,UU5JHR,UU5JIB,UU5WW,
UX1IL,UY5HF

В их числе видим:

UR4CYT - 282 очка
UR4EYN - 1510 очков

Но если зайти на http://www.bscc.in/about_club.html ,
то почему-то эти две станции в списке членов BSCC не значатся...

Обычно в спорте мы это называли подставой. Как здесь - не берусь судить. Может с начала марта и до сегодняшнего дня сайт не корректировался, может письменные заявления от станций затерялись где-то в пути, может я не в том списке смотрел, может судьи что-то напутали в протоколе... Ну и т.д. Бывает... ;-)

Валерий Иванович, Вам, как Главному секретарю телефонного ЧУ уж точно
должно быть известно, что клубный зачет подводится согласно поданных
заявок. И если позывной фигурирует в нескольких заявках от клубов
то логично было бы защитать результат за тот клуб который указан в
отчете участника.

Мое сообщение в рефлектор (с которого и началась "мышиная возня"
UCC-BSCC) преследовало как раз выяснить эти острые углы в судействе,
а тут такое раздули.....

> В их числе видим:

> UR4CYT - 282 очка

В заявке не присутствовал и появление этого позывного выяснено у
судейской коллегией телеграфного Чемпионата. Вопрос улажен.

> UR4EYN - 1510 очков

вопрос состыковывался с членами команды UR4EYN (два из троих члены
клуба, решение принимали сами).

Подтверждаю - известно точно! Клубный зачет мы подводим согласно
клубной заявки, поданной вовремя согласно Положению и наличии отметки
в отчете спортсмена о зачете результата за данный клуб. Если что-то не
совпадает - ciao!

Момент интересный и далеко не бесспорный. Если в списке членов BSCC
фигурируют, например, UU4JXM или другие коллективки, то никаких
вопросов не возникает. А здесь...

А что значит "вовремя" в данном случае? Ни в Положении, ни в Правилах
сроки судейства заочных соревнований на КВ не обозначены. Всему свое
время.

Здравствуйте, URcontest.

А почему бы не организовать всеукраинские соревнования на КВ осенью и назвать их,скажем, Кубок Украины на КВ.Кстати BSCC может взять на себя организацию этого мероприятия и проявить себя в плане организаторских способносетей.Кубок и Чемпионат дополнили бы друг друга.Здоровая конкуренция организаторов пошла бы нам всем на пользу и я думаю смогла бы перерости в крепкую дружбу всех контестменов Украины...

Господа!
Я присутствовал на одной из конференций УКК, где его Президент всенародно заявил, что коллективные станции никогда не будут приниматься в Клуб. Это однозначно. Зачем же коллективки будут заявляться за UCC????? Уверен, что в UCC тоже есть над чем подумать и не очень-то раздувать полемику про КЛУБНЫЙ ЗАЧЁТ!??? Может судейство и стоит пересмотреть по реальным членам клубов, но волеизъявление народа куда деть?

То, что ты построил хорошее радио никто не отрицает, но парни на RK3AWL

важно другое, что ты помимо денег в него вкладываешь....

Здравствуйте, Валерий!
Мне, как среднестатистическому радиолюбителю, неприятен весь сыр-бор в рефлекторе на тему BSCC и клубного зачёта в ЧУ. Люди заявились за кого-то - это их дело. Дело судей провести статистику и опубликовать, а не выносить свои мнения до опубликования на "суд общественности". Не вижу и доброго отношения к своим друзьям по хобби (ведь нас объединяет это, а не разводит по разные стороны)? Пора прекращать подобную практику по "поискам незримого врага", - надо просто дружить в Радио! Любить Радио, а не себя в Радио!
Хочу повторить, что на протяжении многих лет говорю в рефлекторе и в жизни: "Не один Клуб не имеет право на законодательные фунции всего радиосообщества, даже если у него в названии есть слово Украина!" Не имет права ни один Клуб быть вершителем судеб народных масс. Важность клуба, как объединения граждам по интересам, не политическая игра за непонятную роль, а возможность реализовать себя в своих интересах. Вот такие принципы BSCC. Не бывает клубов "Нью Васюков", а усть прекрасное хобби и возможность самореализации.....Не стоит и забывать про девиз радиодвижения....

Здравствуйте, Alexander.
Саня! Если бы ты эти "апрельские тезисы" да
проводил в жизнь сам лично, то цены бы тебе
не было :))

А если обьявить премиальные ,скажем, за первое место 5000 у.е.
а за десятое 1000 у.е.и сделать открытым для всех ,то CQ WW DX
будет просто отдыхать.Жаль контролеров на всех не хватит:))) А
что будет творится когда придет время подведения итогов ???!!!

Вообще, Веня ,рад тебя слышать или видеть как тут правильно:))) Классно
работали в Чемпионате !!! Всем привет. 73!

Теперь понятно. Посмотрите Положение прошлого года-там только МИХ,
т.е. поменяли уже более года назад.
Доводы такие-мало украинских участников
При делении на 3 подгруппы получается порой по одному-два уч-ка в зачетной
категории. Как результат-отсутствует абсолютно эффект СОРЕВНОВАНИЯ!

Упреждаю вопрос о наградах, затратах...Никаких проблем, например с
дипломами для украинских станций. Спасибо спонсору он ошибся в нашу
пользу и вместо 1000 шт, напечатал 8000 шт . Книжки за прошлый год еще
не разобрали штук 20-30
В этом году будем распечатывать дипломы всем украинским участникам..,
вот бы помощника найти :))

И который гласит "...20 суток (заочные соревнования) с момента оглашения
результатов соревнований." РЕЗУЛЬТАТЫ ОГЛАШЕНЫ СЕГОДНЯ, 2 июля 2007 г.
До этого судейская коллегия публиковала (а могла и не публиковать!)
предварительные итоги, которые не содержали многих обязательных пунктов:
определение чемпионов, ВИП, зачет среди областей и клубов, зачет среди
женщин, снятие с зачета и т.д. и т.п. По этим пунктам тоже могут быть
протесты.
По всем протестам, даже поданным ранее, будут представлены
мотивированные ответы, хотя в принципе, по Положению, ГСК могла их
и не принимать до сегодняшнего опубликования Протокола.
В Протоколе отражается только факт подачи протеста и решение по нему (п.6.4).
Решение по сути протеста (мотивация) направляется его подателю (п.6.5).

> Остальные вопросы будут дальше, а их ой как много, вы себе не
> представляете даже...

Давать интервью ГСК в виде вопросов и ответов ни Положением, ни Правилами
не предусмотрено. Принимаются только протесты. Однако свои коментарии ГСК
намерена высказать, но только после утверждения протокола учредителями.

The 2007 DL-DX-RTTY contest runs this coming weekend.
Please study the CHANGED rules carefully! Classes A
through E are now RESTRICTED to the use of one radio
only, i.e. SO1R!
Single oprator stations wishing to operate SO2R (or even
use more radios) must enter the new class F.
Similar changes apply for multi-op stations.

За последние 2 года это не первый случай химии!
И что, хоть кого нибудь сняли с зачета?

выгодно!

Мы тоже против !
Когда мы заметили химию UT3HWW , то попытались в привате поговорить с
UZ7HO , на тот момент он был членом BSCC, что так делать нехорошо!
После этого разговора он вышел из BSCC))

И мы тоже !)

Тут уже не техническте вопросы , а целая проблема, ведь это не первый
год!
А представьте еслибы не дай бог на месте UT3HWW Были UU4JXM, то тут бы
был целый показательный процесс!
Где ваша принцыпиальность?
Все помнят как было с UT7IZD,UR4MZL, были показательные процессы или
позабыли, или они были в опозиции?, а если кто свои, то и можно покрывать.

Как развиваются темы, думаю Вам , Николай, следует почитать архивы
рефлектора более пристально, не передергивая тем что выгодно.

> То что коллектив UU4JXM выявил нарушителей (вынужденно - в связи с
> прямой угрозой своему бесспорному

> лидерству в ЧУ) это хорошо.

Ничего вынужденного не было, перед тем как написать протест (а он был
подан в судейскую коллегию после оглашения технических результатов от
17 мая 2007 года) было общение в привате с UZ7HO на предмет работы
UT3HWW в ЧУ SSB (Андрей тоже был членом клуба, но после ЧУ SSB
вышел, наверно неприяный разговор свое дело сделал, или еще что то,
неважно).
Я думал ребята заявятся chek-log(и это было бы правильно), раз
этого не случилось, то мы и подали протест в судейскую коллегию.

Николай, если Вы заметили, то никакой угрозы лидерству не было, ведь
мы могли и не писать протест, пусть отрыв и не очень велик но он
есть....А Вы не задумались почему мы протест написали?
Почему не писали претенденты у которых места пониже?

Ведь кроме голословных фактов нужно иметь доказательства.

> В прошедшем CW туре , UY5HF(тоже , как HWW в SSB - серебро взял..)
> работал двумя разными сигналами .

У вас есть факты на этот счет? Почему не предъявили в судейскую
коллегию ЧУ?

На форуме можно написать все что душа пожелает, это не есть материалом
судейских коллегий.

> Не смотря на то что об этом писалось в форуме вы , вероятно в знак
> поощрения , его в свой клубный зачет включили..

Включили, Анатолий член клуба, что не так???

> Как можно теперь предъявлять притензии к полтавским спортсменам ? Так что
> пока обижаться не на кого...

Николай, вы хоть иногда читайте Положения и Правила соревнований,
никаких обид. Нам не накого обижаться.

Если написали Правила, так давайте по ним и играть, а не вращать кому
как угодно.

Работа EM5HQ обеспечивается усилиями многих энтузиастов из разных регионов Украины от запада до востока (через юг и север).

Информация об начале подготовки к работе была опубликована в январе 2007 в этом рефлекторе.

За это время все желающие уже обратились с предложениями об организации и участии.

Всем большое спасибо - ни одна просьба об участии не была отвергнута.

Секрета нет, просто я полагаю, что устраивать в рефлекторе обсуждение наподобие того, что сейчас твориться в contestru, контрпродуктивно. Хотя и занятно :-) Мнений много, толку значительно меньше :-)

После чемпионата начнется работа по сведению и правке отчета. Краткую информацию я опубликую и здесь, только просьба не нервничать и не подгонять - быстро и сразу не получится.

А более подробно и с учетами всех нюансов - как технических, так и морально-нравственно-психологических - по-видимому стоит ожидать на конференции ЛРУ в декабре, поскольку вся работа EM5HQ осуществляется по решению и под эгидой ЛРУ. Хотя, конечно, конструктивная критика (хочется надеяться) приветствуется и в рефлекторе - для того он и создан.

А пока просто хочу всех попросить активно поработать в чемпионате IARU, сагитировать знакомых и друзей. Зовите EM5HQ везде, где услышите, зовите и работайте со всеми друзьями-соперниками и удачи нам всем!

Карточки будут отпечатаны и разосланы после теста по логу, на это есть отдельная графа в бюджете ЛРУ.

Напоследок - если кто-то хочет еще чего-то срочно предложить, самый оперативный способ связи - звоните мне на мобилку: 8-050-5522551

Прохождение было не ахти. Вот нам (UW5Y) все время слали SMS из Германии о связи на 1296 Мгц. Мы слышали 559, но часовое упирание привело к тому, что связь так и не состоялась. Понятно, что можно было сфальцифицировать связь. А оно нужно? Ведь работаем для удовольствия.

Ого сколько вас было!
На UW5Y было трое. Два рабочих места в одной палатке. Одно место 144 МГц, второе 432 и 1296 МГц.

Где есть электричество там быть интернету
Вообразите мир, где скоростной Доступ в Интернет может быть получен, просто включая Ваш компьютер в розетку, оборудованную модемом...

Вообразили?

Воображение больше не требуется. Инновационное решение, Powerline MU от Моторолы передача данных по Линиям питания является действительностью. Эта технология позволяет провайдерам, владельцам офисов преобразовать внутреннюю электрическую систему здания в сильную систему коммуникаций.

Ой... :-)

Здравствуйте.

Размышления после Чемпионата Украины телефоном 2007 года.

Как судья чемпионата, осуществлял мониторинг работы участников с
записью на магнитофон. Для записи использовалась программа MixW2
с применением формата mp3. Четыре часа непрерывной записи заняли
всего 29 Мб при отличном качестве. Предлагаю вашему вниманию некоторые
интересные моменты.

Эпизод первый.
В ходе соревнований обратил внимание на работу оператора UU4JXM.
Пропускались порядковые номера при практическом отсутствии пауз для
работы оператора со второго рабочего места, которого я, естественно,
не слышал. В паузах, за 2-3 секунды связь не проведешь. Создалось
впечатление одновременной работы с двух разнесенных передатчиков.
Повторное неоднократное прослушивание это впечатление усилило.
И можно было бы "махнуть саблей", но насторожило одно обстоятельство.
Почему оператор ну о-очень быстро и по несколько раз переспрашивает "Номер?"
в то время, когда его корреспондента слышно без всяких проблем? Появилось
желание разобраться. Тем более, что в рефлекторе прозвучала информация
от UU4JXM о имеющейся записи их работы с обоих рабочих мест
на разные(!) каналы . Воспользовался правом судьи и запросил необходимые
по времени фрагменты. Они были сразу предоставлены.
Два вечера кропотливо расладывал и синхронизировал посекундно (!) свою
запись и оба канала предоставленой. И пришлось саблю вложить в ножны!
Одновременной работы двух передатчиков зафиксировать не удалось. Оператор
быстро переспрашивал "Номер?", поскольку при первом приеме номера, работало
на передачу второе место UU4JXM. На мой взгляд, операторы в некоторой
мере даже мешали друг другу.
(Много лет назад у нас было три рабочих места. Но блокировалось так,
что пока оператор не закончил связь, два других могли только принимать.
По две педали, блок коммутации и красная лампа на каждом трансивере
"Связь проводится!" Погасла - вперед, кто быстрей при наличии
корреспондента нажмет педаль блокировки.) :-)
Положение не требует от участников производить запись своей работы.
Но и не возбраняется. И не будь собственной записи UU4JXM, команду можно
было снимать с зачета на основании записи судьи.

Эпизод второй.
По протесту UU4JXM по поводу работы UT3HWW двумя передатчиками одновременно.
Сразу скажу, что протест был отклонен, поскольку судейская коллегия
не имеет право использовать для судейства записи, произведенные не
членами судейской коллегии. Это, во-первых. А во-вторых, нет ответа на
весьма интересный вопрос. А с какой такой радости оператор UU4JXM не
работает в эфире в пользу своей станции, а записывает на протяжении до

десяти минут работу UT3HWW? Ну чем вам не записи майора Мельниченко!? :-)
Но запись была предоставлена и просто для себя хотелось узнать правду.
Опять потерянный вечер и опять кропотливая посекундная раскладка.
Сначала прослушал работу UT3HWW на своей личной. Видимо, во время мониторинга
ничего подозрительного я не заметил, а потому запись заняла около минуты,
как в первом туре, так и во втором.
Но зато на предоставленной UU4JXM записи явно просматривалась одновременная
работа двумя разнесенными передатчиками. Иначе как расценить, если оператор дал
контрольный номер и, закончив данную связь, далее стал беспрерывно работать
на CQ с паузами на прием НЕ БОЛЕЕ 2-3 секунды. И через полторы минуты, наконец
вызвавшей его станции дает номер на три больше предыдущего? Записано очень четко.
Прокручивая неоднократно, старался найти зацепку в пользу UT3HWW. Но, увы!
Был бы этот момент зафиксирован на моей записи - UT3HWW пришлось бы снять
с зачета. Но запись, к сожалению, не судьи. В приват сообщили, что там
действительно использовались два далеко разнесенных рабочих места с модемной
связью между ними. Если так, то это очень достойно правнуков Дмитрия Менделеева!

Эпизод третий.
Мое личное мнение относительно протеста Винницкого ОО ЛРУ по поводу работы
UR5NBC.

Окончание последует завтра.

16118. IARU HF Championship

Yahoo group: URcontest (2006 — 2007)

From: uy5zz@mail.ru

Здравствуйте, .

IARU HF Championship
Соревнования проводятся организацией
IARU
США
Начало: 14 июля 2007 г. в 12:00 UTC
Завершение: 15 июля 2007 г. в 12:00 UTC
Чемпионат мира по радиосвязи на КВ проводится Американской Радиоюбительской Лигой (ARRL) от имени Международного Радиолюбительского Союза (IARU).
Целью соревнований является проведение как можно большего числа радиосвязей с радиолюбителями всего мира, а особенно с радиостанциями штаб-квартир национальных радиолюбительских организаций - членов IARU (в дальнейшем HQ-станции).
Соревнования проводятся во второй выходной июля с 12:00 UTC субботы до 12:00 UTC воскресенья. Участники, независимо от количества операторов на станции, могут использовать для работы весь 24-часовой период.
Виды модуляции: CW, SSB
Диапазоны: 160 м, 80 м, 40 м, 20 м, 15 м, 10 м
.:: КЛАССЫ ::.
1. Один оператор.
Категории, в каждой отдельный зачет (по мощности) - High, Low и QRP:
- только SSB;
- только CW;
- Mixed mode.
Участник самостоятельно выполняет все действия по работе на радиостанции и ведению журнала. Использование пакета и сетей оповещения не разрешено. Должны соблюдаться правила, регламентирующие работу радиолюбительской станции в своей стране. Разрешено иметь единственный излучаемый сигнал в любой момент времени.
2. Много операторов, один передатчик, Mixed Mode.
Станция не должна менять диапазон (и вид работы) ранее, чем через 10 минут после начала работы на этом диапазоне (или этим видом работы). Разрешено иметь единственный излучаемый сигнал в любой момент времени. Не допускаетсся использовать второй передатчик для "подбора множителя". Все операторы должны соблюдать правила, регламентирующие работу радиолюбительской станции в их стране. При нарушении правила смены диапазонов отчет станции будет реклассифицироваться в Check_Log.
3. HQ-станции.
Радиостанциям штаб-квартир национальных организаций - членов IARU разрешено иметь на каждом диапазоне один излучаемый сигнал для каждого из видов работы (например: 160-CW, 160-SSB, 80-CW, 80-SSB и т.д.) в любой момент времени. Все станции, привлеченные к работе за штаб-квартиру (если их несколько), должны быть расположены в одной зоне ITU. Все операторы должны соблюдать правила, регламентирующие работу радиолюбительской станции в их стране.
.:: КОНТРОЛЬНЫЕ НОМЕРА ::.
HQ-станции передают RS(T) и официальную аббревиатуру своей национальной организации - члена IARU. Радиостанция международного секретариата IARU (позывной NU1AW) приравнивается

к радиостанции штаб-квартиры общества члена IARU. Члены Административного Совета IARU и трех Региональных Исполнительных Комитетов IARU передают в качестве аббревиатуры соответственно AC, R1, R2, R3. Остальные участники передают RS(T) и номер зоны ITU. Чтоб QSO было засчитано, в отчете должны быть указаны полные контрольные номера.
С любым участником можно провести по одной связи на каждом диапазоне разными видами работы. Засчитываются только радиосвязи, проведенные в участках диапазонов соответственно используемому виду работы. На любом диапазоне с каждой станцией можно сработать телефоном (в телефонном сегменте диапазона) и телеграфом (в телеграфном сегменте). Cross-mode, cross-band QSO, а также связи через репитеры не засчитываются. Участники должны соблюдать региональный частотный план и придерживаться выделенных для соревнований участков диапазонов.
Использование не-радиолюбительских средств связи (например: телефон или Интернет), а также применение технологий self-spotting или пакетной связи для облегчения проведения QSO противоречит духу и правилам этих соревнований.
.:: ОЧКИ ::.
За радиосвязи внутри своей зоны ITU, а также радиосвязи с HQ-станциями начисляется по одному очку. За связи с другой зоной ITU на своем континенте начисляется 3 очка. За связи с другой зоной ITU на другом континенте начисляется 5 очков.
.:: МНОЖИТЕЛЬ ::.
Множителем является общее количество зон ITU и HQ-станций на каждом диапазоне (независимо от видов работы). За официальные радиостанции IARU максимально может быть получено 4 множителя на диапазоне (AC, R1, R2 и R3).
Примечание:
- станции штаб-квартир и официальные станции IARU за ITU-зону множитель не дают;
- станции Административного Совета IARU и трех Региональных Исполнительных Комитетов IARU будут засчитываться как специальный множитель только при работе под своей индивидуальной лицензией в классе "один оператор".
.:: ПОДСЧЕТ РЕЗУЛЬТАТА ::.
Итоговый результат определятся произведением суммы очков на общий множитель.
.:: НАГРАДЫ ::.
Сертификатами будут награждены победители в своих зачетных категориях в каждой из стран DXCC и зон ITU, а также победитель среди HQ-станций. Все участники, кто провел в соревнованиях более 250 QSO либо набрал более 75 множителей, получит сертификат.
Дополнительные награды могут быть учреждены по усмотрению каждой национальной организации - члена IARU.
.:: ОТЧЕТЫ ::.
Отчеты за соревнования должны быть отправлены не позднее 30 дней после его окончания по адресу: IARU HF Championship, IARU International Secretariat, Box 310905, Newington, CT 06111-0905 USA. E-mail: IARUHF@... . Если отчет не поступит до середины октября (даже если отправлен вовремя), он не будет учтен в официальной таблице.
Электронные отчеты должны быть в формате CABRILLO. Любые отчеты, подготовленные с использованием компьютера, должны быть представлены в виде файлов, отправленных по e-mail либо на дискетах. В именах файлов - позывной участника. При отправке по e-mail позывной указывается в теме (строка Subj) сообщения.
Можно отправить отчет, заполнив форму на сайте: http://www.b4h.net/cabforms
Бумажные отчеты должны быть составлены в хронологическом порядке связей без разделения по диапазонам и видам работы. Каждая запись должна содержать диапазон, вид работы дату, время UTC, позывной корреспондента, полные переданный и принятый контрольные номера, множитель и очки за связь. Множители в бумажном логе должны быть отмечены впервые сработанные на каждом диапазоне. Бумажные отчеты, содержащие более 500 связей, должны содержать список для проверки повторов (dupe sheet - список позывных в алфавитном порядке с разбивкой по

диапазонам и видам работы). К отчету должен быть приложен обобщающий лист официальной формы.
.:: АДРЕС ДЛЯ ОТПРАВКИ ОТЧЕТА ::.

Ну, я тоже "молодой" - спал 5 часов подряд :-)

Работал: 17 часов 40 минут.
Количество связей с HQ станциями и по зонам - ниже. Патриотизм "крепчает" - на 80-ке телефоном у итальянцев было 2 разных станции, передававших ARI (если я, конечно, не ошибся). Поскольку на результат я уже не работаю, связи со штаб-квартирами в основном показывают их (и в меньшей степени мою) активность, в данном случае их подбор корров. EM5HQ я, впрочем, все же пытался поискать, чтобы дать очки. Но получилось только 6 раз.
Что касается зон, любопытно, что 28-я (пушечное мясо, как говаривал когда-то молодой Гордиенко) составила 50%, а антенны на Европу у меня-то и нет. И беверидж сгорел в степных пожарах. Надо думать как исправлять положение. По крайней мере, на прием.
А вообще тест динамичный, веселый как всегда, когда Европа активна. Жаль, янки его не любят. Надо бы подправить положение, чтобы им было интересно, наверное.

Спсибо, Казимир,

Да, это был именно IO8HQ, работавший в районе 3795. Я отношусь к тем, кто уже не понимает, зачем нужны эти HQ-станции с сотней передатчиков по всей стране (а некоторые страны огромные, ну ОК в пределах зоны --- хоть какое-то правило) и с 2000+ корров на 160 метров? Это все еще спорт? Или уже "патриотизм"? Ввели бы ограничения. Или идея самовыродилась? В этом случае было бы жаль. Помню в 70-е этот тест начинался под эгидой ITU и, хотя HQ еще не появились, был уже заметным. Со временем для меня он занял 3 место в рейтинге контестов после, понятно, WW и WPX (в ARRL я мало работал - не хотелось обвинений в "русских 200 ватах", хотя и работал большей частью на 3 полтинника или 74-ю).

With all this huge HQ activity, especially from Europe, multipliers hunting is not so important anymore. It's more like WPX Contest now - the more contacts you make, the higher is your multiplier total. For instance, on 80m CW I heard (loud!) a bunch of multipliers that I simply couldn't work - like EM5HQ, LZ7HQ and so on. They just keep on answering their EU neighbours and completely ignore weak DX signals...
And yes, you are right about SO2R advantage for Single Ops.

Здравствуйте, .

Внимание! Приятные НОВОСТИ , особенно для тех кто только начинает
увлекаться IOTA.

Коллеги,

с этого года связи, проведенные и подтвержденные во время IOTA
contest, будут засчитываться на дипломы Программы IOTA бесплатно...

Для этого будет необходимо "слить" свои электронные ЛОГи на сайте IOTA
HQ - http://www.rsgbiota.org

Процедура загрузки файлов пока не обнародована, но это будет сделано
на днях, поэтому желающие подключиться к Программе, не заморачиваясь
на отчеты и директы могут поактивничать в контесте...

Условия контеста читайте на qrz.ru - http://www.qrz.ru/contest/detail/29.html
а для любителей оригинальных текстов, здесь -

Здравствуйте, .

Увы, прохождение не порадовало участников контеста...
Думаю со мной многие согласятся, да и первые отзывы
в контест рефлекторах об этом свидетельствуют.
NA SA OC проходили непродолжительное время и ожидания
пополнить свой лог нью ванами (а именно от туда остается ожидать,
EU cfm 98%)
не увенчались успехом как я не пытался ночью не проспать NA и SA :))
Европа была активна и месилась между собой, особенно удачными были
IT9,IC9,IS0,5B,TA... У них прохождение было продолжительное время на
21 и 28
New one для меня был только C4MG-as120, да и тот был сработан перед
контестом as 5B4MG.
Украинцы наконец распробовали что такое IOTA и косяками выехали на
наши три острова. Слышал и с некоторыми сработал- EM5F,UU7J/P, UW0G,
UX2IQ/P,UR5FEO/P...И если учесть, что за каждым позывным по несколько
радистов, то наверное большая часть украинских участников контеста
были на островах!
Жаль, что накануне теста украинский ЧЕК поинт IOTA, да и украинский
сайт IOTA не слова не сказали перспективным участникам контеста 2007
об изменениях в плане электронного контроля и обновления своих
достижений по этой интересной программе.

Hello, !

Обращаю Ваше внимание на эту выдержку из положения:

Национальное соревнование.

Будет опубликован отдельный список стран
с указанием национальных результатов (суммы результатов всех
участников из одной страны DXCC, принадлежность к клубам роли не
играет).

European HF Championship
Страна: Словения
Учредитель: Slovenia Contest Club
Страница в Интернет: http://lea.hamradio.si/~scc/

Начало:04 августа 2007 г. в 12:00 UTC
Завершение:04 августа 2007 г. в 24:00 UTC
Ежегодно в первую субботу августа.
Виды модуляции:CW, SSB
Диапазоны:160 м, 80 м, 40 м, 20 м, 15 м, 10 м

КЛАССЫ
Только один оператор, все диапазоны.
Подгруппы:
I. CW/SSB -high power (выходная мощность до 1500Вт.);
II. CW/SBB -low power (до 100 Вт);
III. CW-high power;
IV. CW-low power;
V. SSB-high power;
VI. SSB-low power.

Разрешается излучать единственный сигнал в любой момент времени.
Проведение CW-связей в SSB-участках диапазонов и проведение
SSB-связей в CW-участках диапазонов не разрешается. Не разрешается
работа в DX-участках диапазонов. Только одно лицо выполняет все
действия по проведению связей и ведению аппаратного журнала. Одна
любительская радиостанция должна использовать единственный позывной
сигнал в зачетное время. Использование DX-кластера, сетей и любых
других средств оповещения не разрешается.
Станция может менять рабочий диапазон не чаще 10 раз за один полный
календарный час (например с 11:00 до 11:59). В категории CW/SSB
(смешанной) допускается максимум 10 изменений диапазона и вида
работы за час (например: 5 переходов с диапазона на диапазон и 5 раз
изменение вида работа, при этом одновременная смена и диапазона и
вида работы считается как одно изменение). QSO, проведенные после
10-го перхода, будут удалены из отчета.

КОНТРОЛЬНЫЕ НОМЕРА
Передается RS(T) и двухзначный номер, соответствующий последним цифрам года, в котором участник впервые получил официальную радиолюбительскую лицензию. Например, 599 82 или 59 82 означает, что оператор впервые получил лицензию 1982 году. Участники, работающие с клубных станций, а также гость-операторы (работающие со станций других любителей), передают две цифры, обозначающие год получения их первой собственной лицензии.
Общий вызов в соревнованиях: "CQ EU" телеграфом и "CQ EUROPE" телефоном.

ОЧКИ
За радиосвязь начисляется 1 очко. С каждой станцией на диапазоне можно провести по одной связи телефоном и телеграфом.

МНОЖИТЕЛЬ
Начисляется за каждую новую пару цифр в принятом контрольном номере, один раз для каждого диапазона, вне зависимости от вида работы.

ПОДСЧЕТ РЕЗУЛЬТАТА
Произведение суммы очков на сумму множителей.

НАГРАДЫ
Чемпионы Европы (победители в своих подгруппах) будут награждены плакетами (см. примечание по оформлению отчетов). Судейская коллегия оставляет за собой право наградить дипломами определенное количество участников во всех категориях.
Национальное соревнование. Будет опубликован отдельный список стран с указанием национальных результатов (суммы результатов всех участников из одной страны DXCC, принадлежность к клубам роли не играет).

ОТЧЕТЫ
Отчеты должны содержать следующие данные о радиосвязях: диапазон, вид работы, время UTC, позывной, переданный и принятый контрольные номера. Отчет составляется в хронологическом порядке, без разбивки по диапазонам и видам работы. Рекомендуется указывать точную рабочую частоту в колонке "диапазон". ТОЛЬКО УЧАСТНИКИ, УКАЗАВШИЕ В ОТЧЕТАХ ТОЧНУЮ ЧАСТОТУ, МОГУТ ПРЕТЕНДОВАТЬ НА ПЛАКЕТЫ. Всех, кто использовал компьютер для подготовки отчета, или установившие более 200 QSO, должные представить отчет в виде компьютерного файла.
Предпочтительный формат - CABRILLO, однако может быть и любой текстовый ASCII формат (в этом случае посылается два файла: callsign.sum и callsign.log).
В случае отправки бумажного отчета обязателен обобщающий лист, содержащий все необходимые данные для вычисления результата, описание использованной радиостанции, выходную мощность, имя и адрес оператора, год выдачи первой лицензии (все заглавными печатными буквами), а также подписанную декларацию о соблюдении правил соревнования.
Настоятельно рекомендуется отправлять отчеты по e-mail!

АДРЕС ДЛЯ ОТПРАВКИ ОТЧЕТА
Slovenia Contest Club,
Saveljska 50, 1000 Ljubljana, SLOVENIA
На конверте укажите "EU HF CHAMPIONSHIP" и свою зачетную группу.
E-mail: euhfc@...
Домашняя страница:http://lea.hamradio.si/~scc/

СРОК ОТПРАВКИ ОТЧЕТА
31 августа 2007 г. (по штемпелю)

РАЗРЕШЕННЫЕ КОРРЕСПОНДЕНТЫ
Участвуют только радиолюбители стран Европы.

УСЛОВИЯ ДИСКВАЛИФИКАЦИИ
Нарушение правил соревнования, неспортивное поведение, высокий процент непроверямых QSO, могут быть достаточным условием для дисквалификации участника. Дисквалифицированный участник не может быть допущен к зачету в EU-HF в следующем году.
Неотмеченные повторные связи, неправильные позывные или контрольные номера, а также связи, которые отсутствуют в отчетах корреспондентов, аннулируются и дополнительно штрафуются снятием 1 очка (за QSO) за каждую такую ошибку. Если количество таких связей превысит 10%, участник снимается с зачета. Другие причины, такие как непредоставление компьютерных файлов либо неполная требуемая от участника информация, также могут привести к снятию с зачета.

Здравствуйте,

В продолжение сообщения от UX1IL привожу маленькую статистику участия

Что делать?
Этот список повторяется ежегодно. Люди едут в поле, горы. А написать отчет - лень. От имени любителей нашего хобби, могу сказать только свое ФУ! Думаю, в дальнейшем им будет проблематично дозваться:-)

Конечно, возможно и не все так плохо.
Просто идея. Если-бы УКВ комитет проанализировал официальные итоги нескольких последних лет в рубрике не присланные отчеты, а затем поместить полученый перечень на доску почета.
Пусть страна знает своих героев.

Здравствуйте, URcontest@yahoogroups.com.

Здравствуйте, Николай.

Дело в том, что причин может быть много:
-пленку не проявили, проявитель в Керчи закончился...
-пленку пограничники забрали...
-процессор цифрового фото дал сбой от обилия морской воды и солнца...
и т.д.
Но, действительно, хотелось бы все это услышать от УЧАСТНИКОВ :))

Hello, URcontest!
Похоже даже на Европу прохода не было.
Порадовала 10-ка и 160 (жаль поздно перешел),
на 80 очень проблематично выло работать из за local QRM
(центр города, блинн!), 15-20-40 - хрен кого дозовешся!
Приходилось много работать на CQ, так как из за ловповеристов
и ту радистов дозываться ста ваттами было проблематично.
Вот что получилось у меня в LP CW не напрягаясь с одним
перекуром на ужин.

Здравствуйте, urcontest.

Отработал в EUHFC в общей сложности около 10 часов. Никаких задач в
спортивном плане перед собой не ставил. Задача была чисто техническая -
обкатать в Windows XP программу TR4W с использованием параллельно MixW2
для записи всего контеста в формате mp3. Все получилось нормально.
TKS авторам Дмитрию UA4WLI и Николаю UT2UZ. Кстати, оба работали в контесте.
Конечно, дозваться 100 ваттами до отдельныхе станций было весьма
проблематично. На 10 м минут 5 звал UU7J (589), но увы, феномен
одностороннего прохождения... ;-)
Поневоле вспомнишь, что жизнь коротка не только для QRP, но и LP. ;-))
Удивило обилие LY станций. Программа SH5 показала, что у меня в логе
их больше, чем наших UR.
Спасибо всем, кто ответил.

Я - один из трех. Николай Михайлович, я даже хотел Вас попросить перенести эту активность в режим личной переписки? Зачем проверять, кто как к этому относится? Кто ЗА и кто ПРОТИВ. Это уж точно вопросы не контестинга, а морально-этических категорий. На мой взгляд, речь идет о вещах личных, почти интимных - громыхание с трибуны выглядит... "немного" лицемерно. Сделайте свое поздравление искренним, чтоб никто непосвященный не прочел, это, возможно, высоко оценят. А выстреливать дежурным залпом можно поручить и компьютеру (иногда мне кажется, что это и есть Ваша технология) - справится блестяще.

Здравствуйте, .

С прискорбием сообщаю 30 июля в США от лейкемии умер Сережа Сушко

Сергей был активным контестменом, входил в сборную Украины по
радиосвязи на КВ во времена СССР. Нам он запомнился и как конструктор
антенн, он первый на территории СССР построил KLM system ant
и эффектно на них работал!
Уже будучи в США Сергей все последние IOTA контесты представлял NA 111

В этом году не получил подряд 3 письма из США, правда не с QSL, а с мелкосхемами, но к хамскому радио отношение имеет однозначно. Для чистоты эксперимента послал сам себе внутри Одессы с одного почтового отделения на другое конверт с вложением из дохлых мелкосхем. Конверт доехал, но вскрытый и заклееный скотчем. Написал официальную бумагу начальнику почтамта и в дирекцию "Укрпочты". С почтамта ответа не получил, зато мои почтальоны на меня обиделись, т.к. им втык сделали. От "Укрпочты" получил отписку типа "простые письма найти не представляется возможным". На мой вопрос, что "Укрпочта" не выполняет закон Украины и взятые при продаже мне официальной почтовой марки на себя обязательства по доставке корреспонденции -- гордое молчание. На очереди Международный почтовый союз, ибо затрахало, но руки еще не дошли. Так что, если кто-то соберется писать, моя подпись с описанием ситуации и посильная поддержка гарантируются.

Первое место по Украине есть. Осталось сработать за два года
в 20-ти контестах и можно вступать в UCC.

Здравствуйте.

"Как всегда работал исключительно ради удовольствия". (с) RA9UN ;-)

Я тоже, но не совсем. Временем не располагал, поэтому на этот раз
хотелось проверить новую версию v.2.15 TR4W в обстановке, максимально
приближенной к боевой, поддержать приличный контест своим скромным
присутствием, провести связей 150 и набрать сотню районов для
получения диплома. В прошлые годы это удавалось, распечатку получал,
но вечно что-то мешало. Видимо, то, что рождается раньше нас. :-)))
Работать решил CW LP 100 Ватт. Станций было довольно много, и это
обнадёживало. Но не тут-то было! Пробиться можно было где-то после
пятого захода. Некоторые не отвечали совсем, тупо продолжая
цекулять... И когда после первого часа в логе было всего 26 QSO,
подумалось, что жизнь слишком коротка не только для QRP, но и LP. ;-)
И сколько той жизни осталось в 64 года? :-)))
Пришлось подключить в бой 74-й калибр. И сразу стало веселее!
Контест увлек, появился известный всем контестовый зуд и планка стала
подниматься выше - провести 200 связей, 250, взять 150 районов и т.д. :-)))

Мой скромный результат:

BAND Raw QSOs Valid QSOs Points Mults

80CW 19 19 190 9
40CW 93 93 930 53
20CW 138 138 1380 107
15CW 13 13 130 4

Totals 263 263 2630 173

Final Score = 454990 points.

На десятке было совсем глухо. На 80 метрах уровень помех у меня был
настолько большой, что я не стал испытывать терпение корреспондентов
переспросами номера. На пятнашке взял, кого слышал. Негусто было...
Запомнились весьма приличные сигналы на 40 и 20 метрах UA0FAI и UA0YAY.
И удивительно Очень сильный для ближней зоны сигнал UW8SM на 20 метрах.
Правда, щелчки занимали полосу килогерц 10, но это уже детали... ;-)
А еще раз пять приставали на 20-ке RK4LWZ. Надо, наверное, в таких
случаях вместо b4 передавать что-то более понятное. :-)))
Домогались и несколько европейцев, наивно считая UR российским префиксом.
Я лично и не возражал бы, но пришлось посоветовать им подождать до URDXC
в начале ноября. :-)
Программа TR4W под Windows отработала нормально. Могу смело рекомендовать

её тем, кто предпочитает работать в стиле N6TR, применяя TRlog в DOS'e.

The Oceania DX Contest Committee is pleased to advise that the full results
of the 2006 OCDX Contest are now available on-line at
http://www.oceaniadxcontest.com/index.html . The on-line results include
soapbox comments, details of equipment and antenna used by entrants, and
some photos of the leading entrants.

There was a significant increase in activity for the 2006 contest, despite
the poor conditions at the bottom of the sunspot cycle. The total number of
logs processed was 708, 13% more than in previous years. In particular, the
number of logs from Oceania increased from 92 to 145, thanks to a huge
promotional effort from the VK Contest Club and other members of the VK
contesting community. Another likely factor contributing to the increased
participation was the sponsorship of new plaques for the top club in
Australia, and leading stations from Europe and North America in the
Single-Op All Band category.

Congratulations to all the winners in the 2006 contest. Of special note is
the outstanding performance of John Loftus VK4EMM who is the clear leader in
both the PHONE and CW sections of the Oceania Single-Op All Band category.
John is a long-time supporter of the contest and it is good to see him back
in fine form.

Also of note is the performance of ER4DX who produced the highest score
outside Oceania in the PHONE Single-Op All Band category. This is a
significant achievement for a European station, considering that the path to
Europe from Oceania is longer and generally more difficult than the shorter
paths to Asia or North America.

The Committee regrets the late announcement of the 2006 results. The delay
was mainly due to additional unplanned work required to address some

teething problems related to the new email robot. The good news is that the
root cause of the problem has been resolved, so we are anticipating a much
smoother process for the 2007 contest.

Note that the 2007 Oceania DX contest will be held on the first two full
weekends of October 2007 as follows:

PHONE: 0800 UTC Saturday 6 October to 0800 UTC Sunday 7 October
CW: 0800 UTC Saturday 13 October to 0800 UTC Sunday 14 October

More information about the contest, including the official rules for the
2007 event, is available from the Oceania DX Contest web site at
www.oceaniadxcontest.com .

Finally and most importantly, thank you to everyone who participated in the
2006 contest and made it such a success. We look forward to seeing you all
again, along with new entrants, in the 2007 event.

Здравствуйте, .

Соседи приглашают поработать в тесте -

YO DX HF Contest
The International Short Wave Championship of Romania

The Romanian Amateur Radio Federation (FRR) has the honour to
invite the radio amateurs all over the world to participate in the
International Short Wave Championship of Romania (YO DX HF Contest)
which is held on the last weekend of August every year.

I. Objective:
The objective of the contest is to establish as many contacts
as possible between radio amateurs around the world and radio
amateurs in Romania.

II. Contest period:

Last weekend of August, 24 hours.

2007: Saturday Aug 25, 1200 UTC - Sunday Aug 26, 1200 UTC

III. Bands and modes:
80, 40, 20, 15, 10 m, according to IARU band plan for each
country, CW and Phone.

Contacts on the segments of band reserved for DX traffic are not
allowed.

IV. Categories for the stations outside Romania:

• Cat. A - single operator single band
(SOSB10, SOSB15, SOSB20, SOSB40, SOSB80)
• Cat. B - single operator multi band
(SOMB)
• Cat. C - multi operator multi band (no more than two operators)
(MOMB)

V. Contest call:
CQ TEST YO (CW) or CQ CONTEST YO (phone).

VI. Exchange:
YO stations send: RS(T) + Romanian county abbreviation
(two letter code).

Non-YO stations send: RS(T) + serial number (starting with 001).

VII. Score:

• QSO with a YO station - 8 p.
• QSO with a non-YO station outside own continent - 4 p.
• QSO with a non-YO station inside own continent - 2 p.
• QSO with a station inside own country - 1 p.

VIII. Multiplier:
Per band, each different DXCC country plus each different
YO county (no matter the mode).

YO does not count as DXCC country multiplier.

The 42 Romanian counties (by call-area) are:

YO2: AR - CS - HD - TM 4
YO3: BU - IF 2
YO4: BR - CT - GL - TL - VN 5
YO5: AB - BH - BN - CJ - MM - SJ - SM 7
YO6: BV - CV - HR - MS - SB 5
YO7: AG - DJ - GJ - MH - OT - VL 6
YO8: BC - BT - IS - NT - SV - VS 6
YO9: BZ - CL - DB - GR - IL - PH - TR 7

Maximum counties: 42

IX. Final score:
The final score is the result of the total QSO points multiplied
by the sum of multipliers.

X. Special rules:
The following special rules apply:

• Only one transmitter is allowed at one time
(one signal on the band).

• The minimum time to call CQ on a band is 10 minutes.
A quick band change in order to work new multiplier is
allowed - it is OK to work one station and return to the main
band.

• Only one QSO is allowed with the same station on the same
band (no matter traffic mode), i.e max. 5 QSOs with the same
station in the contest.

• Cross mode QSOs are not allowed.

• Only terrestrial contacts are valid.

• When band or mode changes, serial number sent is progressive.

• The use of DX spotting nets is allowed in all categories and
encouraged.

XI. Penalties:
Penalties apply for QSO errors (broken calls, bad exchanges) and QSOs which do not appear in correspondents log. Two times the QSO points for such QSOs will be deducted. 10% or more bad contacts or violation of contest rules shall result in dropping the participant from the classification.

XII. Disqualification:
Violation of contest rules, unsportsmanlike conduct or taking credit for excessive unverifiable QSOs will be deemed sufficient cause for disqualification.

All decisions of the contest committee are final.

XIII. Log instructions:
Electronic log submission via e-mail is highly recommended. Cabrillo logs are recommended but a plain-text ASCII log, in chronological order, could be also accepted. In this case a plain-text ASCII summary sheet must be included.

The e-mail containing the log will be automatically acknowledged by the server and entrants will be informed about process of log-checking.

The paper logs must be written for each band and should contain the following data:

Date - Time UTC - Call - RST Tx - Code Tx - RST Rx - Code Rx - Multiplier - Points

Separate files for each band.

A summary sheet including used callsign, category, all relevant data needed to calculate final score, description of equipment, power output, full name and address in block capitals and signed statement that all contest rules and regulations for amateur radio in the country of operation have been observed must accompany each log.

If no category (A, B or C) was specified, the station will be entered automatically in C category.

All log entries must be postmarked no later than 30 days after the contest.

XIV. Mailing address:
All written logs should be mailed to the following address:

YO DX HF Contest
P O Box 22-50
RO-014780 BUCHAREST
ROMANIA

All electronic logs should be sent to the following
E-mail address:

yodx_contest@... (Click to send email)
or:
yodxhf@yahoo.com (Click to send email)

XV. Certificates:
Special certificates will be awarded to the top scorers in each
operating category in every participating country.

Plaques will be available respecting with our potential sponsors.

SCC RTTY Championship
Страна: Словения
Учредитель: Slovenia Contest Club
Страница в Интернет: http://lea.hamradio.si/~scc/

Начало:25 августа 2007 г. в 12:00 UTC
Завершение:26 августа 2007 г. в 11:59 UTC
Цель соревнований: проведение как можно большего числа радиосвязей с радиолюбителями всего мира на КВ-диапазонах, используя радиотелетайп RTTY.
Время проведения: ежегодно в последний полный выходной августа с 12:00 UTC субботы до 12:00 UTC воскресенья.
Виды модуляции:RTTY
Диапазоны:80 м, 40 м, 20 м, 15 м, 10 м

КЛАССЫ
1) один оператор, все диапазоны, высокая мощность (выходная мощность - до 1500 Вт);
2) один оператор, все диапазоны, низкая мощность (выходная мощность - до 100 Вт);
3) один оператор, все диапазоны, Assisted (Unlimited) (выходная мощность - до 1500 Вт);
4) много операторов, один передатчик, все диапазоны (выходная мощность - до 1500 Вт).
Во всех классах разрешено иметь единственный излучаемый сигнал в любой момент времени и использовать единственный позывной сигнал.
На радиостанции с одним оператором участник самостоятельно выполняет все функции по работе на станции и ведению журнала. В классах 1 и 2 использование DX-кластера, а также других видов сетей оповещения не разрешено. Диапазон можно изменять не чаще, чем десять раз в час (календарный, например 11:00 - 11:59 UTC). В классе "один оператор, Assisted (Unlimited)" разрешено пользоваться сетями оповещения, и отсутствует ограничение на смену диапазонов.
Радиостанции с несколькими операторами не должны изменять диапазон чаще, чем 10 раз в полный час.

КОНТРОЛЬНЫЕ НОМЕРА
Контрольные номера состоят из RST и четырехзначного номера, соответствующего году получения своей первой радиолюбительской лицензии (например, 599 1983). Для станций с несколькими операторами год должен соответствовать году выдачи лицензии на клубную станцию либо тому из операторов, кто ее получил первым.

ОЧКИ
За радиосвязь с собственной страной (по спискам DXCC/WAE) начисляется 1 очко.
За радиосвязь с другой страной на своем континенте начисляется 2 очка.
За радиосвязь между различными районами (call area) W, VE, VK, ZL, ZS, JA, PY, провинциями LU, а также областями азиатской части России UA9/UA0, начисляется 2 очка.
За радиосвязь со станцией на другом континенте начисляется 3 очка.

МНОЖИТЕЛЬ
Множителями являются на каждом диапазоне различные четырехзначные номера, принятые от корреспондентов.

ПОДСЧЕТ РЕЗУЛЬТАТА
Окончательный результат определяется произведением суммы очков на всех диапазонах на сумму множителей.

НАГРАДЫ
Плакетами будут награждены победители в каждом из четырех классов. Контест-комитет, по своему усмотрению, может наградить сертификатами определенное количество лучших участников в каждом классе.
Будет опубликован отдельный список национальных результатов (сумма очков, набранных всеми участниками от каждой страны, назависимо от клубной принадлежности).

ОТЧЕТЫ
Отчеты за соревнования должны содержать следующую информацию: частоту (диапазон), вид работы, дату и время UTC, переданные и принятые позывные и контрольные номера. Отчеты составляются в хронологическом порядке. Настоятельно рекомендуется указывать ТОЧНУЮ рабочую частоту для каждого QSO. Только участники, указавшие точную частоту, смогут претендовать на награждение плакетами.
Предпочтительный формат - CABRILLO, если такой возможности нет, то допустимо представить отчет в тестовом ASCII формате.
Контест-комитет принимает только электронные отчеты (по e-mail или на дискете). В имени фала необходимо указать свой позывной (Callsign.LOG).

АДРЕС ДЛЯ ОТПРАВКИ ОТЧЕТА
Slovenia Contest Club, Saveljska 50, 1113 Ljubljana, SLOVENIA.
E-mail: rtty@...
Домашняя страница:http://lea.hamradio.si/~scc/

СРОК ОТПРАВКИ ОТЧЕТА
14 сентября 2007 г. (по штемпелю)

УСЛОВИЯ ДИСКВАЛИФИКАЦИИ
Очки снимаются за неполные и неправильные позывные, контрольные номера, а также за QSO, отсутствующие в отчетах корреспондентов. Если количество таких связей превышает 10%, а также при нарушении правил соревнований, участник снимается с зачета. Другие причины, например непредоставление электронного отчета, также ведут к снятию

с зачета.
Неспортивное поведение, нарушение правил соревнований или,
чрезмерное количество непроверяемых QSO могут являться достаточным
условием для дисквалификации. Дисквалифицированный оператор не будет
допущен к классификации SCC RTTY Championship и в следующем году.
Все решения контест-комитета являются окончательными.

???????? ??????? ??? ???? ??? ????? Morse Runner ? ?????????? N1MM.

I wrote a script that connects N1MM to the Morse Runner contest simulator so you can log the calls in N1MM. I have updated my script so that the call does not repeat. From tons of feedback that I got (well, three people) the number one request was to stop repeating the call at the end of a QSO before the QRZ. The number two request was for a SO2R simulation which is beyond my skills I'm afraid. If you would like to give this a try, download the new script from (http://ac7fa.net/?p=87) and read the little article (http://ac7fa.net/?p=81) for installation instuctions.

For the simulation to work, you need N1MM (n1mm.com), Morse Runner (dxatlas.com), and Autohotkey (autohotkey.com). All free.

Hello, URcontest!

К стати!
Кубок Донбасса посвящен празднику День ШАХТЕРА!
Почему куда то делся Днепропетровск???
А Львовско - Волынский бассейн????
Хоть они и померанчевые, то тоже ШАХТЕРЫ!!!!
Надо бы в следующем году это поправить в положении, а может и сменить название. То что надо менять положение думаю это надо сделать в ближайшее время!

Всем доброго дня!
Уважаемые друзья.Ни в коем случае не в плане нравоучения и не "из вредности" - просто,может быть,организаторам будет интересен "взгляд со стороны".
Впервые решил поучаствовать в этих соревнованиях.Если пафосно,то решил поддержать "Кубок Донбасса" от имени Кузбасса,а если точнее,то преследовал ещё две цели.А именно:
1)Было интересно как будут отвечать станции Украины и европейской России в условиях высокого уровня взаимных QRM,т.е в условиях "максимально приближённых к боевым".Тест-то всё таки можно отнести (может быть пока) к региональным соревнованиям и до этого региона у нас 3-4 тыс.км.
2)Просмотрел результаты прошлого года и решил,что "Положение о соревнованиях",на мой взгляд,позволяет работать на равных с "европейцами".Даже несмотря на то,что последние почти два тура,в моей ситуации,проходили после восхода солнца.
В итоге,при том количестве участников которое было,получил не совсем то что ожидал.
Трудно судить об уровне взаимных QRM в Европе,но такое количество корреспондентов уже наоборот - не позволит европейским участникам этих соревнований "тягаться" с любым "азиатом" мало-мальски нацеленным на результат.И тут организаторам либо поднимать массовость (возвращать хотя-бы прошлогоднюю),либо (как это не редко делается) - менять "Положение о соревнованиях".
Получился результат который,я думаю,при ТАКОМ количестве участников недостижим для "европейцев".
И это:
1)При антенне с резонансом в телеграфном участке.

2)Только на 80 - ке.
3)R9U - это не Урал,а могут участвовать и "уральцы".
И ещё...Думаю все согласны,что "Положение о соревнованиях" не должно допускать двойного толкования.Даже если что-то кому-то кажется совершенно очевидным.Начиная со времени проведения соревнований (о чём уже написано)....и ,к примеру, -"Для остальных участников (внутри континента): за связь с радиостанциями Донецкой и Луганской областей начисляется 3 очка, с остальными станциями - 1 очко.Для участников с других континентов очки удваиваются."
Вот как угодно можно трактовать этот текст!Чем больше раз прочитаешь,тем больше вариантов.
Если,скажем,завтра у меня ("неевропейца") остальные участники будут сплошь UA9,UN,UK,EX и.т.д? Очки за связи с ними удваивать?
Другой вариант, если заменить в тексте "внутри континента" на "европейских",то им "с остальными станциями - 1 очко".Можно понять,что "европейцам" за связь со мной-1 очко,а мне за связь с ними ("для участников с других континентов очки удваиваются") -2.
Третий.Если последнее предложение - "для участников с других континентов очки удваиваются" адресовано "европейцам",то где собственно информация для "неевропейцев"?
Есть и ещё варианты прочтения...Невольно получилось "круче",чем "казнить нельзя помиловать".
Хоть,по логике,ответы и очевидны,но,согласитесь, легче же сформулировать более ясно и просто...Дело двух минут и двух лишних строк.Скажем,"для европейских участников за связь с радиостанциями Донецкой и Луганской областей начисляется 3 очка,с остальными станциями: внутри континента - 1 очко,с другим континентом -2 очка.Для участников с других континентов...и.т.д."
А как насчёт подгрупп? Из "Положения" ясно не следует,скажем,могу я заявится в двух подгруппах сразу? Вот сейчас количества очков явно хватит и на SOSB80 и на 1,8+3,5...
Сегодня ситуация одна,а завтра может быть другой и "Положение" ,в идеале,должно это учитывать и давать однозначный ответ на все возможные вопросы.
С уважением,
RW9USA. Борис.

Скажите пож., В.И., как выдаются позывные типа UU6JJ/LH?
Как /a, /p понятно, а вот /LH?
Не значит ли это, что выйдя на городской пруд к ближайшему
фонарю и прихватив с собой моток проволоки и трансивер,
я могу использовать - UX1IL/LH? У нас тут байдарочники

Hello RTTYers!

The CQWW RTTY will take place at the end of this month so now seems to be the right time to give some free suggestions about log submission.

Despite poor conditions, this year we received over 1,670 logs for WPX RTTY and - as far as I know - it was the new all time log submission record for a RTTY contest. I guess I'm not wrong if I think that this CQWW will set a new record, too.

On my webpage (http://www.i2uiy.it/postcontest.html) as well as on AA5AU's page (http://www.rttycontesting.com/AfterTheContest.html) is available the report I wrote after the 2005 CQWW RTTY. Please find few minutes to read it before the contest.

Advice #1: please read the Rules.
I mean the OFFICIAL Rules (http://www.cq-amateur-radio.com/RTTYDXContest.html) that are the only set of Rules you can trust 100%. There are NO changes from the previous years but reading them once more will not be bad.

Here are just few extra suggestions that will make the log-checker's life much easier:

- there are no trophy and/or certificates for who sends his log one hour or less after the end of the contest: take your time, the deadline is October 26 so there is no reason to post your log immediately.

- if you'll get your log returned by the robot, please remember that the robot always tells the reason why that log has not been accepted. If that is not clear, just send me an e-mail and I'll find out what was wrong in your log. If the robot returns your log once... it makes no sense submitting it again "as it is" hoping that the robot will change his mind, it never happens. So it's much better try understanding what's wrong in your submission.

- please do NOT submit .ZIP, .RAR, .LHA, .EXE, .DOC files. The robot will accept ONLY plain ASCII files. If you need - somehow - to edit your log, please use only NOTEPAD and/or any other ASCII editor that will not add junk characters to your file.

- if you submit your log correctly, you will receive a message from our robot within few minutes. Please be sure that the message from our robot will be accepted by your spam filter. Remember: the message from the robot only means that we have received and stored your log.

It doesn't means that your log is correct. Later, during the log checking process, we will look at your log and, if we will find any problem, you'll get a message from us.

- if we are forced to write you because there is something wrong in your log... we expect to get an answer (a fast one, if possible) so please do not ignore our requests: 3 or 4 unanswered messages to the same guy makes me quite nervous.

- please remember that you must log BOTH the SENT and the RECEIVED data. This means that a sample Cabrillo line will look like this:
QSO: 14075 RY 2006-09-23 0703 I2UIY 599 15
DX KL5E 599 01 DX

- if you work a W/VE station, then you must log his State/Province abbreviation like this:
QSO: 14112 RY 2006-09-23 1259 I2UIY 599 15
DX W4UK 599 05 SC

- if you are a W/VE entrant, then your log will look like this:
QSO: 7042 RY 2006-09-23 0006 AA5AU 599 4
LA OM8A 599 15 DX
QSO: 7043 RY 2006-09-23 0007 AA5AU 599 4
LA K4GMH 599 5 VA

- please don't guess that handling the contest with computer equals submitting a perfect log. It is NOT true. We know that there are 2 very popular contest programs that do not create the proper Cabrillo file unless you (very) carefully configure them. I did never used any of them but I know that this problem exists because in the past 2 years we had almost 300 (yes, three hundreds) logs that gave us BIG problems (missing columns, switched columns, merged columns) and over 90% of them have been done with one of these 2 programs. My suggestion is to simulate a contest log: open a new log for CQWW RTTY, enter 2 or 3 fake QSOs and create the Cabrillo. If it doesn't looks like the above samples... you better reconfigure your program BEFORE the contest.

- please read the Rules and learn what are the available categories. Please DO NOT enter a non existing category: it would be a waste of time. These (and ONLY these) are the available categories:
Single Operator - Assisted
Single Operator - All Band - Low Power
Single Operator - All Band - High Power
Single Operator - 80 Meters
Single Operator - 40 Meters
Single Operator - 20 Meters
Single Operator - 15 Meters
Single Operator - 10 Meters
Multi Operator - Single TX - Low Power
Multi Operator - Single TX - High Power
Multi Operator - Two TX

Multi Operator - Multi TX

- remember: (1) no QRP categories at all; (2) Low Power applies ONLY to Single Operators ALL Bands (i.e. no SO-20-Low, no SO-40-Low and so on); (3) Assisted applies ONLY to Single Operators ALL Bands (i.e. no SO-20-Assisted, no SO-40-Assisted and so on).

- there are NO possible sub-categories (no Rookie, no Expert, no Over-50, no Triband & Single Element).

- in the header of your Cabrillo log you will find the "OPERATORS:" line. Fill it ONLY of you were MULTI-OP *or* if you did used a special callsign different from your home callsign. If not, please leave it empty.

- remember that since 2006 there is a new "Club Competition" category. I'm sure that each Club officer will take care to instruct his Club fellows about how to fill the "CLUB:" line in the Cabrillo header. Please remember that World is larger than your own country... so please write the name of your Club as it is, no abbreviations, no shortcuts. Remember that a Club must... exist (!) and that his members must be located within a 275Km radius from center of Club area. When we are not sure if this limit has been respected or not, we will contact the Club Secretary to check it with him.

Please forgive me if these suggestions seems too much for expert contersters but we expect to get at least 1,700 logs and there is only 1 log checker...

Have fun in the contest!

Коля,не обобщай пожалуйста.
Опытный оператор если молотит только на вызов не ходя на поиск
вообще конечно не отвлекается.
Я например в том тесте пересидел на НЧ из-за хорошего прохода.
А когда понял что ничего мне не светит,не торопясь ходил по бендам и
работал воосновном на поиск.Потом поспал в тесте хорошо.

Как-то читал комментарий к какому-то ВВ, кажется, Боба Кокса. Из чего я понял, почему результаты в категории Ассистед не публикуются по странам. Этой категории в соревновании вообще нет. Эта категория создана как реакция на сложившуюся практику использовать кластер в тесте и ЧЕСТНО заявлять об этом, что свидетельствует по мысли Боба о том, что этот участник не соревнуется в данном случае, а отдыхает, собирает страны и т.п. То есть, по каким-либо причинам не может или не хочет соревноваться правильно, как люди. Для таких парней тест, по мнению устроителей, превращается в фестиваль, как любит говорить UT2UZ. Поэтому их результаты даются одной колонкой в конце и диапазон указывается только потому, что участник это сделал. Итоги подводятся одной группой, по-видимому. Отсюда у меня появляется мысль, что не стоит так заявляться. По крайней мере до тех пор, пока не начнут судить как правильную категорию и публиковать результаты внутри страны наравне со всеми остальными традиционными категориями.
Я тоже получил в одном конверте из Техаса 2 сертификата за 2-е места по Украине в CW SOABHP Ass (хоть не обидно - на всех бендах и заявлял) и SSB SOABHP.

К нашей дисскусии о категории Ассистед. Боб Кокс своих подходов не меняет. Вот и в комментарии к результатам последнего контеста можно прочитать о "несерьезных контестменах" - участниках этой категории. Конечно, битва тоже была (в центральной Италии в Европе...), но в результаты по странам таких сингл опов пока не включают. В прошлые годы он писал о категории Ассистед еще прямее - отдыхающие, собиратели стран и т.п. отказавшиеся от борьбы неконтестмены.

P.S. Цитата:
Assisted
There are lots of reasons to enter the Assisted
category. If you are casual contester, you can
make the most of your time. If you want to help
your club, assisted allows you to maximize your
effort. Finally, if you just want the challenge of
pushing QSOs and knowing when to use packet,
then this category is for you.

Владимир Федорович, я лично собираюсь работать в обоих тестах. Думаю, многие так могут поступить. Пересечение по времени составляет лишь 8 часов из 24-х. По диапазонам пересечения нет вообще. Категории участников также разные. Компьютерщики не работают в Украинском международном контесте в любом случае. Также как и телеграфно-телефонные контестмены не будут работать в цифровом фестивале. Кстати, эти аргументы, если не ошибаюсь, как раз и звучали, когда принимали решение, чтобы убрать телетайп из украинского контеста. Так что наше общее детище обижают совсем немного. Возможно, даже меньше, чем когда приняли решение убрать единственную оригинальную его черту - смешанный зачет по 3 модам. Теперь-то он точно претендует на серость, не отличаясь ничем от пары десятков других точно таких же тестов. Кроме того, как мне кажется, мы находимся в разных статусах: UKR DXC - это национальный международный глобальный контест общего (традиционного) типа, в то время как цифровой фестиваль расчитывает на статус клубного мероприятия. Если тут и есть, как ты говоришь, провокация Федосеева, то она не играет для меня решающую роль. Я убедился, так думают все, кто знакомился с этой идеей, включая и момент пересечения с Ukr DXC. И в Киеве (около 30 человек) и в Одессе, и Андрей Викторович Лякин, и Николай Михайлович Лаврека и другие незаангажированные люди. А вот найти свободный уикенд, не так уж и легко. Вспомни, как вы пытались перенести Ukr DX на лето и так и не нашли свободного места. Конечно, если не считать издевательского предложения Игоря о двух свободных уикендах. Не стоит горячиться и искать обидные моменты. Обдумай это и, пожалуйста, постарайся избежать выражений типа "не позволим". Радиолюбительство - это хобби и придумано для удовольствия, не забудем это.
Надеюсь на понимание, Сергей.

Сергей! Не очень понятны даты проведения этого
теста. Точнее понятны мотивы господина
Федосеева втягивающего и тебя в это
провокационное дело.
Я категорически против проведения этого теста
параллельно с международным URDXC, проводимым
UCC и UARL. Мы приложили МНОГО сил и здоровья
нашему национальному международному тесту и
и не позволим наше общее детище обижать.

Неужеле мало дат, подходящих для этого
мероприятия, в целом вполне радиолюбительского?
Надеюсь на понимание.

Александр, спасибо за предложение. Проблема поиска свободного уикенда связана с поиском уикенда, незагруженного цифрой. Таких, насколько я слышал, практически уже нет. И чем дальше, тем больше цифровых контестов рождается - компьютеризация на марше. Романтика морзянки, если не вымирает (не хочется так думать), то уж точно становится элитным спортом типа Формулы 1 - мое любимое сравнение.

На мой взгляд, дату проведения DigiFest все-таки стоит пересмотреть.
Ниже приводится выдержка из

календаря предстоящих соревнований с указанием даты и перемежающегося более-менее значительного контеста

с целью обсуждения возможной даты проведения этого теста. Что же касается содержания, это, несомненно, серьезный шаг вперед.

Дата Альтернативный контест

01-02 дек.2007 ---

08-09 дек.2007 ARRL 10 Meter

29-30 дек.2007 Stew Perry Topband Challenge

16-17 февр.2008 ARRL DX CW

12-13 апр.2008 Japan International DX

Валерий Иванович,

Возможно, над датой следует задуматься еще раз. Но, вроде, изучали эксперты.
Что касается SSTV. В первоначальном варианте, представленном на обсуждение экспертов инициативной группы оно было, но потом нашлись аргументы против (я их забыл, или не понял :-)

При всем моем уважении к организаторам данного DigiFest'a, и даже с учетом моего личного увлечения в последнее время соревнованиями с цифровыми видами излучения, я никак не второпаю, чем руководствовались при выборе даты? Однозначно, я лично буду работать в НАЦИОНАЛЬНОМ UKRDXC.
Любое радиолюбительское мероприятие имеет право на жизнь, но не в ущерб другим. Давайте, все-таки, максимально представлять страну, а не распылять силы.
И если срок будет перенесен, то с удовольствием попробую работать в тесте из 16 видов цифровой моды. Для полного комплекта не хватает добавить еще и SSTV.

Компьютерщики,а где вы были в недавнем RUS RTTY test?
Что то неприпомню вообще позывных наших кроме UU7J и UT0U.
Или вы только в украинском именно хотите участвовать?

Лично я считаю DigiFest - ударом ниже пояса.
Но идея хорошая.
Ведь можно перенести дату проведения!
И тогда все проблемы уйдут сами по себе.
Понравился формат 8 через 8!
Может, пока, на стадии становленя, сделать его короткоформатным?

Исключение RTTY из UKRDX - ГЛУПОСТЬ в пользу маленькой группы, которая
не "знает" RTTY!!!!!

Ну, Валерий Иванович, от Вас не ожидал. Ладно уж вице-президенты и чемпионы, утомленные постами и званиями, допускают нервные срывы.

Скажите, при чем здесь нетерплячка и кто ее проявил?

Первое. Время для DigiFest определилось в результате решения ОСВОБОДИТЬ УКРАИНСКИЙ ЦИФРОВОЙ сегмент, принятого УКК. Подумайте, когда этот сегмент займут, скажем, словенцы, россияне, финны или др. динамичные нации, это будет нормально? А если устроят не клубный фестиваль, а полноразмерный тест типа нашего UkrDXC? Возникает вопрос, такие уж радетели за свой тест авторы отказа от цифровой моды? И, кстати, такие уж ли они патриоты и не сами ли они обгаживают свой тест? А если УКК решит вернуть телетайп, скажем, через год-другой? Клубный украинский фестиваль такую возможность может предоставить, а чужой глобальный тест - нет. Такая возможность будет утрачена, боюсь, навсегда.

Второе. Причем здесь уважение или неуважение к UARL? Чем больше активности прявляют члены, тем крепче организация. В календаре масса тестов разных локальных клубов. И их организаторов только благодрят за то, что они неравнодушны к судьбе контестинга и что-то делают для его развития. Поддержка Президентом УАРЛ ДиджиФеста абсолютно логична с этой точки зрения.

Суть вопроса в том, что перспектива утери украинцами цифрового уикенда породила желание этого не допустить, что и вылилось в предложение киевлян организовать некий клубный фестиваль. Если бы не совпадение с UkrDXC, формат этого мероприятия был бы другим - сделали бы полноценный 24-х часовой тест, например, что во многих отношениях проще и отстаивалось большинством в инициативной группе. Но решили снизить до минимума совпадение по времени - до 8 часов. Было предложение даже проводить фестиваль до и после украинского теста. Так я понимаю сложившуюся ситуацию.

Вместо этого, оказалось, что контестинг - совершенно не удовольствие или забава, как нас кое-кто неискренно убеждал здесь последние десять лет. Это, в их понимании, если не большая политика, так уж точно лакмусовая бумажка на любовь к Родине. Опомнитесь, возьмите себя в руки. Все свели к сведению счетов кого-то с кем-то. Лучше помогите найти равноценный уикенд. Я уже трижды лично пересмотрел осень и весну и убедился, что бескомпромиссный вариант отсутствует в принципе. Если не глобальный тест, типа ВВ или АРРЛ, то обязательно RTTY или PSK. Тем не менее, думаю, придется и правда выбрать другую дату, не буду же я перевоспитывать радянський народ, в самом деле.

Сергей Иванович! Уважаемый!

Во-первых, это шутка. Обратите внимание нас смайлики.
Во-вторых, если серьезно, то келейно, без какого-либо согласования
с учредителями, приняли решение наехать на URDXC, и хотите, чтобы мы
от умиления хлопали в ладоши? Ну кому это понравится? И как это расценить,
если ни КВ комитет ЛРУ, ни UCC (учредитель URDXC), даже не предупредили,
а поставили перед свершившимся фактом и раструбили на весь мир?
Что касается согласия Президента ЛРУ, то в данном случае это его
личное мнение. Для проведения мероприятия под эгидой ЛРУ нужно,
по крайней мере, решение на это исполкома с подачи КВ комитета.
URDXC проводится под эгидой лиги. На это в бюджете предусмотрены
даже определенные средства, утвержденные Советом.
Я еще раз подчеркиваю мою личную точку зрения. Идея имеет ПОЛНОЕ
право на существование, с удовольствием приму участие, но только если
изменится дата.
Посему тему для себя закрываю.

Та при чем здесь всякие "эгиды"?
До этого было:

"Внимание всем! Киев Контест Группа (Kyiv Contest Group) при поддержке
ряда организаций приглашает провести немного времени и получить
удовольствие в новом цифровом контесте под названием DigiFest."

Все, КРАПКА

Следовало бы только уточнить "ряд организаций".

... а если подобный фестиваль учредит группа аматоров, ни один

Здравствуйте, .

Очередной съезд SPDX клуба прошел в традиционные для этого
мероприятия даты 21-23 сентября 2007 в районе города Кельцы.
Президент клуба пригласил делегацию от UCC и в нее вошли:
UY5ZZ UX4UL UT1QL.
Добрались мы до места проведения съезда быстро и комфортно,
правда уже на польской стороне простояли часа четыре в очереди
на въезд из за большого количества мелких польских фарцовщиков
(водка,бензин,сигареты) из приграничной зоны.
Отмечу, что в этом году приграничные украинцы ЛИШЕНЫ этого зароботка
из за щиро открытых границ для всех и - ВИЗ со стороны всех для нас!
Съезд собрал более 200 участников-поляков, встречались и иностранцы
IK1PMR,IK1LEO(K2LEO),IK4UPU,DF4ZL,DJ0IF,UA2AN,US5WDX...
На съезде была развернута и активно работала радиостанция -SP0DXC.
Вся наша делегация попробовала польский эфир и каждый провел по пол
сотни ЩСО. Мне запомнились связи со своими коллегами - UR4EN,UT2IA
В программе съезда были интересные доклады:
Vector Network Anlyser- SP7GIQ
Мемориал Маркони IY4FGM-IK4UPU
Экспедиция JT1Y-K2LEO
Экспедиция 9U5WR,9U0A-SP3DOI
Экспедиция VU7RG,VU7MY - SP3DOI and etc
Планировалась презентация экспедиции 3B7SP, но из за скандала по
использованию спонсорских денег этот пункт программы съезда был
исключен...
Мне представилась возможность вручить дипломы польским призерам
нашего URDXC 2006 contesta и пригласить их участвовать в тесте 2007.
Нами были привезены и переданы QSLs for SP,DL от ЩСЛ бюро ЛРУ.
Мы привезли и проверили несколько заявок членов UCC по DXCC
программе у польского чек-поинта ARRL-DXCC.
SP7GXP демонстрировал новые разработки своих антенн, здесь же шла и
их распродажа . Так многоэлементная и многодиапазонная ант бим
(по 3эл на 14,21,28 и по 2эл на 18,24) стоит примерно 300 дол США.
Более серьезная такая ант (больше на один эл, длиннее бум) стоит
примерно 400 дол США. Вы можете найти сайт Валдемара SP7GXP
и посмотреть подробно все о его конструкциях.
Подведены итоги SPDX contest 2007. Результаты здесь

Есть несколько способов.
Шум вентилятора 30-ти киловаттного передатчика не дает уснуть не
только мне,а и всей деревне.
Ну и еще два-три оператора на подмене,не без этого.

Только Вам то это за чем ?

Здравствуйте, .

Печальная новость. Неожиданно и крайне рано сегодня остановилось сердце
у нашего друга, одного из организаторов UCC- КУЗНЕЦОВА АЛЕКСАНДРА
МАКСИМОВИЧА - UY5EG. Лег спать и...не проснулся утром, ему было не
полных 63.
Саша мастер спорта СССР, многократный член сборной команды Украины на
бывших чемпионатах СССР по радиосвязи на КВ, неоднократный чемпион
Украины. Наверное еще многие помнят -UK5IBM, это его детище!
Последние годы Александр Максимович был одержимым ДХ-меном. В числе
первых в Украине получил DXCC HR #1, в его коллекции 5BDXCC ,5BWAZ
и много других дипломов первой величины.
Неделю назад он был в Домодедово, радовался жизни, строил планы...
Совет клуба, все одноклубники ВЫРАЖАЕМ соболезнование семье,
мы помним UY5EG.

UY5ZZ, UCC-president

Александр, робот хотел бы, чтобы Вы вставили слово "DX" (Ваш "QTH")
после своего номера. Так как вместо этого слова у него засчитался
позывной Вашего корреспондента (все колонки сдвинулись на одну). Это
нужно сделать, естественно, в каждой строке.

Здравствуйте!
Состоялся и мой дебют в CQ WW RTTY. Однако,
возникли проблемы с логом. Ниже приводится выдержка из ответа робота:

[X] FYI: A sample QSO line for CQ-WW-RTTY looks like this:
QSO: 28087 RY 2001-09-29 0000 LU6ETB 599 13 DX N6TR 599
03 OR
0

[X] QSO: 3600 RY 2007-09-29 0146 UT4EK 599 16 HB0/DF4OR
599 15
Line ignored.
I do not recognize 'HB0/DF4OR' as a valid QTH.
I do not recognize '599' as a valid callsign.
I do not recognize '' as a valid zone.

Работал и формировал Cabrillo в MixW 2.17 . Подскажите, каким образом
можно сформировать лог правильно (не набирая вручную)?
73! UT4EK.

Ок, извините, не дописал.
Прогорамма это и делает, т.е. вставляет слово DX в каждую строку (вернее для каждого позывного, не относящегося к ARRL). Для этого нужно выбрать DX в боксе справа от позывного ARRL SECTION, т.е. там, где выбирается штат. В самом конце прокрутки найдете это слово (IMHO надо было бы поставить в начале).

Я ж и говорю,что нормальная программа все делает сама.Если я
украинским позывным работаю,то и автоматом идет DX.А это
не программа,если перед каждым тестом ХЕЛП читать,которого не существует вообще :-)

16707. Memo: Eu Sprint Contest 2007 is NOW!

Yahoo group: URcontest (2006 — 2007)
Date: 2007-10-04 10:45:52 UTC
From: UT1IA
Topic: 16707 Message: 16707

Hello!

This e-mail is to invite all contesters to have a go in the European
Sprint contests 2007.

Please remember that, starting last year, the time has been moved
1 (one) hour ahead. The four Sprints will begin at 16:00 UTC and
will end at 19:59 UTC.

If you're wondering which software to use, DL2NBU's program has
been written specially for this contest. It is very much like K1EA's
CT,
and it is FREE for download from the new Eu Sprint web
site <http://www.eusprint.com/>.
SD by EI5DI, TRLog by N6TR, WriteLog, Win-Test, N1MM Contest Logger
(and many others) all support the Eu Sprint, and if you prefer to log
on paper, that's fine as well. We accept any fixed column ASCII
file, too.

So, we hope you will give the Sprints a try in October, and then send
your logs to <eusprint@...>. The full Eu Sprint rules are shown
below.

73 from the EU Sprint Gang
G4BUO, I2UIY, OK2FD & 9A6XX

About Eu Sprint:
- download the FREE software,
- rules in English, Italian, French, Spanish, Portugese, Russian,
Czech,
German, Polish, Greek, Croatian
- all past results from 1994,
- download full logs and ubn reports,
- all time records,
- find more information about Log Checking,
- and much more about the Eu Sprint....
You will find everything here: <http://www.eusprint.com/>

Eu Sprint Contest - 2007

ENTRANTS: any licensed station may enter the Sprint. European stations
can
work everybody; stations outside of Europe can work only European
stations.

CATEGORIES: Single Operator ONLY. Only ONE signal may be aired at one time. Low Power entries (up to 100W) will be indicated by an asterisk (*) in
the listing.

DATES:
EU SPRINT Autumn:
* SSB: first Saturday in October - 6 October 2007 - managed by I2UIY
* CW: second Saturday in October - 13 October 2007 - managed by OK2FD

TIME: from 16:00 UTC until 19:59 UTC.

BANDS: 20, 40 and 80 metres only.
Pilot frequencies are: SSB: 14.250, 7.050, 3.730. CW: 14.040, 7.025, 3.550

EXCHANGE: all of the following data MUST BE PART OF THE EXCHANGE:
a) your callsign,
b) the other station's callsign,
c) your serial number starting from 001 (RST not required),
d) your name or nickname.
Please note that BOTH stations MUST repeat BOTH callsigns DURING the exchange.
A valid exchange is: "OK2FD de I2UIY 118 Paolo" while "OK2FD 118 Paolo" is
NOT a valid exchange.

SPECIAL QSY RULE: if any station initiates a call (by sending CQ, QRZ?,
etc.), he is permitted to work ONLY one station on the same frequency. He
must thereafter move AT LEAST 2 (two) kHz before he may call another station or before he may solicit again (CQ, QRZ?, etc.) other calls.

VALID CONTACTS: valid contacts are QSOs correctly logged and confirmed.
Each operator may use ONE and ONLY one name during the Sprint. If the exchange is copied incorrectly, that operator will receive zero (0) points.
In case of miscopied callsigns, both stations will receive zero (0) points
for that QSO.

SCORING: each valid QSO counts one 1 (one) point. The final score is the
total number of QSOs.

AWARDS: Colorful certificates will be issued to the winners of each Sprint
and to the leaders in each country.

EU SPRINT PLAQUE: A special plaque will also be awarded for the top three scores from all four contests combined. To be eligible for this

award an operator must enter at least three of the Sprints in the year. Results will be forwarded as soon as possible to Leagues, magazines and bulletins.

LOGS: a single chronological log is required. Please send us your log via email or on a floppy disk, if you use computer for logging. Use any of the available software or send a plain ASCII file. Eu Sprint is supported by all the major software (N6TR, Writelog, Win-Test, N1MM, SuperDuper and many others; see the software information on our webpage).
If you want the latest release of the DL2NBU software, you can download it from the new EU Sprint web site: <http://www.eusprint.com/>.
Log files must be sent NO LATER than 15 days after the contest to: <eusprint@...>. The receipt of your electronic log will be immediately confirmed. If you do not receive a confirmation within few hours, try again or use the postal system.
Disk logs, or paper entries must be posted NO LATER than 15 days after the contest to the appropriate address:
* Autumn SSB Sprint: Paolo Cortese, I2UIY, P. O. Box 14, 27043 Broni (PV), Italy.
* Autumn CW Sprint: Karel Karmasin, OK2FD, U Oburky 1007, 674 01 Trebic, Czech Republic.

Thanks in advance for your participation de: G4BUO, I2UIY, OK2FD & 9A6XX.

Саша, спасибо за замечания. С повторами - доработаем Положение. О стимуле работать другими модами тоже подумаем (можешь учредить приз :-). Километры - это "объективнее", чем множитель из стран и зон. HP - единственная достойная категория "крутого" контестмена :-) (шутка, но многие не могут обойтись без HP). Хотя именно я пытался настаивать на применении только LP. Обсуждение было довольно долгим, группа - достаточно авторитетная. Если есть хорошие идеи, впрочем, никогда не поздно их выслушать - все в жизни должно стремиться к совершенству.

А километры в качестве показателя - по моему, это что-то из каменного века. Других вариантов не предлагалось?
И еще - а зачем в цифре категория HP?

Цитирую с этой ссылки:
TR4W (TKS Дмитрию UA4WLI !) является модификацией известной
контест программы Larry N6TR TRLog, но запускаемой уже в Windows.
Программа имеет некоторые отличия от той, которая была написано
под DOS. Это в первую очередь относится к возможности самому
оператору выводить на экран монитора необходимые окна, средствами
Windows "перетягивать" их в удобное место и устанавливать размеры.
Размеры основного окна не изменяются. Однако его можно "двигать"
по экрану в удобное для оператора место. Предоставлена возможность
использовать уже имеющийся на станции интерфейс других программ,
например, MixW2, TRLog для управления трансивером (посылки CW, PTT, CAT).
Тем, кто имеет опыт работы и конфигурирования программы TRLog,
освоить TR4W будет весьма несложно.
Автор данной статьи попытался адаптировать TR4W на базе версии 2.15
^^^^^^^^^ для работы в UKRAINIAN DX CONTEST.

Так ПОПЫТАЛСЯ или все таки АДАПТИРОВАЛ?
Зачем народ вводить в оману?

9M6XRO A45WD HS0AC HS0BGI YB0DPO YC1KAF VU2UR VK4TT YW7A ZM2B ZS9Z
десяток янок и два десятка японцев и др.
Активно работали члены UCC из дальнего и ближнего зарубежья:
DF4ZL VE2XAA EA4/UY7CW ER3ZZ YL5M UA4LU
Наверное многие убедились в БОЛЬШОМ количестте DL-stations.
Это прямая работа Пауля DF4ZL по популяризации нашего теста в Германии.
Накануне в CQ-DL была была подробная информация о тесте, плюс
интернет сообщения. Все сработало!
Чуть менее активны были и поляки, но было их также достаточно.
Это результат приватных приглашений к участию когда мы были на съезде
SPDXC 2007...
Ну и ,конечно, Россия! Спасибо всем за участие. В этом году пятерки
лидеров от России (EU RUS & AS RUS)будут выглядеть ОЧЕНЬ прилично.

Мое мнение- тест в данном варианте (без RTTY и с разделением по MODE
для украинцев)стал привлекательнее для многих. Участников было , по

видимому, больше чем в прошлом году, т.к. лидеры провели на 5-10% больше ЩСО. Звали нас украинцев все 24 часа, в конце теста темп у меня был более 100 ЩСО в час.

Рома-UR0MC (as UW2M in contest)! Твои новые стэки работают
FB избирательно. Я более часа стоял на CQ на 14025,2.
Без вопроса или QRL ? вдруг падает UW2M на 14025,5 и начинает
активно CQ-лять. Я продолжаю, хотя уже с напрягом проводить ЩСО,
надеясь что UW2M поймет ситуацию. Но, через минуту-вторую мне UW2M
дает QSY, hi. Значит стэки у тебя избирательно слышат!
Так продолжалось минут 10-15, UW2M то пропадал, то снова падал
мне на голову и начинал CQ-лять... У меня даже закралось сомнение
- ты ли это РОМА был? Я без обид..., так для инфо :))

А в целом поздравляю UT7QF, UW2M, которые провели свыше 2000 ЩСО , а
также UW5Q и UT0U -приблизившихся к этой цифре в SO MIX HP

Во первых СПАСИБО , стараемся.

Во вторых-
гл.эл судья Николай UY5QQ сообщает, что не стоит волноваться и тем
более посылать ЛОГи повторно. Практика судейств последних лет говорит,
что ЛУЧШЕ работать с каждым отчетом сразу и по всей форме, т.е.
проверять правильность подачи всей информации и только после этого
давать подтверждение или отсылать отчет на доработку.
Потерпите день-два и каждый получит CFM на свой отправленный log

Здравствуйте.

Отработал столько, сколько позволило время. О прохождении здесь уже
все сказали. Запомнились ну очень мощные CW сигналы двух станций
из UP и одной нашей из Y. Цены бы им не было в базарный день,
да вот только тон ужасный и "хрюканье" на полдиапазона...
Как нужно не уважать хотя бы себя, чтобы работать таким сигналом?

Привет всем !
Почитал проект нового "Регламента..". Впечатление - не ахти.
Интересно узнать, чем руководствовались разработчики этого проекта?
Что помешало узаконить диапазон 50мгц, нормальную мощность ?
Требования к знанию телеграфа смехотворны - не проще ли было
вообще отменить его знание? Вопросов много, но не хотелось бы
вопрошать пустоту. Если найдётся отвечающий - я ещё добавлю
вопросов.

Перечитав проект, отличий нашел мало. Зато вопросов много.
Например:
7.18. При отриманнЁ тимчасового дозволу сплачуються
реⅡстрацЁйний та експлуатацЁйний збори згЁдно з дЁючими
тарифами.
Тимчасовий дозвЁл (додаток 10) видаⅡться чиннЁстю до одного
року. КатегорЁя АРС для тимчасового дозволу встановлюⅡться
вЁдповЁдно до категорЁ© нацЁонального документу (licence) на
експлуатацЁю АРС
Какой категории будет соответствовать лицензия класса EXTRA?
Не проще ли сдать здесь квалификационный экзамен и получить
соответствующую категорию?

Как заполнять акт техосмотра, если, скажем 3 трансивера 2 выходных
каскада и каждый аппарат может работать с любым усилителем.

Ну и так далее :)

Attached are the rules for the BARTG 2008 RTTY contests.

Please note that from 2008 the HF RTTY contest in March will run one week later than in previous years. This is to avoid a clash with the Russian DX contest, which many RTTY contesters also like to enter.

Thanks for your support and the publicity for our tests.

Здравствуйте, .
От URDXC contest committee:

На 22 ноября 00: 47 получено 857 отчетов,
подготовлено к судейству 526.
Основные ошибки в присылемых отчетах -
неверно приведено название группы -
например: SOAB LP CW+SSB вместо
SINGLE-OP ALL LOW MIXED,
много отчетов с именем Ukrainian.LOG,TXT,DOC и т.д.,
вместо call.cbr, 43 отчета с неверно оформленным форматом cbr,
если это отчет от UR - отсутсвует обозначение области,
если отчет от DX то отсутсвуют переданные контрольные номера -
это типовая ошибка при формировании отчета программой POST
из пакета N6TR , ну и еще всяких, разных заморочек хватает.
Все это, конечно, отнимает много времени и поэтому порой подтверждение
высылаем через 2-3 дня, sri

Получено также пока 36 бумажных отчетов.

Здравствуйте, .

CQ WW DX Contest
Соревнования проводятся организацией
CQ Amateur Radio
США
Начало: 24 ноября 2007 г. в 00:00 UTC
Завершение: 25 ноября 2007 г. в 24:00 UTC
Ежегодно проводится два соревнования CQ World Wide DX Contest:
Phone - последний полный выходной октября.
CW - последний полный выходной ноября.
Виды модуляции: CW
Диапазоны: 160 м, 80 м, 40 м, 20 м, 15 м, 10 м
.:: КЛАССЫ ::.
Для всех категорий: Участники соревнований при выполнении всех действий, оказывающих влияние на результат, должны соблюдать ограничения, определяемые выбранной зачетной категорией. В подгруппах "high power" общая выходная мощность не должна превышать 1500Вт на любом диапазоне. Передатчики и приемники должны быть расположены в пределах круга диаметром 500 метров диаметром или в пределах территории собственности владельца лицензии. Все антенны должны быть физически соединены с передатчиками и приемниками, используемыми участником. Для зачета может быть использован единственный позывной.

A. Single Operator: Один диапазон или все диапазоны. Единственный сигнал может излучаться в любой момент времени. Оператор может менять диапазон в любое время.
1. Single Operator High. Все действия по работе на станции в контесте выполняются одним оператором. Использование сетей DX-оповещения (любого типа) автоматически переводит участника в категорию Single Operator Assisted.
2. Single Operator Low. Аналогично A1, но выходная мощность не должна превышать 100Вт.
3. Single Operator QRPp. Аналогично A1, но выходная мощность не должна превышать 5Вт.
B. Single Operator with DX Spotting Net: Аналогично A1, но разрешается пассивное использование сетей DX-оповещения (self-spotting запрещен).
C. Multi Operator (только все диапазоны):
1. Single Transmitter (MS). Разрешается использовать только один передатчик и только один диапазон в течение любого периода продолжительностью 10 минут, который отсчитывается от первой занесенной в лог связи на диапазоне. Исключение: единственный другой диапазон может быть использован в течение любого периода продолжительностью 10 минут, и только в случае, если QSO на этом диапазоне дает новый множитель. Если при проверке отчета будет выявлено нарушение правила "10 минут", участник автоматически переводится в группу Multi-multi.
2. Two Transmitter (M2). В любой момент времени может излучаться два сигнала, но на различных диапазонах. Оба передатчика могут работать с любыми корреспондентами. Естественно, засчитывается только одна связь на диапазоне с каждой станцией, назависимо от того, каким передатчиком она проведена. Для каждого из передатчиков ведется отдельный журнал (в хронологическом порядке). Если используется электронный лог, то отчет (Cabrillo) должен содержать для каждой связи информацию, каким передатчиком проведено каждое QSO. Каждый из передатчиков может изменить рабочий диапазон не более 8 раз в час (календарный, с

00 до 59 минут).
3. Multi-Transmitter (MM). Количество передатчиков не ограничено, однако на каждом диапазоне разрешен единственный сигнал и одна running станция (работающая на вызов).
D. Team Contesting: Командное соревнование.
В состав команды входят любые пять участников, выступающих в группе Single operator. Участник может входить в состав только одной команды в каждом из контестов (Phone, CW). Участие в команде не ограничивает участие в соревнованиях клубов. Результат команды определяется как сумма результатов ее членов. Команды в соревнованиях SSB и CW формируются независимо. Список членов команды должен быть предоставлен до начала соревнования в штаб-квартиру CQ по адресу: CQ, Att: Team Contest, 25 Newbridge Road, Hicksville, NY 11801 U.S.A.; fax 516-681-2926. Дипломами награждаются победители в каждом виде (Phone, CW).

Соревнование клубов. Клуб должен быть локальной группой и никак не национальной организацией. Участие членов в клубном соревновании ограничивается их географическим расположением в области радиусом 275км от центра. Исключение только для DX-экспедиций, специально организованных для участия в контесте. Для экспедиций результат определяется процентом членов клуба, участвующих в экспедиции. Что участвовать в зачете, должно быть представлено не менее 3-х отчетов от членов клуба, и официальное лицо от клуба должно заверить список участвующих членов и показанные ими результаты, как в телефонном, так и в телеграфном соревнованиях.
.:: КОНТРОЛЬНЫЕ НОМЕРА ::.
Передается RS(T) и номер зоны CQ.
.:: ОЧКИ ::.
За связи между станциями на разных континентах начисляется 3 очка, за связи между станциями разных стран на одном континенте - 1 очко (исключение только для североамериканских участников, они получают по 2 очка). Связи внутри страны очков не дают, но засчитываются для множителя за страну и зону.
.:: МНОЖИТЕЛЬ ::.
Используется два типа множителей:
- различные зоны CQ на каждом диапазоне,
- различные страны на каждом диапазоне.
Можно проводить связи с собственной страной для получения множителя за страны или зоны. Следующие документы являются стандартом для определения стран мира, зон и континентов: карта CQ Zone Map, список стран DXCC, список стран WAE и границы континетов по WAC. Морские станции (/MM) дают очко для множителя только за зону.
.:: ПОДСЧЕТ РЕЗУЛЬТАТА ::.
Произведение суммы очков на всех диапазонах на сумму всех множителей (за зоны и страны). Например: 1000 QSOpoints x 100 multiplier (30 Zones + 70 Countries) = 100,000 (final score).
.:: НАГРАДЫ ::.
Сертификатами награждаются победители в каждой зачетной группе в каждой стране (а также в районах США, Канады, Европейской России, Испании и Японии). Все результаты будут опубликованы. Чтоб претендовать на награждение, участники групп Single Operator и Multi operator должны предоставить отчет, по крайней мере, о 12 и 24 часах работы соответственно. Отчет с заявленными QSO только на одном диапазоне действителен для награждения на одном диапазоне. Если в отчете заявлены связи на различных диапазонах, участник переводится в многодиапазонный зачет, если только в его отчете не указано иное. В случае необходимости дополнительно присуждаются дипломы за второе и третье места. Все награды выдаются на позывной, указанный в использованной станцией лицензии.
.:: ОТЧЕТЫ ::.
1. Время указывается в GMT.

2. Должны быть полностью указаны все переданные и принятые контрольные номера.
3. Множитель отмечается при первом его появлении на диапазоне.
4. Отчет должен быть проверен на наличие повторных связей, правильность подсчета очков и множителей.
5. Предпочтителен отчет в электронном виде. Судейская коллегия требует отправки электронных отчетов всеми участниками, заявившими высокие результаты.
Высылая отчет с потенциально высоким результатом, участник соглашается, что его отчет может быть открыт для публичного просмотра.

Отчеты по E-mail. Должны быть в виде файла в формате Cabrillo, который может создаваться большинством контест-программ. Посылается как attachment (прикрепленный файл). В строке "Subject:" необходимо указать позывной и вид работы. Отчет, отправленный по e-mail, будет принят сервером, который подтвердит прием и вышлет каждому персональный код доступа. Этот код используется для просмотра вашего отчета, а в дальнейшем для получения информации о результатах его компютерного анализа.

Отчет может быть предоставлен на дискете формата MS-DOS, содержащей ваш Cabrillo-файл. На наклейке дискеты ясно указываются позывной, наименование файлов, вид работы (SSB или CW), зачетная группа. В названии файла должен быть позывной (например, HS0AC.LOG).

6. Бумажные отчеты составляются по диапазонам.
7. Каждый бумажный отчет должен сопровождаться обобщающим листом, содержащим подробную информацию о результате, группу, имя и адрес участника ЗАГЛАВНЫМИ ПЕЧАТНЫМИИ БУКВАМИ, подписанную декларацию о соблюдении правил соревнований и условий своей лицензии.
8. Образцы форм для отчета, а также карты зон CQ, можно запросить у организаторов, отправив SASE. Если стандартных форм нет, отчет можно выполнить на листах бумаги формата A4, разместив на листе по 80 связей.
9. Для каждого диапазона, где число связей превысило 200, участник должен представить список для проверки повторов (алфавитный список позывных).
10. Незачтенные связи штрафуются снятием дополнительно по 3 QSO.
11. Участники групп QRPp и Low power на обобщающем листе должны отметить свою принадлежность к группе и указать выходную мощность.
.:: АДРЕС ДЛЯ ОТПРАВКИ ОТЧЕТА ::.
CQ Magazine, 25 Newbridge Road, Hicksville, NY 11801, USA
E-mail:
Phone: ssb@cqww.com
CW: cw@...
Домашняя страница: http://www.cqww.com/
.:: СРОК ОТПРАВКИ ОТЧЕТА ::.
15 января 2007 г. (по штемпелю)
.:: УСЛОВИЯ ДИСКВАЛИФИКАЦИИ ::.
Нарушение условий лицензии, правил соревнования, неспортивное поведение, большое количество непроверяемых связей, могут быть причиной дисквалификации. Неправильно принятые позывные будут считаться непроверяемыми. Участник, чей отчет по мнению судейской коллегии будет признан содержащим чрезмерное количество неточностей, дисквалифицируется и лишается возможности претендовать на награды (и как станция, и как оператор) на один год. Если в течении 5 лет участник дисквалифицируется повторно, он лишается возможности претендовать на любые награды CQ на три года. Использование в течение контеста для облегчения проведения радиосвязей таких нерадиолюбительских средств, как телефон, телеграф, Интернет и пр. или использование пакетной связи, считается неспортивным, и такой участник дисквалифицируется. Все действия CQ WW контест-комитета являются официальными и окончательными.

Ну и что здесь полезного?
Может стоит писать больше про setup, антенны, используемый soft?

for the weekend. Peak rates were about 1300 per hour both mornings around
14z, and almost 1400 a couple hours before the end.

Remember on this part that a high percentage of spots by 'single
spotters'
for non-rare expeditions is often a sign that the spotter callsigns
are
being faked in some way. Big expeditions to really rare places often
get
high percentages of dx hunters who only spot them to brag that they
worked
them, then turn off their radio... High percentages for expeditions or
really rare stations are normally in the 20-30% range.

Hmmmm... HP1AVS, he was also featured in my CQWW SSB report... This is
interesting though, he wasn't in the cw contest. he was spotted by
about 30
different calls from a Panama IP address on 18mhz and 14mhz psk and
rtty,

most with identical comments.

And now on to the dxsummit spots...

Another curious batch of spots from Mongolia. If you remember my
suplimental report after the ssb test you might recognize this
pattern. I'm
sorry i stripped off the times from the dxsummit spots (the ones with
the
-@) but i did manually match them up with the real spot times. What
is
going on is that someone in mongolia is spotting rare callsigns on the
same
frequency that jt1co is running on, as evidenced by the 'Real' spots
intermixed below. Probably an attempt to draw attention to jt1co
without
actually spotting him.

Of course we were not putting spots in from dxsummit this weekend.
And the
IP address comes back to a verizon dsl user out of tampa florida:

pool-71-101-9-246.tampfl.dsl-w.verizon.net

Any node sysops who can check your ip logs and see if you have a real
call
that you can associate with that ip address or the tampa verizon
network
(try searching for 71.101.9.*) please contact me directly.

After i posted that address to a couple email reflectors sunday
morning the
culprit changed spotting nodes and was likely responsible for more
that were
entered from the ea4rh-5 web interface. Anyone that can contact ea4rh
and
get him to check his web logs for the ip please contact me directly.

==========
I expect the log checkers will ask for the data again this year like
they
have the last couple years. If you want to do your own analysis or

see if
you have been flagged by any of my checks and just didn't make the hit
parade listed here you can download the excel and access files, as
well as
the raw data for this summary at:
http://www.k1ttt.net/logs/2007cqwwcw_spots.zip
Just please don't ask me to explain it all to you, if you don't know
how to
use complex access queries or excel or how to trace ip addresses I
don't
have time to explain it all to the world.

"Или на расширенном Совете клуба в соответствии с поданным
заявлением"- этого в Уставе нет.

Такая практика появилась только в последние годы.
Мало того,раньше была категория- "кандидат в члены клуба"

Зачем ВСЕ шлешь в рефлектор?

Ну и уж совсем из ряда вон -
зачем пуляешь мое личное тебе письмо в рефлектор...

Очень жаль,что замечание члена UCC расценивается как провокация.

P.S. Ответил на письмо машинально-не проверил,что оно для личной
переписки.Такое бывает и у вас.

The EU Sprint Gang is proud to announce the Winners of the
2007 Eu Sprint Plaques.

This is the seventh year that this award is issued and it goes
to the three operators with the highest combined scores, having
entered at least three of the four European Sprint contests in 2007.

2007 Winners are:
#1 - Tonno Vahk, ES5TV - 761 Points
#2 - Filipe Lopes, CT1ILT - 752 Points
#3 - Ludek Odehnal - OK3C/OK2ZC - 401 Points

Congratulations!

There are also certificates for the winners of each Sprint and the
leading score from each country. Prizes will be sent out by the
end of March 2008.

This is the third time that Tonno, ES5TV, wins the Eu Sprint Plaque
(and once he ended #2) but this time competition was really
very hard because Filipe, CT1ILT, eneded just 9 QSOs behind him.
A total of just nine QSOs of difference after 4 contests and 750+
contacts. WoW!
Third place goes to Ludek, OK2ZC/OK3C, who always operated Low
Power and this maked even more important his score.

Rules, full results, past scores and all time records can be seen
at: <http://www.eusprint.com>. Please tell all your friends to
get ready for the European Sprint contests in 2008!

Thanks to all entrants.

Merry Christmas and Happy New Year from the Eu Sprint Gang!

Этот процес может затянуться! Сейчас у него задача как SO 3Radista
сделать UU7J SO, а это,понимаешь, в столбик все надо сложить, потом

Hello, Андрей.
Андрюша! К тебе вопросов нет, только добрые
пожелания.
А вот к твоим старшим "спортсменам" , их в Керчи два
вопросы были и остались, одни и те же.
А как бы работать и НЕ химичить?
Теперь по поводу твоего второго вопроса, Мне -57,
когда тебе будет столько-задашь этот вопрос, если еще
будешь в контестинге, как я...
p.s. В 1978 работал из Грузии в составе RF6F MOSTX
-1 место в мире.

Андрей да мастера вы непревзойденные,поэтому не стоит даже
напрягаться.Если все ваши потуги связаны с ВРТЦ,лично мое мнение-флаг
вам в руки и представляйте на здоровье страну.Только не надо так

Нет, в UR_top_band рефлекторе данная тема абсолютно не обсуждалась.
Да и не может по своему назначению. Там люди заняты по настоящему
радиолюбительскими темами и проблемами топ бендов.

Игорь, разве ты не знаешь, что у Ромы есть свой личный вертолет, на
котором мы сразу после теста облетели все позиции UZ2M (
а их у нас не мало), что позволило через 20 минут после окончания теста скинуть
результат в рефлекторы.
А в EU HF 2007, в котором ты был SO/UZ2M/UY5LW, разве не помнишь толпу
из 20-и операторов во главе с N5TJ, которые за тебя и отпикали весь
тест ?
Так что претензии корифеев вполне обоснованы! :)

В радио вообще никто никому не обязан. Все наше хобби - это игрушки для
взрослых :) Но с другой стороны - почему бы и не выложить - тест все
равно ведется в каком-то из логгеров,интернет есть по-любому. Так
почему бы не нажать сразу после теста rescore и полученные циферки
отослать в рефлектор ?

Подсказую, формально 30 дней на прием отчет истекли, но
идут бумажные отчеты и на конверте стоят штампы отправки,
отвечающие требованиям Положения.
Вот и сегодня получил 6 отчетов, в некоторых по 400-600 ЩСО
на бумаге. Вообщем готовы будем показать заявленные результаты как
только ВСЕ бумажные ЛОГи введем в PC.
Спасибо за работу в этом направлении: UT4EK 12logs,UR3QCW -11logs,
UT1QL-3logs,UR7QM-10logs,UR7HCX-2logs,UT5ECZ-12logs....
Бумажные отчеты еще есть, может найдутся желающие помочь с набором в
PC?

Юра! Так оказывается в АРХИВЕ рефлектора лежит ИНТЕРЕСНАЯ информация
на эту тему. Просто в свете вновь открывшихся фактов она становится ну
ОЧЕНЬ увлекательной:

Так что может с ваших берегов кто SO 3radistom был для UU7J
(SO UU0JM)?

Второй радист известен, он сидел рядом и по спотам
магнитофонной неизменной фразой давил :))
И, это заметь, все было подано без ASSISTED!

Сейчас SO 1 radist i SO 2radist набрали в рот воды и...молчат.
А были бы мужиками, покаялись, перевели бы свою SO3Radista UU7J

Если в категории HP - пожалуй да. Я вот работал оттуда в URDX-07 в

Провел 970 связей CW. Как появятся заявленные результаты - делайте

FT-1000MP был 100-ваттный вариант, по показометру даже меньше было -
ватт 80. Больше всего прозрел когда W1MK на 160 позвал :)
А вообще впечатлений от работы на 100 Вт - масса!

На счет переноса в Регламенте небольшая недоработка есть. Уведомлять
надо если перенос осуществляется на территорию другой области. Если
перенос внутри области происходит - ничего об этом не сказано. Но на
всякий случай Крымский филиал УГЦР (ex ГИЭ по АР Крым) я уведомил ;-)

Не в поддержку и не в осуждение UU7J...
Вспоминается такой случай.Год примерно 1987 или 88-й.Если не ошибаюсь
после телефонного Кубка общаюсь с друзьями на 20-ке и обсуждаем
тест.В процессе разговора "отпускаю" такую фразу (дословно):"Чтобы
работать так как RB5QW (а результат был что-то около 860 QSO ещё
с "теми" обменными,кто помнит,номерами),мало работать
с "коллективки" -надо иметь две головы".
Тут же включается RB5QW и без грубости,но нервно парирует,что я не
имею права такое говорить,потому как доказательств у меня нет (что
правда).Сошлись на том,что предложил ему повторить результат на
следующий год (первый год когда начинали требовать магнитофонную
запись).Точно помню что "повторения" не было.
И сейчас у меня нет доказательств тех "двух голов",но кажется теперь
персонажи и взгляды поменялись.....

The complete 40 hours of the K5ZD single operator all band operation during
CQ WW Phone 2007 is now available on my web site. Visit
http://www.k5zd.com/live/wwph07/index.html

I did not do any processing to reduce the file size. Each file covers one
hour and is 10.5 Mbytes. Please be patient when you click on listen as it
may take some time to download depending on your connection speed.

A log snippet is included for each file. This will let you follow along
with what is happening. The files show which QSOs are multipliers or
dupes.

Thanks for listening. Let me know if you find any problems (or if you like
them).

And thanks everyone for working me. Couldn't have done it without you!

Randy, K5ZD
